D. N. Shoemaker

FEB 17 1925

Mr. and Mrs. Seed Buyer: Do you want seeds that will grow? That will make a good garden when planted? That will supply your table with delicious vegetables and your home with beautiful flowers? And that will make good harvests in your fields? Then order the O.K. Seeds from this catalog.

HOW TO ORDER

List pkts. and oz. first on back of order sheet so that you can take advantage of the discount. Then list bulk seeds—lbs., bushels, etc., on the first page. (Select seeds by pkts., ozs. and $\frac{1}{4}$ lbs. —\$1.25 worth for each \$1.00.) Remit by registered letter, money order, bank draft or personal check. Postage stamps accepted for a fraction of a dollar. Be sure to sign your name and full address. Don't order freight shipments to stations where there is no agent unless you send enough extra to prepay freight.

**We prepay postage on pkts., ounces and pounds up to 5 lbs. at prices given.
Keep this in mind when comparing our prices with others.**

AS TO WARRANTY

We exercise care to have all of our seeds pure and reliable, but in growing, buying, shipping and cleaning seeds, and in growing the crops from them, so many things may occur over which we have no control that we, in common with all other responsible seedsmen, do not give any warranty, express or implied, as to the description, quality or productiveness or any other matter of any seeds, bulbs or plants we send out, and will not be responsible for the crops.

\$1.25 worth of seeds in pkts., ozs. and $\frac{1}{4}$ lbs. for..... } **\$1.00**

This is our free seed offer for 1925: Send \$1.00 for seeds selected in pkts., ounces and quarter pounds to the value of \$1.25 and for each additional dollar sent for seeds in pkts., ounces and quarter pounds, select 30c worth more.

Culture Sow early in hotbed, or outdoors in May. Transplant to rows 3 feet apart and 2 feet apart in row. It is hardy in the north. One oz. of seed will sow 25 feet of row for plants.

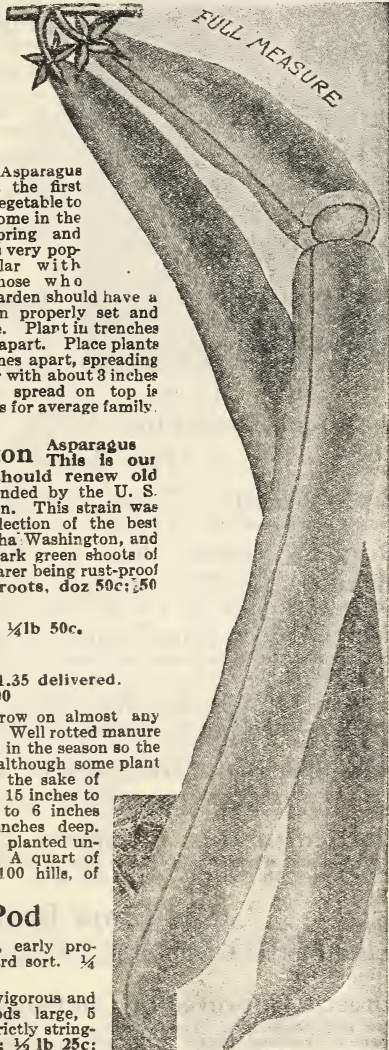

Green Globe The unripe flower heads are used,

Everitt's (OK)

Asparagus Seed

know its value. Every garden should have a generous supply and when properly set and cared for will last a lifetime. Plant in trenches 10 inches deep and 4½ feet apart. Place plants in the trench 12 to 15 inches apart, spreading roots out flat. Then cover with about 3 inches soil. Well-rotted manure spread on top is very beneficial. 100 plants for average family.

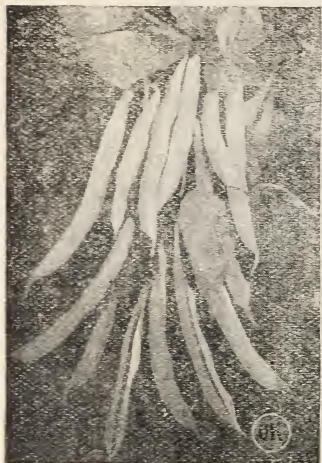

New Washington **Asparagus** This is our speciality; Everybody should renew old beds with it. Recommended by the U. S. Government at Washington. This strain was obtained by continual selection of the best plants of the variety Martha Washington, and produces large, straight, dark green shoots of excellent quality. It is nearer being rust-proof

Bountiful A most early variety of sturdy, upright growth. Free from rust and mildew, it bears continually for several weeks. Pods are seven to eight inches long, straight and flat, brittle and stringless. $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 25c; 1 lb. 40c; 5 lbs. 35c.

Full Measure A fine early stringless, high quality bean. Pods straight, 6 inches long, very fleshly, round, crease backed and showing depressions around the beans. $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c;

Long Yellow Six Weeks $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c;

Wardwells Kidney Wax

Fordhook Bush Lima

Pole Beans

Ky. Wonder The most popular, green-podded climbing, or corn-hill bean; slender, early and productive. Pods 8 to 9 inches long, $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c.

Burger's Green Pod, or White Kentucky Wonder A very early, white seeded variety. Pods 6 to 7 inches long, round, slender and straight; very tender, fleshy and stringless. $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c.

White Dutch Case Knife Green snap, pods 7 to 8 inches in length, very straight and flat, string, mid-season; valuable as a shell bean. $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c.

Kentucky Wonder Wax One of the earliest of the pole wax sorts. Pods 8 to 9 inches long, thick, crease backed, very fleshy, brittle. $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c.

Red Speckled Cut-Short or Corn Hill

A well known, hardy, late and productive sort. Green pods, $3\frac{1}{2}$ to 4 inches long, straight and flat. $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c.

Horticultural or Cranberry (October Bean) An old, well known, standard sort. Stringless and of good quality; color dark green, splashed with bright red. $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c.

Pole Lima Beans

King of the Garden An improved strain of large, white Lima, $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 25; 1 lb. 45c; 5 lbs. @ 40c.

Dreer's Improved or Challenger Plants very vigorous, very hardy, late and productive. Pods contain 4 to 5 very thick, medium sized beans of excellent quality. $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c;

Small Lima, or Sieva Beans small and white on the order of Henderson's Bush Lima. Plant of large growth, very early, and productive. $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 25c; 1 lb. 40c;

Horticultural Greenish yellow pods splashed with red. $\frac{1}{4}$ lb. 15c; 1 lb. 40c; 5 lbs. @ 35c.

Large White Marrow Large, oval-shaped, white beans, grown as a field crop for baking. $\frac{1}{4}$ lb. 10c; $\frac{1}{2}$ lb. 20c; 1 lb. 35c; 5 lbs. @ 30c.

Navy or Pea Bean A small round, white bean, extensively grown as a field crop. $\frac{1}{4}$ lb. 10c; $\frac{1}{2}$ lb. 20c; 1 lb. 35c; 5 lbs. 30c

Red Kidney The beans are deep red in color. Much raised as a field crop. $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 25c; 1 lb. 35c; 5 lbs. @ 30c.

WARDWELLS KIDNEY WAX

This is our specialty in Wax Beans. A very popular, early variety. Pods large, $5\frac{1}{2}$ to 6 inches long, moderately stout, straight and flat, fleshy, brittle, fine grained and stringless, very attractive. $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c.

Golden Wax Very early and quite productive; flesh brittle, stringless and of good quality; seed white, much mottled brown. $\frac{1}{4}$ lb 15c; $\frac{1}{2}$ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c.

Wonder Wax Beans Brings highest market prices—is a wonderfully heavy yielder—stringless and tender—fills every need for home and market. slim, flat, plump, handsome and meaty pods. This is the earliest wax-podded bean in bearing for a long season. $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 25c; 1 lb. 45c; 5 lbs. @ 40c.

Keeney's Rustless Golden Wax $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c

Davis White Seed Kidney Wax $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c

Black German Wax Early; a standard sort. $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 20c; 1 lb. 40c; 5 lbs. @ 35c.

Bush Lima Beans

Henderson's Bush Lima A vigorous, hardy, very early and small type of Bush Lima; much in favor with family gardeners and canners. Also much raised as a field crop for dry beans. $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 25c; 1 lb. 45c; 5 lbs. @ 35c.

Burpee's Imp. Bush Lima Both beans and pods larger than the old type; average one more bean to the pod; $\frac{1}{4}$ lb. 20c; $\frac{1}{2}$ lb. 35c; 1 lb. 55c; 5 lbs. @ 50c

Preferred by many, particular, market gardeners. Very thick white beans. $\frac{1}{4}$ lb. 20c; $\frac{1}{2}$ lb. 35c; 1 lb. 55c; 5 lb. @ 50c.

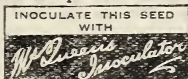

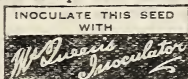

Burgher's Stringless This Shows How Prolific the Vine is.

Yard Long Beans or Chinese 3 feet

An attractive and curious and delicious Pole Bean. With this bean the pods often grow to be nearly a yard long. Our customers have reported 37 in, 36 in, 34½ in, 34 in, 33 in, 32 in, etc. The whole pod and beans are crisp, tender and with a delicious Asparagus flavor, rivaling almost any of the little podded beans when cooked. If you want something in your garden, that will be the wonder and admiration of the whole neighborhood plant a package of this bean. Price, Pkt. 10c; 3 for 25c; 15 for \$1.00; ¼ lb. 20c; ½ lb. 35c; 1 lb. 65c. postpaid. A hint. Buy \$1.00 worth and sell them.

Whenever you buy Seed Beans you should buy Inoculator. It improves the crop regardless of how good your soil is. Garden size for 10 lbs. of beans with directions, 25c.

Everitt's (CK) Beet Seeds

Culture For best results, select a deep, rich loam and fertilize with well decomposed manure. Sow 14 to 16 inches apart, cover 1 inch. Thin to 4 to 5

inches apart. Or sow in beds and transplant to garden, plant as soon as ground is fit in Spring for early. For Autumn, plant May and June; for Winter, about July 1st, according to variety. One pkt. will make about 250 plants. One oz., about 800 plants; 7 lbs. per acre.

Extra Early Eclipse Round, very early grows good size, and is very tender. Has small top, bright red flesh. It is excellent for home and market. The O. K. strain is unexcelled. Pkt. 5c; oz., 10c; ¼ lb. 25c; 1b. 85c; 5 lbs. @ 75c;

Crosby's Egyptian Extra early. If you want to raise any beets in a hot bed or greenhouse, pick this kind. Grows very quickly. The color is the rich vermilion, so much admired by market gardeners and consumers. Also is one of the best in gardens. Pkt. 5c; oz. 10c; ¼ lb. 25c; 1b. 85c; 5 lbs. @ 75c.

DETROIT DARK RED This variety is one of the best deep red turnip beets, not only for market gardeners, but also for home use and canning. Its early maturity, and the splendid shape and color of the root make it popular everywhere. Color of skin dark blood red; very crisp, tender and sweet, and remains so for a long time. Pkt. 5c; oz., 10c; ¼ lb. 25c; 1b. 85c; 5 lbs. @ 75c.

Long Blood Red Requires longer to grow than the round ones, but you can get more of these from the same ground than of any other kind. For Winter table use or for stock, it can be planted as late as July or August. Pkt. 5c; oz. 10c; ¼ lb. 25c; 1b., 85c. 5 lbs., @ 75c.

CRIMSON GLOBE The most beautiful beet of all, if beets can be called beautiful. Especially on light soil, this handsome beet will be appreciated by all who try it. The skin and flesh are both very dark. Quality, the finest. Has a small top. Season late. A good keeper; Pkt., 5c; oz. 10c; ¼ lb. 25c; 1 lb. 85; 5 lb. @ 75c.

Early Wonder An Improvement, by Selection, of Crosby's Egyptian. As a variety to bunch for the market, it has no equal. Color is a rich dark red, small top, single tap root and a fine keeper. It merits a place in every garden, private or for market. Pkt. 10c; oz. 15c; ¼ lb., 50c; 1b., \$1.00

Nuttings Early Gem

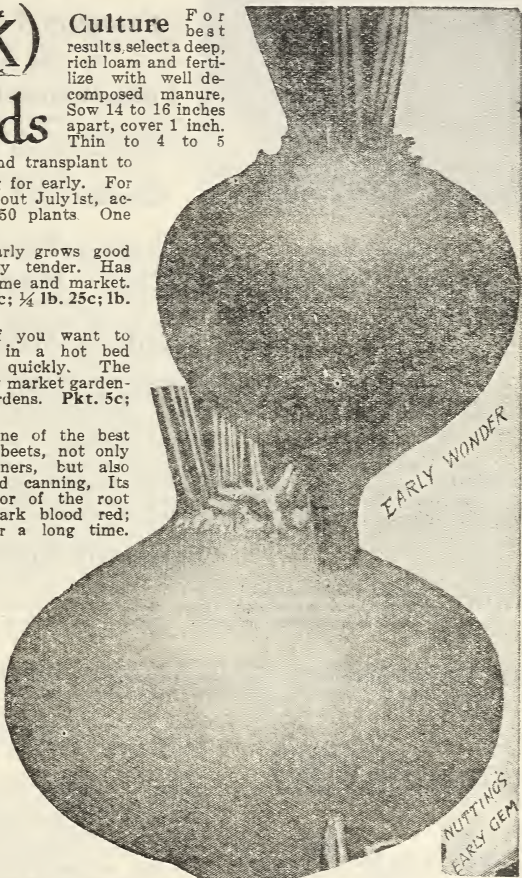

Unexcelled in Quality and Appearance—This new beet will be esteemed on account of its desirable shape, smooth beautiful appearance and unexcelled quality for the table. The color of skin and flesh is bright red. Solid, sound and crisp. Highly recommended for stewing, canning, pickling and if planted late, it makes a good Winter beet. Pkt. 10c; oz. 15c; ¼ lb. 35c; 1b. \$1.00.

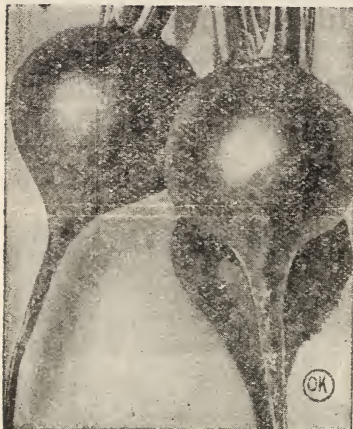

My Early Wonder beets were wonderful Every seed planted produced a beet of excellent quality. The Swiss Chard was fine also. The Harris Early Pepper was extra, very prolific, and extra early. The "President" Canna was a popular bloomer, very beautiful under after a hard freeze.

MRS. GRACE S. HADLOCK, Elk City, Kans. 11

I have used O. K. SEEDS of almost all descriptions and have never found any better seeds, that I have ever used. I am a grower of watermelon seeds for several years and always get my seeds from you. I can always recommend O. K. SEEDS.

FRA N K J E I D E N, R. F. D. 1, Buffalo, W. Va., -9 Jan. 12, 1925.

MANGELS AND SUGAR BEETS

Mammoth Long Red Mangel If your soil is fairly deep, this is the one to plant. Grows very long and large, much out of the ground. Makes a great yield, as much as 60 tons to the acre. The favorite with dairymen and sheep raisers. Pkt. 5c; oz. 8c; ¼ lb. 15c; lb. 50c; 5 lbs., @ 40c.

Golden Tankard Mangel This variety grows almost entirely on top of the ground. It therefore is well adapted where the soil is not loose to much depth. Shape, oval; color, deep yellow; quality, good; productive, early, easily harvested. Pkt. 5c; oz. 8c; ¼ lb. 15c; lb. 50c; 5 lbs., @ 45c.

Champion Yellow Globe Mangel The best yellow globe mangel. Heavy yielder and has high feeding value. Pkt. 5c; oz. 8c; ¼ lb. 15c; lb. 50c; 5 lbs. @ 45c.

Klein Wanzleben Sugar This is the richest in sugar, but is not profitable to grow for stock, as it is small and roots deep in the soil. Only recommended for making sugar. It is stated that 18 tons of sugar has been made from 100 tons of this beet. Pkt. 5c; oz. 8c; ¼ lb. 25c; lb. 50c; 5 lbs. @ 45c.

Everitt's (CK) Culture Sow the seed in May. Plant in garden late in June or early in July, in rich mellow soil. Set 18 inches by 2 feet. Similar to Cauliflower.

Broccoli Seed Similar to Cauliflower.

Crimson Globe

Large White Heads compact and very certain to head. Delicious. White color. Pkt. 10c; oz. 40c.

Purple Cape Similar to the white except in color, which is brownish purple. Pkt. 10c; oz. 40c.

Swiss Chard—A Wonder Plant

This is one of the best and most productive garden plants for greens. Sow seed in spring in rows about 30 in. apart and thin plants to 12 in. apart. One sowing will keep you supplied all summer, until killed by frost, but the leaves must be cut off so new and tender ones will come. With protection it will stand over winter and be ready to use in the spring. The cooked greens are finer flavored than spinach. The heavy ribs may be boiled and served in melted butter or milk dressing when they are as delicious as asparagus. It ought to be in every garden.

Lucullus The best variety of Swiss Chard. Grows about 15 in. high. Has broad stems and beautiful yellowish-green leaves. Use the outside leaves for greens and the large white stems like asparagus. This crop is so easily grown and so good that it is surprising so few people grow it. Makes valuable green feed for poultry. Pkt. 10c; oz. 20c; ¼ lb. 50c; lb. \$1.25.

Brussels Sprouts

Culture Related to the cabbage family and produces a great number of small heads on the main stem. Plant the seed in moderately rich soil, in hills 2 feet apart each way. Leave only one plant to a hill. They are considered a great delicacy. Prepare like cabbage. One pkt. will give about 500 plants; one oz. about 2,500 plants.

Imp. Dwarf Market The favorite variety in most parts of the country. Delicate flavor. A sure cropper. Pkt. 10c; oz. 20c; ¼ lb. 75c.

Paris Market A half dwarf kind. Most excellent and a sure cropper. Pkt. 10c; oz. 20c; ¼ lb. 75c.

Culture Cabbage will succeed on any land that will grow good corn. New land is particularly good. The richer the soil the bigger will be the crop. Sow seed in hot bed or house for early, in beds for late or main crop. Early kinds set 18 inches apart. The late and large kinds in rows 2 to 3 feet apart and 2 to 3 feet in rows. Cultivate clean and thorough. Do not follow cabbage or turnips with cabbage. For early get the plants out as early as ground will permit. For late set

about middle of June in latitude of Indianapolis. O. K. Brand Cabbage Seed is unexcelled. One Pkt. will make about 300 plants, one oz., about 2,000 plants, one-quarter lb. for one acre.

Golden Acre

Everitt's (CK) Cabbage Seed

Extra Early and Early Varieties

Golden Acre Our most Valuable Cabbage Special for 1925. Market gardeners and private gardeners who plant this cabbage cannot praise it enough on account of its earliness and solid heads, often weighing 10 pounds. The plants are very short stemmed and the heads rest almost on the ground. It is very vigorous in growth and sure to yield good crops even in bad seasons. It matures before early Jersey Wakefield. Pkt. 15c; oz. 65c; ¼ lb. \$2.50

Early Flat Dutch This desirable cabbage comes just at a time when there is an excellent demand for the flat head varieties and when the market usually pays the highest prices; Pkt. 10c; oz. 20c; ¼ lb. 65c; lb. \$2.25.

Everitt's Selected *Early Jersey Wakefield*

The most widely known and popular early variety; heads pointed and very solid. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 75c; lb. \$2.50.

Charleston Large Wakefield

75c; lb. \$2.50.

Only about one week later than Early Jersey Wakefield, but the pointed heads are fully one-half larger. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb.

Early Summer

75c; lb. \$2.50.

Heads medium in size, round, somewhat flattened, compact and solid. Ten days later than Jersey Wakefield, one of the best large, second early sorts. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb.

Copenhagen Market

lb. \$3.00.

Very fine, nearly as early as Jersey Wakefield, stem short, heads large, round and solid, of an upright growth with few leaves. Pkt. 10c; oz., 30c; $\frac{1}{4}$ lb. \$1.00

Louisville Drumhead

Pkt. 10c; oz., 20c; $\frac{1}{4}$ lb. 75c; lb. \$2.50.

Second early, heads large and solid. One of the best to withstand Summer heat.

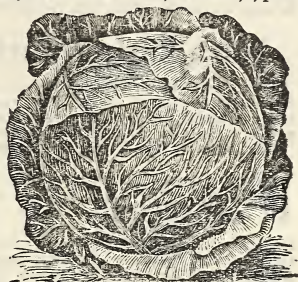

Early Winnigstadt, True Stock

lb. \$2.50.

Medium early, short stemmed; pointed heads, solid, early pointed heads, very productive. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 75c;

All Head Early

One of our Specialties. It is as early as early summer cabbages and makes such large, uniform, handsome, solid heads that it competes with the later fall varieties. Unsurpassed in eating qualities. For Fall and Winter should be sown, late. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 75c; lb. \$2.50.

Copenhagen Market

All Head Early. Desirable in every garden and a fine market variety. Always pleases.

Late and Winter Varieties of Cabbage

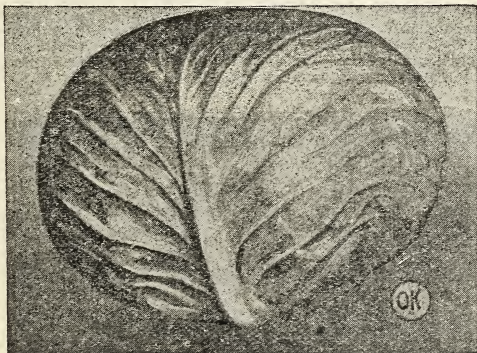

Everitt's *Premium* LATE FLAT DUTCH

A justly popular and esteemed variety; extensively cultivated for market and family use. Heads large, flattened and very firm, has a medium stem and is very hardy. Excellent for slaw and famous for kraut. Practically 99 of 100 plants will head, of our Premium Stock. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 75c; lb. \$2.50.

Surehead, Selected Stocks

25c; $\frac{1}{4}$ lb. 50c; lb. \$2.50.

"All Head and always sure to head" Heads are large, round and flattened, very hard and fine-grained; splendid keeper. Pkt. 10c; oz.

Danish Winter Ballhead

Large Late Drumhead

A favorite winter cabbage; recommended for its fine, large, deep, heavy and solid long-keeping heads on short stems. Can be kept in good condition till late in the spring. This is one of our Specialties. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; lb. \$2.50 postpaid.

Mammoth Red Rock

A few heads of red cabbage come in very nice for pickling and odd purposes. This is the best kind. Pkt. 10c; oz. 25c.

Savoy Cabbage Perfection

The best Winter keeper of the Savoy; heads late, round, compact and solid; Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c.

Danish Winter Ballhead

As a cabbage for late Winter and Spring, this one from Denmark is hardly excelled. It is a rough and ready sort, thriving very well on thin soil and in adverse seasons. It is well and favorably known on nearly all markets and is sought after in March and April

when it comes out of the pits as fresh as when put in. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 85c; lb. \$3.00

Cabbage Plants

We can supply leading varieties of cabbage plants beginning March 20. Send for our list and prices.

Cauliflower Seed

Early Snowball For forcing or growing in open ground, it is the acknowledged leader. It has short outer leaves and can be planted 2 feet apart. Is early, solid, pure white and is sure to head. Pkt. 15c. $\frac{1}{2}$ oz., \$1.25; oz., \$2.00.

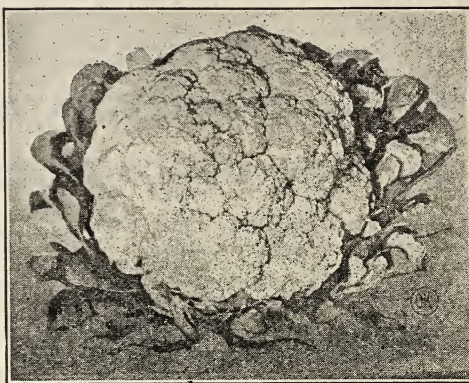

Extra Early Dwarf Erfurt

Our stock of this variety is almost as early as the Snowball, heads are larger and creamy white. Has many friends and by some is even preferred to the above variety for forcing and outdoor growth. Pkt., 15c; $\frac{1}{2}$ oz., \$1.25; oz., \$2.00.

DRY WEATHER CAULIFLOWER

This variety is of vigorous and dwarf growth and produces stone-hard and snow-white heads. As indicated by the name, it is a leading type for dry weather districts, being a sure header when other sorts fail sometimes on account of the weather. Pkt. 15c; $\frac{1}{2}$ oz., \$1.25; oz., \$2.00.

Culture Treat very similar to cabbage. Ground should be rich. Cauliflowers make their best growth in the cool, moist days of Fall. One oz. will produce about 2,000 plants, one pkt, about 300 plants.

Snowball, large, solid, white heads. Sure to succeed.

Pe-Tsai or Cabbage Celery

Pe-Tsai It is a species of Cabbage with a fine delicate flavor, as tender as head lettuce, and in great demand for numerous dishes such as salads and cold slaw, or it may be cooked quickly. The culture, storing for winter, etc., are same as for late Cabbage. It cannot be grown successfully as a spring crop. For fall crop, seed should be sown early in August. Pkt. 5c; $\frac{1}{2}$ oz., 15c; oz. 25c. $\frac{1}{4}$ lb. 75c;

Everitt's (CK) Carrot Seed

Culture This is a delicious and nutritious vegetable is not appreciated as it should be. Properly cooked, it is a great delicacy. A sandy soil is best, but any good rich soil will produce good crops. Sow in early

Spring in rows 15 to 18 inches apart and thin to 3 to 4 inches according to size of variety. Cover the seed half an inch and give good cultivation throughout the season. They may be eaten either when a half inch or so in diameter, or when fully grown One pkt. will sow about 40 feet; one oz., 150 feet.

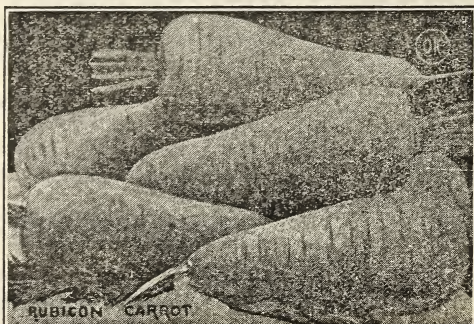

Rubicon The Best in shape—Finest Quality Carrot.

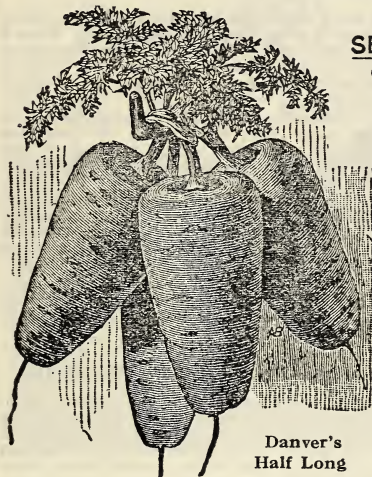

This fine carrot is earlier than the famous Danvers and about the same size. The flesh is deep red orange color of the finest quality. An ideal kind for bunching for market and the home garden. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 50c; lb. \$1.50.

Extra Early Scarlet One of the earliest, small round root. For garden as well as under glass. Pkt. 5c; oz. 10c; $\frac{1}{4}$ oz. 30c; lb. \$1.00.

Improved Long Orange This is the old standard late variety. If it is a matter of keeping for late Spring, sow Long Orange. It is a very heavy producer. Give deep light soil. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c lb. \$1.00.

Chantenay or Model This carrot comes between the very early and later varieties Of the same style as Danvers, not quite so large, but finer quality Color rich, dark orange. In some markets is preferred to others for bunching. In shape and quality this leaves nothing to be desired in a medium season carrot. Pkt. 5c; oz. 10c. $\frac{1}{4}$ lb. 30c lb. \$1.00

Danver's
Half Long

**SELECTED
DANVERS**
HALF LONG

Color, rich dark orange, very smooth cylindrical, very handsome; easily harvested. It is a very heavy yielder.. Pkt. 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb. 90c.

Half Long Nantes Grows 6 to 8 inches long. Skin, rich orange color and smooth. For table very fine and free from woody fiber. Pkt., 5c; oz., 10c. $\frac{1}{4}$ lb. 30c; lb. \$1.00.

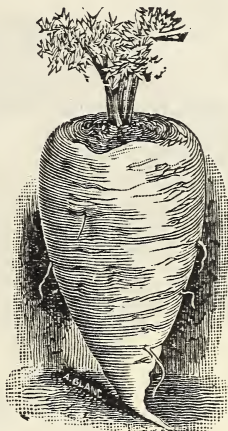

Ox Heart also called GUERANDE It is very early, short thick and extra fine quality. It is also very popular as an early bunching kind for market. Deep orange color. Finely adapted to shallow hard soils. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb. 30c. lb. \$1.00

Carrots for Stock Feeding

Culture Sow any time before July 1st, and cover one-half inch deep. Two lbs. to the acre.

Ox Heart

Short White Vosges

Belgian White This and the Belgian Yellow are stock carrots. They differ only in color of skin. Ten to 15 inches long, very large and productive. Can be pulled by hand. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 75c.

Belgian Yellow Same, except color. Same price.

Improved Short White Vosges

Shorter and thicker than the Belgian. Very productive. Easily harvested. Pkt. 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 75c;

Everitt's (CK) Culture The roots, dried and ground, are used as a substitute for coffee, also are very palatable when cooked. Sow early in the Spring in rows 18 inches apart and thin to 6 inches between plants. The plants are perennial and spread from the roots.

Chickory Seed Large Rooted The dried roots are roasted and mixed with coffee or used as a substitute. Pkt. 5c; oz., 20c; $\frac{1}{4}$ lb. 65c;

Witloof (French Endive) A delicious new salad, plant that should be in every garden. Seed when sown in May or June form long, parsnip shaped roots; The roots are than taken up and placed in sand in a warm dark place when they make growth of lettuce-like leaves which are cut and served as a salad. Pkt. 5c; oz., 20c; $\frac{1}{4}$ lb. 65c;.

SOME ODDS AND ENDS

Everitt's (CK) Culture Sow in early Corn Salad Seed Spring. Also August, September or October, and treat like lettuce, except that it may be planted closer, as it is smaller.

It may be carried through the Winter in cold frames or by covering with leaves or litter. Used as Fall and Winter salad. Serve like lettuce or spinach. One oz. to 100 feet of row.

Large Round Leaved The well known variety. Ready to use in 4 to 5 weeks. Pkt. 5c; oz., 15c; $\frac{1}{4}$ lb. 50c;.

Everitt's (CK) Culture Sow seed as for Collard Seed cabbage, in June July and August for succession When a month old, transplant in rows a foot apart each way and cultivate thoroughly. One oz. will make about 2000 plants

Collard Seed

Georgia, also called Southern Bears large bunches of leaves in the South throughout the Winter which are used as greens. It also furnishes green forages for stock and poultry. As fast as the leaves are pulled off, new ones make their appearance. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb. 50c.

Everitt's (CK) Culture The same as for sweet corn except the same weight or bulk of seed will plant about twice the space Three qts. will plant an acre.

White Rice The standard variety, salable on all markets. Very prolific. Pkt., 5c; $\frac{1}{2}$ lb. 15c; lb. 25c; 5lbs. @ 20c.

Queen's Golden The largest eared, largest grained variety. Very productive. Pkt., 5c; $\frac{1}{2}$ lb., 20c; lb. 35c. 5 lbs. @ 30c.

Japanese Hulless A splendid new variety much in demand by poppers Used exclusively in many sections where known. Yieldy and commands 50% to 100% better price per pound than other sorts. Pkt. 5c; $\frac{1}{2}$ lb. 25c; lb. 40c; 5 lbs. @ 35c.

I have been planting the China Cucumber for four or five years. It is an early cucumber and I like it very much for slicing for use on the table. I also have grown Bells Colossal tomatoes for seven or eight years. It is not as early as others but it has an excellent flavor.
W. J. MORRISEN, 301 W. Maple, Mt. Pleasant, Mich-24.

Everitt's (CK) Celery Seed

Culture Plant seed in house or hot bed for early plants. For main, late crop, it can be sown early in open ground. When 3 inches high transplant to 4 inches apart. When well rooted transplant again to the permanent place, on surface or in trenches. Set plants 8 to 10 inches apart. One pkt. will produce about 800 plants; one oz. about 4,000.

EASY BLANCHING CELERY

Notwithstanding the splendid varieties of celery that were before the gardening public, this new variety is already enjoying an enviable popularity, purely on account of its great merit. Plants of Easy

Blanching set out at the time of Golden Self Blanching will be ready for market two weeks later than that variety, but will produce about twice as much weight and will sell at higher prices, because of its magnificent appearance and high quality. Its habit is dwarf and compact with a wealth of rich, crisp, nutty flavored hearts and stems, every bite of which will be relished. It blanches with the greatest ease, quite a time before it is possible to get other green celeries ready for market or the table. It is a celery for Summer, Fall, Winter and Spring. Pkt. 10c; ½ oz. 25c; oz. 50c; ¼ lb. \$1.50.

This New Celery Brings the Highest Price

Winter Queen Celery

Twelve Plants Weighed 61 ½ lbs.

Some growers consider this grand variety even better than the winter King. It grows stout, thick and heavy, with more heart than most other kinds. It bunches up handsomely, presenting an attractive appearance when offered for sale, while it has that sweet nutty quality so much desired in celery. The leaves are light green, which, with the stems, blanch easily to a creamy white. Pkt. 10c; oz. 30c; ¼. 1.00.

NEW ROSE—This is the best of the red or pink varieties. Early, hardy, solid, crisp and fine nutty flavor. Pkt. 5c; oz. 20c; ¼ lb. 85c.

CELERIAC (Turnip-Rooted Celery)—Large Smooth White. The best variety, extensively used for soups and salads. Pkt. 5c; oz. 20c.

Golden Self-Blanching Our strain of this variety is unexcelled. Plants compact and stocky, with yellowish-green foliage; stalks perfectly solid, of a fine, nutty flavor, attains a good size, and when blanched is of a handsome golden-yellow color. Pkt. 10c; oz. 50c; ¼ lb. \$1.50.

Dwarf Golden Heart Has been a great favorite in the home garden. The heart is large and blanches a beautiful yellow after storing; it requires little trimming for the table. Pkt., 10c; oz. 40c; ¼ lb. \$1.25.

Giant Pascal, or Winter King—A compact, vigorous, productive variety and one of the best for Winter use. Leaves upright, short and

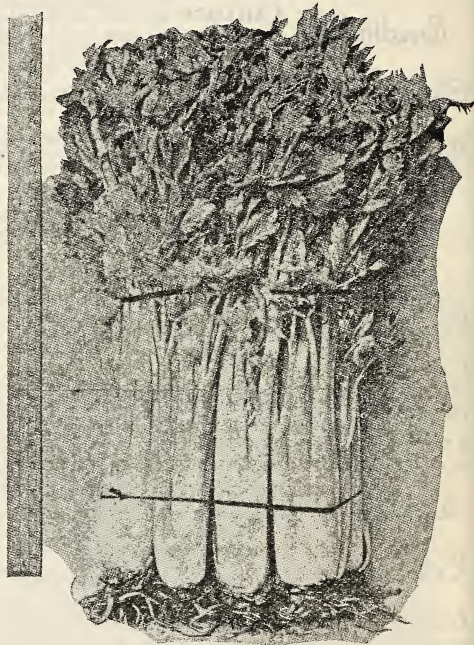

dark green: Stalks short, thick and broad; blanches a beautiful yellowish-white. Pkt. 10c; oz., 40c; ¼ lb. \$1.25.

Golden Plume or Wonderful

Originated in New Jersey and our seed is grown there. The first shipment of this variety to New York City brought \$1.25 a bunch. Growing it and other good varieties has made the originator wealthy. Our seed has been saved from the best and earliest plants, every stalk a perfect one.

Description—Matures 2 to 3 weeks before any other kind and blanches in half the time required by others. Broad stalks, does not grow hollow. Crisp, tender and all of it, including foliage, is good eating. Seed is in small supply.

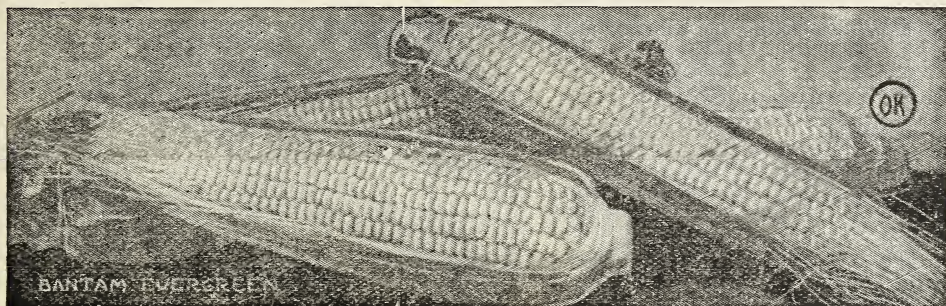

To Confirm what we claim for this celery we are pleased to refer you to the following: Prof. Homer G. Thompson, Cornell University, Ithaca N. Y., Dr. Thomas F. Manns, Delaware Agr. Sta., Newark, Del. or Walter Wheatley, 202 Dock st., Phila. Pa. Price Pkt. 25c; oz. \$1.50, ¼ lb. \$5.00.

Golden Plume or Wonderful. This bunch was taken from a shipment of two carloads. It was not selected, but was an average bunch. The 12 plants weighed 61 ½ lbs.

Everitt's (CK) Seed Sweet Corn

Culture If you do not care for the seed that may be lost plant some sweet corn even before the ground is very warm. If it comes you will have earlier roasting ears. Ordinarily, plant when ground is warm. The small early kinds plant in rows 2½ feet apart, 10 inches apart in rows. Large kinds, 3 feet by 12 inches apart. Plant frequently for succession. One pkt. will give about 200 stalks; one qt. will plant about one-fifth acre.

Bantam Evergreen Sweet Corn Sweeter than Golden Bantam, almost as tender as Stowell's Evergreen. This is a cross between Golden Bantam and Stowell's Evergreen, the combination having produced a new variety of finest qualities. The ear is a third larger than the Golden Bantam, but only 10 days later. Color, rich, golden yellow. A true sweet corn. Think of this: A market gardener grew 8 acres and sold the entire crop at 22 to 25 cents a dozen when other kinds sold at 15 to 20 cents. ¼ lb. 15c; ½ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c. prepaid.

Golden Bantam It is very early, very sweet, very hardy and very productive. It becomes a favorite with all who grow it or eat it. Dwarf, can be planted closely. The prime favorite for small gardens and early market. ¼ lb. 15c; ½ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c. Postpaid.

Mammoth White Cory The largest and best of extra early sweet corn. Ears, 10 to 12 rowed, 7 to 8 inches long, sweet, tender and white. Stalks about 4 feet high, usually producing two ears on each stalk. ¼ lb. 15c; ½ lb. 25c; 1 lb. 40c; 5 lbs., @ 35c. Postpaid.

Early Evergreen This is similar to Stowell's Evergreen, except that it is almost two weeks earlier and the ears are slightly smaller. It is of very high quality and is valuable as a second early variety. ¼ lb. 15c; ½ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c; postpaid.

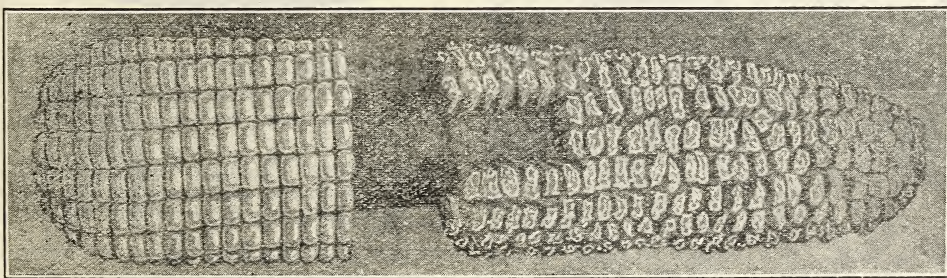

Howling Mob A big-eared medium early corn with the sweet flavor of the late varieties; ears 7 to 9 inches long; usually two pearly white ears to the stalk; the shuck extends well over the tip and protects it from the green worm so destructive to early sweet corns. ¼ lb. 15c; ½ lb. 25c; 1 lb. 40c; 5 lb. @ 35c. Postpaid.

Country Gentleman An especially fine quality corn. Ears 7 to 8 inches long, cob small, white and densely covered with long, slender, white grains, in irregular rows. Season with Stowell's Evergreen. ¼ lb. 15c; ½ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c. Postpaid.

Black Mexican Where color is not an objection, but luscious sweetness the chief consideration, this black corn (or blue when in roasting ear stage) is unsurpassed. Recommended for home use. ¼ lb. 15c; ½ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c.

Early Adams This is not a sugar corn. Hardier than sugar corn; makes a small stalk; can be planted close. ¼ lb. 15c; ½ lb. 20c; 1 lb. 35c; 5 lb. @ 30c.

Hoosier Roasting Ear Corn This is not a true sweet corn, but is of the Early Adams type and fills the same place in the late class of table corns as the Adams does in the extra early and early kinds. This variety is of our own introduction and is now grown by the field by many gardeners and farmers and marketed in wagon loads. Pearly white, white cobs, large, 11 to 16 rows. Sure cropper. ¼ lb. 15c; ½ lb. 20c; 1 lb. 35c; 5 lbs. @ 30c.

Stowell's Evergreen, Bottom shows in green state for table; next, the size of cob, and top, as the grain is dry for seed.

Stowell's Evergreen The Leading Main Crop Sweet Corn. I know that nearly every person who raises any sweet corn plants some of this variety. Every person just dotes on the big juicy "roasting" ears when the Stowell's Evergreen comes. It is more largely grown for home market and canning than any other kind. It remains tender a long time. Season late. Our O. K. Brand is unexcelled. ¼ lb. 15c; ½ lb. 25c; 1 lb. 40c; 5 lbs., @ 35c.  If you cannot use ¼ pound we will sell a 10c pkt. of any kind

Everitt's (CK) TRADE MARK

Cucumber Seed

Culture

Cucumbers must have rich soil. New ground is the best. Plant when ground is warm, in hills 3 to 4 feet apart. Thin to 3 or 4 plants to the hill. As vines grow cover occasional joints to induce new roots. Do not let them ripen on vines, or they will stop bearing. One pkt. will make about a dozen hills, two lbs. per acre.

King of Picklers

This cucumber is one of the grandest of all for pickling. It is fine in form, solid and thick. It is very productive, has yielded over 250 bushels per acre. It is also

adapted for slicing. Is desirable both for slicing and pickling for home and market. All gardens will be better by having the **KING OF PICKLERS** Cucumbers. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c; lb. \$1.50.

Early Frame, or Short Green

This is a famous pickle cucumber, producing cukes of medium size and of fine quality when sliced. Medium early. Pkt. 5c; oz., 10c; $\frac{1}{4}$ lb. 30c lb., \$1.00.

Green Prolific (Or Boston Pickling)

One of the most prolific varieties and is largely grown for pickles, being of right size. Also splendid kind for slicing.

Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., \$1.00

White Wonder

Fruit, produced in clusters, is symmetrical, short, blocky and rounded at both ends; color ivory-white from time of forming until maturity: moderately productive. Pkt., 5c; oz. 15c; $\frac{1}{4}$ lb. 50c.

Gherkin

The fruit is 2 to 3 inches long, oval and closely covered with spines. Used exclusively for pickling. Pkt. 5c; oz., 15c.

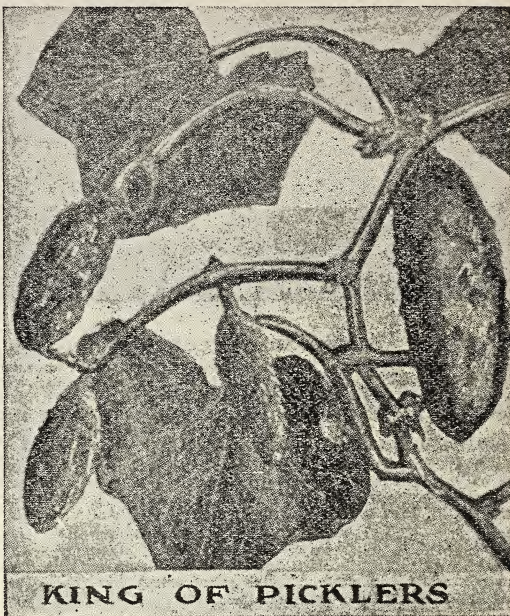

Everitt's Selected E. WHITE SPINE

Extra Select

The Old favorite, improved. If you want a good sized, plump cucumber, such as is used for slicing get the White Spine. They also are good for pickling when small. It is early, a splendid bearer, and fine crisp quality. Very productive. Color, dark green. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c.; lb. \$1.00.

Early Fortune

The finest shipping type produced. Early, very productive and disease-resistant; fruits 7 to 9 inches long, slightly tapering; long distance. Pkt., 5c; oz. 10c; $\frac{1}{4}$ lb., 35c; lb., \$1.25.

KING OF PICKLERS

IMPROVED LONG GREEN

This is the old, long cucumber that has always been the stand-by in tens of thousands of gardens. Our strain gets better each year from selection. On good ground, it will grow a foot long, slender, almost seedless, brittle. Grand for pickles, when small, and for sweet pickles when full grown. Pkt. 5c; oz., 10c; $\frac{1}{4}$ lb. 30c; lb., \$1.00.

Everbearing Cucumber

Imp. Long Green

Everbearing

For a continuity of crop this variety is hardly equaled. It produces pickling and slicing cucumbers of medium size until frost. Fruits of all ages and blossoms may be seen on the same vines. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

Giant Pera

One of the longest of the Long family; fruit often 15 inches long, slender and very smooth, crisp and solid, with few seeds; color dark green, novel, distinct and desirable. Pkt. 10c; oz. 25c.

In my 1924 order I received some Big Boston and Way-head lettuce seed from you, and I want to say were the finest lettuces I have ever grown. Many of my neighbors used some of the lettuce and were loud in its praise. The gladioli bulbs were the prettiest I have ever seen.

MRS. S. E. WHITE, Albertville, Ala., -7.

I want to mention to you that the Lucullus Swiss Chard we sowed in the last week in August, and it made a wonderful growth all fall and withstood the frost for a time. It is excellent green food for calves and chickens, also good to boil it for greens. But what delighted me the most of all was the wonderful butterfly bush the plant of which I obtained from you. It grew four feet high and was loaded with beautiful flowers that were admired by all who saw them. It was very lovely and true to your recommendation. E. D. MATHEWS, Portales, New Mexico-42

Everitt's (CK) Lettuce Seed

Wonderful, or New York

Heads Sometimes Measure 15 Inches Across

THIS new variety grows immense heads. It is distinguished from others by the rich, golden-yellowish color on the inside of the heart. The outside of the leaves is a dark green. It is crisp, tender and delicious. It is one of the best to resist heat and dry weather and grows very vigorously. We recommend it highly for mid-summer. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; lb. \$2.50.

Grand Rapids Black seed, loose head. This variety looks much like Simpson, but it is much better for forcing. It is in fact, the chief forcing variety of loose leaf lettuce. Its upright habit permits of close planting. Does very well in the garden, too. Crisp, delicious flavor. Hand some. A favorite market kind. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 60c; lb. \$2.00.

Perfection Black Seeded Simpson

Black seed, loose head, crumpled leaves, recommended very highly for an early, delicious lettuce. It does not form a head but a bunch of delicate green, almost white, crisp, tender and sweet leaves. It does not run to seed quickly. It is also a favorite for forcing. Largely grown for market. It is a kind that can be cut and it will come again. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 60c; lb. \$2.00.

All Seasons Black seed. Head. A very large, medium late heading sort. The heads are a light golden tint, well folded, with inner leaves blanched to a rich, buttery yellow, which is so much desired in serving various salads with mayonnaise dressing. Quality splendid. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 60c; lb. \$2.00.

Wonderful, or New York

Iceberg An extremely hard, heading variety. Has fine appearance in leaf. There is hardly another lettuce that gives better satisfaction both for home and market. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 60c; lb. \$2.00.

Prize Head Early (White Seed) A crisp and tender loose-leaved, heading sort, and one of the most popular; leaves much crumpled and excessively frilled at the borders; color light brown on a medium green base; quality good, Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 60c; lb. \$2.00.

Trianon Self-Closing An extremely large strictly self-blanching Cos Lettuce. Leaves oval in form; flat and smooth, forming into a loaf-shaped head. Color dark green, quality excellent. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 60c; lb. \$2.00.

MAY KING THE EARLIEST Makes large solid heads 6 to 7 inches in diameter. HEAD LETTUCE when forced with broad light green outer leaves. Grown outdoors, it is extremely early; The center blanches rich yellow. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 60c; lb. \$2.00.

Brown Dutch (Black Seed) A late heading, medium-sized variety; leaves broad, very thick and smooth, with plain edges color dark-green, overlaid bronze red; head firm and buttery-yellow inside. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 60c; lb. \$2.00.

Imp. Hanson (White Seed) Head. We have had the Hanson lettuce as long as the writer remembers and there is no likelihood of its popularity waning for some years. It is one of the best mid-summer head sorts. Light green outside, white within. Deliciously sweet. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 60c; lb. \$2.00.

I Purchased some China Cucumber seed of you in 1924 and wish to say that, that cucumber was one of the finest for slicing and pickling that I ever saw. The Swiss Chard grew rapidly and was very tender and grew very rapidly. Your Easy Blanching celery was no trouble to bleach, and was brittle and juicy. J. L. DOW, R. F. D. No. 2, Belleville, Ark.-31.

I write to you to say that I have the finest China Cucumbers that I ever saw grow. The Greater Baltimore tomato is a fine tomato. The Farmers Interest, and Mortgage Lifter was fine but the drought cut it short and I hope I have better luck next season, which I know I will with your seeds. MRS. W. A. KOONTZ, Steubenville, Ky.-30.

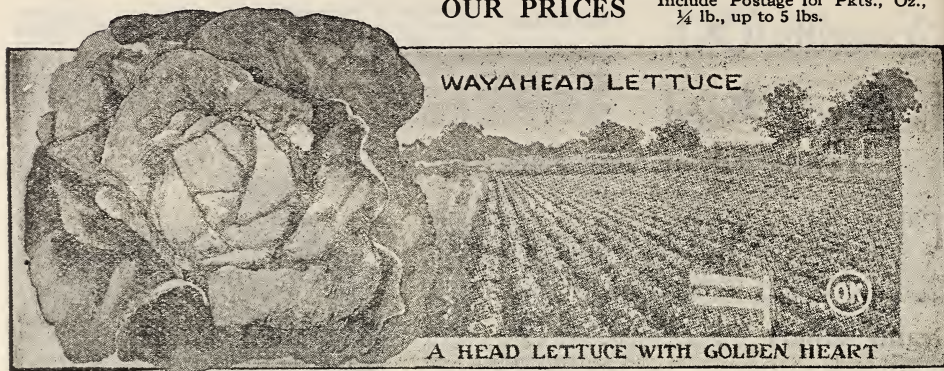

CHINA CUCUMBERS Climbing

A most remarkable new, long green Cucumber from China. Don't confuse this with the Japanese Climbing Cucumber. It is a much finer variety. The Cucumbers grow about twice as long, about 20 inches, and are slimmer, 2 to 3 inches, and handsomer. Color deep green. The flesh is solid, crisp and fine flavor, free from any bitter taste. Vines grow strong and are very productive. They will

vine on the ground or may be trained on a trellis or any support. The cucumbers are early bearing for use almost as early as shorter kinds. We recommend this cucumber as a variety of much merit for the table as well as one of the most novel vegetables. Pkt. 10c; 6 for 50c; 15 for \$1.00; oz. 25c; $\frac{1}{4}$ lb. 75c. A SUGGESTION—Buy by the dollar's worth and sell them.

OUR PRICES

WAYAHEAD LETTUCE

A HEAD LETTUCE WITH GOLDEN HEART

WAYAHEAD LETTUCE

The Earliest Hard-Heading Variety

ance, and splendid, crisp, table quality. For growth in cold frames, for Spring, Summer or Fall crops it has honored its name by giving a lettuce of the finest quality throughout the season. Get it for every garden. Pkt. 10c; oz., 25c; ¼ lb. 75c; lb. \$2.50.

The name of this lettuce was suggested by the fact that it comes way ahead of any other hard-heading variety. Every gardener will appreciate the combination of earliness, firm head, handsome appearance, and splendid, crisp, table quality.

California Cream Butter

Black seed. Head. One of the best of all in the class of cabbage heading lettuce for Fall and Winter. It forms large, nearly round, solid heads which are green, speckled with brown on outside, while inside they are a rich, cream color. Most beautiful. It is slow to run to seed. Medium early. Fine for the home gardens and market. Pkt. 10c; oz. 20c; ¼ lb. 60c; lb. \$2.00.

BIG BOSTON THE BEST HEAD LETTUCE

The Best Smooth-Leaved Market Garden and Shipping Lettuce. This grand lettuce, is more extensively grown than any other kind in many sections. This covers both for commercial sale and the home table. It is suited to grow in the open ground for early Summer and Fall use, in greenhouses for Winter or cold frames for early Spring. It produces, under ordinary conditions, fine large, creamy-white heads, of completely blanching leaves, crisp tender and sweet, and it has few outer leaves. Stands a long time. Big Boston is the leading variety for Winter growth in the South to ship to northern markets. Pkt. 10c; oz. 25c; ¼ lb. 75c; lb. \$2.50.

BIG BOSTON LETTUCE

It means comfort

In the Winter to
Plant O. K. Seeds
in the Spring.

The wonderful lettuce that I got from you last year, certainly was wonderful. It was as fine as any kind that I ever raised. I can praise "king of pickles" cucumbers and "Bell's Colossal" tomatoes.—W. F. SHARP, Granttown, W. Va.,—15. Jan. 11, 1925.

I have used O. K. Seeds for a number of years and think I couldn't have a garden without them. I have grown BELLS COLOSSOL tomatoes for two years, and do not think they can be beaten. They will thrive in any soil, wet or dry. They are fine in flavor and grow extra large. A fine tomato for canning and home use. A great yielder. No one would make a mistake in raising Bell's Colossal.—MRS. FLOYD DAUBENMIRE, Thruston, Ohio,—6 Jan. 12, '25.

Everitt's (CK) 

Muskmelon Seed

GOLDEN CHAMPLAIN

A Great Novelty Melon for 1925

(See Back Cover Page for Illustration)

has the high quality of the best late ones. They are not large, weighing 2 to 3 lbs. Nearly round and slightly ribbed. The flesh is very deep, tender, rich, golden color. The flavor is good, clear out to the thin rind. They can be picked "ripe" and shipped to market 500 miles away and arrive in good condition. The Golden Champlain is also extraordinarily productive. Probably this is because the vines are sturdy. The strong vines are frequently as thick as a man's thumb. With this melon it is the rule to sell around \$200 worth of melons per acre before competitors have any to market. The grower who will plant an acreage of Golden Champlain the year is in line to make real money.

Do These Quotations Mean Anything? "They come up to all your claims and more," Connecticut. "They are good lookers and good eaters, come early and stay late," New York. "They are the melon for me," Penna. "The only melon that will ripen in our short season," Idaho. "They got there quick before blight and rust hurt the vines," Fla. The Champlain is the only melon that ripened here this season," Maine. "I had 26 fine canteloups in one hill," Vermont. "You have proved to me that what you said of the Golden Champlain was true," Indiana. "They are sure money melons," Dakota. "I would rather have one acre of Golden Champlain than 5 acres of any other kind," Ohio. "Very early, flavor fine and a great market melon," Texas. Prices, Pkt. 15c; oz. 75c; $\frac{1}{4}$ lb. \$2.90; lb. \$6.00.

Benders Surprise

Mr. Bender, the originator of this melon gained a wide reputation for his high quality melons amongst a number of Eastern hotels while he kept the seed away from the trade. Now however other growers have the opportunity to procure it. The size of the melon is large, weighing about 10 lbs. but have grown to weigh 16 lbs. Ripens medium early. Color light green and coarsely netted. The flesh is deep orange, sweet and luscious. A valuable feature is that they will keep quite a while after gathering. Very fine for home and market gardens. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c; lb. \$1.50.

HEART OF GOLD

THE BEST ORANGE FLESH MUSK MELON

The melons are almost perfectly round, thickly netted and very firm so they stand shipping well. The flesh is deep orange color, firm, very sweet and of delicious flavor. The melons are about the size of Rocky Ford. Ripen near to the rind with very small seed cavity. The vines are vigorous, free from blight and very productive. An excellent melon for shipping as it "holds up" well after picking. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 40c; lb. \$1.40.

Culture

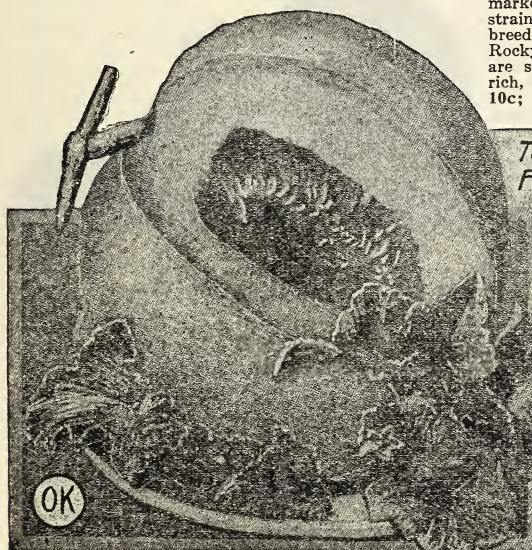

Select a light, warm soil; a poor light soil is better than a rich, cold, heavy one. Fertilize well. Lay off hills six feet apart. Plant a dozen seeds to the hill, but thin to two plants. Pinch the ends off of vines if they encroach on their neighbors, and this will also induce bearing. One pkt. will plant about 15 hills; an oz. 50 hills; 2 lbs. an acre.

From evidences we have seen this is the most remarkable Musk Melon or Cantelope ever originated. First, it is very early and all growers for Market know that the first melons on market bring about double the price. Second, it is the only very early melon that

Extra Early Knight (Green flesh) When we tell you that this melon is ten days earlier than Rocky Ford, about twice as productive and nearly double the size you will surely be interested in it. The melons are nearly round, skin netted, of light golden hue when ripe. The flesh is light green, blending to light pink at the center. The best early muskmelon for the North. A good shipper and is just splendid for home use. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c; lb. \$1.50.

Rocky Ford (Greenflesh) It is the best known and most extensively grown and marketed variety of muskmelons. There are several strains of this fine melon, the result of different growers breeding to different types. Our O. K. Strain of the Rocky Ford gives all that can be desired. The melons are small, slightly elongated, solidly netted. Flesh is rich, green, thick, luscious and melting. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; lb. \$1.25.

Ten Days Earlier than Rocky Ford. Twice as Productive.

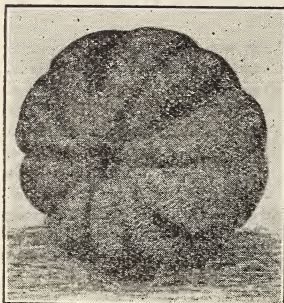

KNIGHT OR MARYLAND OR SWEET AIR

TIP TOP

(Salmon Flesh)

Greatest Late Market Melon—O. K. Strain is Unexcelled

TIP TOP. Claims the Market When It Comes

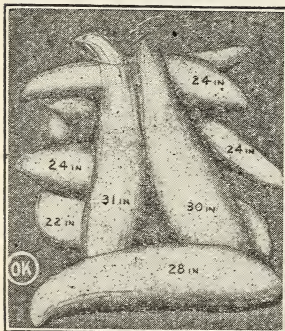

This I may say, is the melon for the millions to grow and eat. It is a sure cropper and practically every melon is a good one, if you plant a good strain of seed, sweet, juicy melting. Grows large, round, ribbed. Appearance is attractive. So popular is it on some markets that other kinds will not sell when it comes. The season is fairly late, but when it comes, its size, appearance and good quality command the market. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; lb. \$1.25.

Early Sugar Nutmeg (Greenflesh) Small globe shape, Skin dark green, covered with a shallow netting. Flesh thick, sweet, light green color. Extremely early. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; lb. \$1.25.

Hackensack (Greenflesh) Extra early. An old favorite. Fruit good sized, round, flattened on the ends, netted, thick meat, delicious flavor. Extremely productive. A favorite with market gardener and the home grower. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; lb. \$1.25.

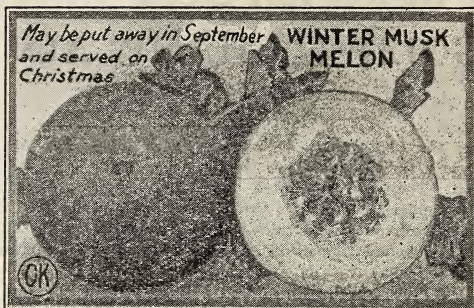

Giant Montreal Market (Green flesh) If you want to raise the very largest muskmelon that grows, and at the same time one that is a delight to eat, pick this one. On good ground they will average around 10 pounds each, but have often reached 20 pounds and one was reported as weighing 44 pounds. They are nearly round, heavily netted, deeply ribbed, thick flesh, season late. When they come to market they command high prices because of their magnificent size. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; lb. \$1.25.

Burrell Gem This is the yellow-flesh Rocky Ford. It has the same shape and about the same appearance, but the flesh is salmon-colored. It is a great yielder and of good qualities. One of the very best shippers. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; lb. \$1.25.

We pay Parcel Post on Seeds in Pkt., Oz., $\frac{1}{4}$ lb., lb. & to 5 lbs., at prices quoted.

Osage or **MILLER'S CREAM**—(Orange salmon) Skin is dark green, slightly netted, but nearly smooth. Medium size, egg shaped. The luscious, salmon flesh is what made it famous. The flesh is heavy, juicy, sweet, luscious and so thick that there is scarcely any cavity for the seeds. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; lb. \$1.25.

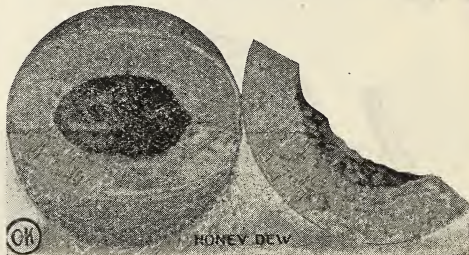

Winter Muskmelon A melon from Russia. It can be stored in September and used up to Christmas, therefore its name. Medium size. Besides being a great novelty it is of excellent quality and delicious flavor. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 60c.

Emerald Gem (Salmon color) About the size of Rocky Ford, but with smooth skin. Shape, flat round. The flesh is very thick, good almost to the rind with a very small seed cavity. A poor melon of this kind is a rarity. It is delicious. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; lb. \$1.25.

HONEY DEW MELON

Originated by crossing a melon that came from Africa with the Rocky Ford. The average size of the melon is 8 to 10 inches in diameter, solid and juicy. It has a delicious flavor all its own. One person describing it said: "It looks like a large grape fruit, tastes like sweet nectar, and has the mingling of the flavors of pineapple, banana and vanilla." A splendid shipper. Will keep many weeks after other melons are gone. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb., 40c; lb., \$1.50.

Banana Muskmelon

Novel Appearance; a Prize Winner; Good Quality; Succeeds on Ground Where Others Will Not.

A Curiosity and Prized by Many

SHAPE and appearance somewhat like an overgrown banana. It attains a length of from 18 inches to 3 feet, and a diameter of about 2 inches at the stem end to 4 to 6 inches at the largest part. The flesh is salmon, firm, juicy and sweet. The flavor is liked by many people better than the regular muskmelons. It is not merely a curiosity, but many growers find they bring higher prices on the market than the regular muskmelons. Also it is a melon that succeeds where others fail. **PRICE**—Pkt. 5c oz. 10c; $\frac{1}{4}$ lb. 35c; lb. \$1.25.

Among the seeds obtained from you the Banana Muskmelon proved to be the finest muskmelon I have ever grown.

BONNIE STODEMIRE, Peak, S. C.—46.

Everitt's (CK) Watermelon Seed

Everitt Earliest and Sweetest

The best home watermelon. Very early and deliciously sweet. It fairly melts in your mouth. This melon is the earliest and sweetest of all. It has been selected for many years for these qualities. The size averages from 10 to 15 pounds. The flesh is scarlet, of extra sweetness. It is also one of the most prolific known. Is adapted to grow on ground that will not produce other melons, and in northern latitudes where larger and later kinds will not succeed. Wherever you live plant some of them. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; 1b. \$1.25.

Indiana Sweetheart

There are two general classes of watermelons—round and long. Some prefer a round melon, others the long, but this preference is not so positive, except quality goes with the choice. Of round melons the Sweetheart is the choice of many. It grows large, is early, heavy, a long keeper, fine quality and a good shipper. Skin mottled green. It is very productive. Sweethearts usually bring a good price when others will be neglected. This is because of their handsome appearance and fine qualities. This melon remains in good condition longer than most others, even improving in its quality for a time. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; 1b. \$1.00.

New Excel The Melon That Met the Ideas of a Critical Grower—Size, Shape, Rind and Quality “Just Right.” The largest of the shipping melons. An extensive grower of watermelons found that, of the varieties in cultivation, none of them combined all of the necessary qualities to his desired degree. If the eating quality was good enough, the size or shape was not just right, or the rind was not strong enough. So he set about to produce a variety that would meet all of the requirements—a perfect watermelon. The result was this new melon, the “Excel.” The “Excel,” he says, “will produce more large marketable melons under the same conditions than any other watermelon, while its carrying and shipping qualities are unsurpassed.” The melons grow 16 to 22 inches long and 12 to 16 inches in diameter and weigh from 40 to 60 lbs. The rind is dark green, indistinctly striped with a lighter shade. The deep-red flesh is crisp and with finest flavor. Have no hard centers. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 50c; 1b. \$1.50.

Everitt's Orange WATER MELON

A novelty of superior merit. The peculiarity of this fine melon is that when well ripened the inner core separates from the rind. Frequently one can lift the entire heart of the melon out of the shell or rind by cutting the melon rind only. The inner portion of the melon quite resembles an orange after peeling, hence the name. The flesh of this melon is of a pink shade and fine quality. It grows to a medium size. Very productive. There is rarely enough of this seed to meet the demand. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 50c.

Keckley Sweet

Or MONTE CRISTO (Long)

—I may sum the good qualities of this melon up in these words—unsurpassed in productiveness for nearby market selling and for eating quality. Its popularity is increasing each season. It is early, but grows very large. Skin is rich, dark green shaded with faint lines of lighter green. Very handsome. It is not a shipping melon. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; 1b. 85c; 5 lb. @ 75c.

Halbert Honey

Shape oblong, well filled to the ends, skin very dark green showing a faint longitudinal tracing, or indentation in the rind; medium early and fairly large; flesh crimson and very sweet. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; 1 lb. 85c; 5 lbs. @ 75c.

Colorado Preserving Citron

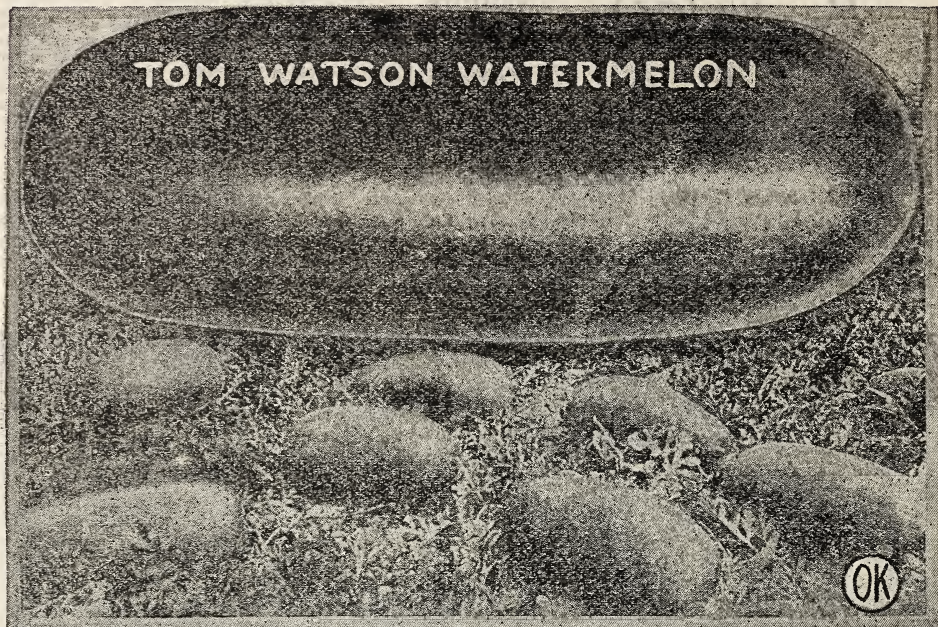

Grown for making preserves. This is the best variety. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; 1b. 85c;

Everitts Seed Store.

Dear Sirs:—Please send me seed catalog. I have tried elsewhere for 5 years to get watermelon seed and have never got any pure seed since I ordered from you.

J. W. Wilson, Pryon, Okla. Dec., 18, 1924.

Prayor, Okla. 12 18 1924

TOM WATSON MOST POPULAR WATER MELON

The Most Popular Market Melon—An extra-long melon of attractive appearance, uniform in shape and quality. The luscious crimson flesh is "as sweet as honey." The average melon will weigh 35 to 40 pounds and measure about 24 inches long and about 10 inches in diameter. It is very prolific, producing in greatest abundance the large, delicious fruits. It has a tough rind and ships to long distances. Wonderfully productive. An ideal melon for all purposes. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; 1b. 80c; 5 lbs. or more @ 75c.

RED CUT TOM WATSON

This special grade of seed was all saved from extra true specimens and every melon had to cut perfectly red to the center. Such selection has been kept up by our grower for years. The very particular grower will be sure to select this seed. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; 1b. \$2.00; 5 lbs. @ \$1.75.

Everitt's (OK)
TRADE MARK

Seed of Herbs

No garden is complete without a corner devoted to herbs. Remember the charm of the old-time herb gardens—how fascinating they were. And what magic there was in a bit of savory or a pinch of sage, to "dress up" an ordinary dish and make it a delight. And it is almost a treat to be a sick-a-bed child if grandmother brought you a cup of steaming catnip tea; or perhaps it was balm or horehound, or pennyroyal or thyme, according to your ailment. Every woman on the farm knows what it means when the children are a bit feverish, or have "bad colds"—with no doctor just around the corner—to have an herb garden, or dried herbs in the attic to rely upon, in such a case.

The varieties marked with an asterisk (*) are perennial, and when once started in the garden will continue for years with but little care.

ANISE—Used for cordials, garnishing and flavoring.

Pkt. 5c; oz., 20c;

BASIL (Sweet)—Leaves used for flavoring soups, stews and highly seasoned dishes. Pkt., 10c; oz., 40c.

***CATNIP**—Leaves and young shoots are used for seasoning. Cats delight to roll in it. Is a good bee pasture. Pkt., 10c; oz., 60c.

***CARAWAY**—Grown for the seeds, which are extensively used for the flavoring of bread, pastry, candy, etc. Pkt., 5c; oz., 25c.

DILL—Leaves used for pickling cucumbers. Pkt., 5c; oz., 25c.

FENNEL (Sweet)—The leaves boiled are used in fish sauces. A beautiful garnish. Pkt., 5c; oz., 15c.

***HOREHOUND**—Used for seasoning, also in cough remedy. Horehound tea is a remedy for cold. Pkt., 5c; oz., 40c.

LAVENDER—Valuable for its perfume. The flowers are used. Pkt., 5c; oz., 40c.

***MARJORAM (Sweet)**—Leaves and ends of shoots highly esteemed for seasoning. Dry for Winter use. Pkt., 5c; oz., 40c.

***PENNYROYAL**—A tea made from it is valuable for colic. The fresh plant placed close to people chases mosquitoes. Pkt., 10c; oz. 50c.

SAGE—Extensively used for seasoning and dressing. Pkt., 5c; oz., 30c.

SAVORY (Summer)—The leaves and flowers are used for flavoring soups and dressings and string beans Pkt., 5c; oz., 30c.

***THYME**—For seasoning; a tea from the leaves is a remedy for headache. Pkt., 10c; oz., 50c.

A Page of Odds and Ends

Egg Plant Seed

Culture Plant seed early in house or hot-bed. Set in open ground when warm. Set 2 feet apart each way. They must have rich soil and as warm as possible, although do very well on any good soil. One pkt. will make about 200 plants: one oz. about 1,000 plants.

Black Beauty This is the earliest variety that attains any worthwhile size. The color is jet black and very attractive. A dwarf kind. All gardeners for home and market who want an early egg plant are coming to grow it. Pkt. 10c; oz. 40c.

New York Imp. Purple A popular old variety. Grows to great size and fine quality. Bear until frost. Pkt. 10c; oz. 40c;

Gourd Seed Culture Start the seed early and transplant, or in open ground is warm. The following varieties will be found very useful about every house. All are ornamental climbers.

Nest Egg The eggs of hens and are very useful as nest eggs, never breaking or freezing. The plant grows very rapidly, and is useful in covering unsightly places, being quite ornamental. Pkt. 10c; oz. 25c.

Dipper This variety makes a splendid tool for dipping hot liquids. The handles do not heat through. Vines attractive. Pkt. 10c oz. 25c.

Dishcloth Makes an admirable vegetable dishcloth. The peculiar lining is the part used, which is sponge-like, porous, very tough and elastic. The vines are ornamental. Pkt. 10c; oz. 30c.

Sugar Trough Grows to great size. Cut off the top and you will have a receptacle that will hold from 1 to 10 gallons, and will be useful for many purposes. Pkt. 10c; oz. 25c;

Mixed All varieties mixed Pkt. 10c; oz. 25c.

Kale Seed Culture Used as "Greens" in the fall and winter and are most welcome when other vegetables are gone. With a little protection the plant will winter over out doors. Sow seed like cabbage and transplant. Sow July and August.

One pkt. will plant about 40 feet of row; one oz. about 200 feet.

Dwarf or Curled Scotch This is the variety usually sown in the fall for spring use. The young leaves are very tender and delicate in flavor. Pkt. 5c; oz. 10c; ¼lb. 30c; ½lb. 1.00

Siberian A vigorous grower of spreading habit. The leaves are large, rather plain in the center, but cut and frilled at the edges. Very hardy. Pkt. 5c; oz. 10c ¼ lb. 30c. ½ lb. \$1.00.

Kohl Rabi Seed
EARLY WHITE VIENNA
Very early small, handsome skin and flesh white. Splendid quantity. Pkt. 5c; oz. 25c;

Leek Seed Culture Sow early in April in drills one foot apart, one inch deep. When plants are 6 inches high transplant 12x6 inches. Set deep in the ground. The seed may also be sown in August or September and transplanted in the Spring. Leeks are generally considered superior to onions for flavoring soups, etc. One Pkt. will make about 200 plants; one oz. about 800 plants.

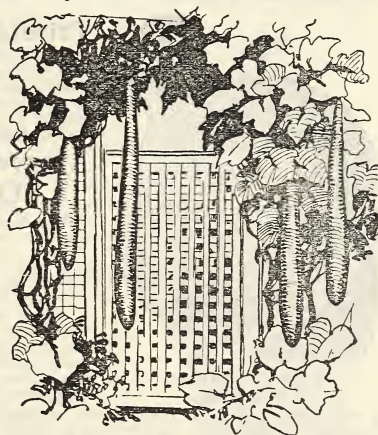

American Flag The standard variety favorite. Pkt. 5c; oz. 15c; ¼ lb. 45c.

LAGENARIA

Called by Some "New Guinea Butter Bean"

"SON, go into the garden and bring me one bean."
"Yes, mother, but where is the wheelbarrow?"

Above we copied from our Indianapolis. News and it referred to the New Guinea Butter Bean, as grown by Mrs. E. G. Lewis, of this city. The News continued; "Indianapolis gardeners who have raised this bean can testify that it can better be handled in a wheelbarrow. The bean in question weighed 10 pounds, was 23 inches long and 13 inches around. Five families in the neighborhood share in eating it. The people said the bean has a pleasant taste."

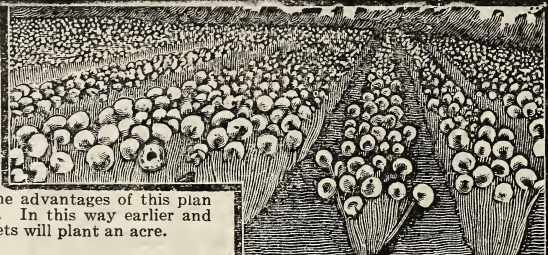

This is really not a bean, but is a tasty edible product when cooked as butter beans, or fried as egg plant or boiled like aquash. Direction for cooking on each pkt. It also has much merit in the size, and attractiveness of the vine. The leaves and blooms are larger and handsomer than Moon Vines which, in connection with the curious fruits, make a vine the talk of a whole neighborhood. See the illustration, from a photograph. Succeeds everywhere. Will grow about 50 feet in one season. Pkt. 15c; 4 for 50c; 10 for \$1.00; oz. 50c. A SUGGESTION—Buy by the dollars worth and sell them.

CELEBRATED "G" ONION SEED

Culture of Onions The ground for onions must be rich and it should have been in cultivation for a year or two. Pulverize not more than 5 inches deep. The seed bed must be fine. For large onions in Fall, drill about 4 lbs. per acre in rows 14 to 15 inches apart. Weeds must be kept out. Pull when tops begin to dry down. For sets, sow 40 to 60 lbs. per acre in drills 12 inches apart. Some growers sow the seed under glass or in hot beds and transplant. The advantages of this plan are so many that it will become more general. In this way earlier and larger onions can be grown. Six to 10 bus. of sets will plant an acre.

GROWING OUR ONIONS FOR SEED.

THE THREE SOUTHPORTS

Southport Yellow Globe This is more globe shaped than the Danvers and often times excels in its yields. All that can be asked for in table and market and keeping qualities it possesses. Extensively grown for best market demand and home gardens. Pkt. 10c; oz. 20c. 1/4 lb. 65c; 1b. \$2.00 5 lbs. @ \$1.85.

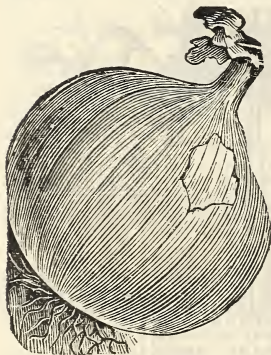

Southport White Globe Identical in appearance with the Southport Yellow Globe, except it is as white as a clean snowball. Pkt. 10c; oz. 20c; 1/4 lb. 75c; 1b. \$2.50 5 lbs. @ \$2.25.

Southport Red Globe And this also is identical in appearance to the Yellow and White, except its color, which is Red. The three colors of Southport Globe Onions are reliable to grow and to market making heavy yields and getting the top prices. Pkt. 10c; oz. 20c; 1/4 lb. 65c 1b. \$2.00. 5 lbs. @ \$1.85.

Yellow Strasburg or Dutch A little darker color than the Danvers, more flattened and a little later. This is sown largely to raise yellow sets because of its splendid keeping qualities. Pkt. 10c; oz. 20c; 1/4 lb. 65c. 1b. \$2.00; 5 lbs. @ \$1.85.

Ohio Yellow Globe This is a strain of the Globe Onion that has come to be generally used by growers in Ohio and Indiana. It is earlier, also is better suited to heavy muck soil than Yellow Globe Danvers. Pkt. 10c; oz. 20c; 1/4 lb. 65c; 1b. \$2.00 5 lbs @ \$1.85.

White Portugal or SILVER SKIN—Very early grows to large size, flat, mild flavor. Largely grown for white sets, also is extensively used for bunching and pickles. Pkt. 10c; oz. 20c; 1/4 lb. 75c; 1b. \$2.50; 5 lbs. @ \$2.25.

Type of Southport Globe Onions

is very white and has a tasty flavor surpassing other varieties. Owing to its shape it can be planted closer than other kinds which helps to make it the most productive onion. Its heavy yield, novel, fine appearance and splendid quality make it a profitable market sort, but to the family gardener who wants something different, beautiful and good we particularly recommend the "Marvel Onion."

Grows large onions from the black seed the first year. Supply of seed quite limited and we advise you to not put off ordering long. Pkt. 15c. 2 Pkt. 25c; oz. 50c.

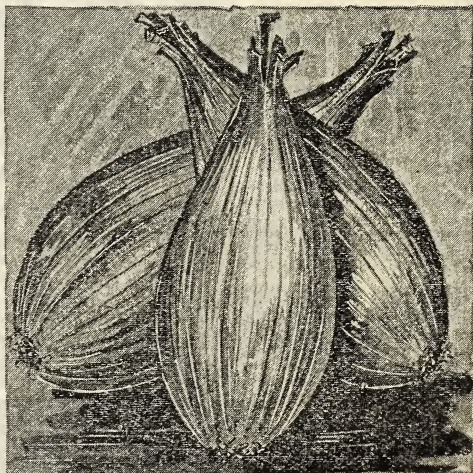

Last year I obtained from you and raised Farmers In-erest Corn. I challenged the county to compete with it. My son got first prize on it in his club work. I am not ashamed to sign my name to this report.

Jan. 1925. E. C. OWENS, R.F.D. 1, Hebron, W.Va.-3

Prizetaker Magnificent Onions can be grown from Black Seed planted in Spring. It grows quickly attaining a large size. It is beautiful and the table quality, delicate and mild. Also any that can be spared for sale always bring an extra price. No sets are required of Prizetakers, as they grow large from the seed. This is one of the best to raise plants and transplant to garden or field, when they may be made to weight 4 to 5 lbs. under favorable conditions. The Ok. Strain of seed is unexcelled. Pkt. 10c; oz. 20c; 1/4 lb. 65c; 1b. \$2.00.

Marvel Onion

This rare onion is entirely unique in shape. You have not seen anything like it in Onions. It grows from 5 to 6 inches long and about one third of the diameter. The color is light yellowish brown with thin skin. The flesh

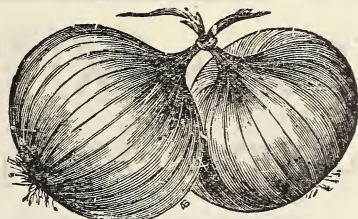

New Marvel Onion

Yellow Globe Danvers

Our O. K. Strain is Always a Heavy Yielder

Fine symmetrical shape. large size. Quality just what an onion should be. They grow rapidly and attain full size from the seed the first year, and early in the season. They keep well at Winter. A favorite for home, garden and field cultivation. Pkt. 10c oz. 20c; ¼ lb. 60c; 1 lb. \$1.85c; 5 lbs. \$1.75.

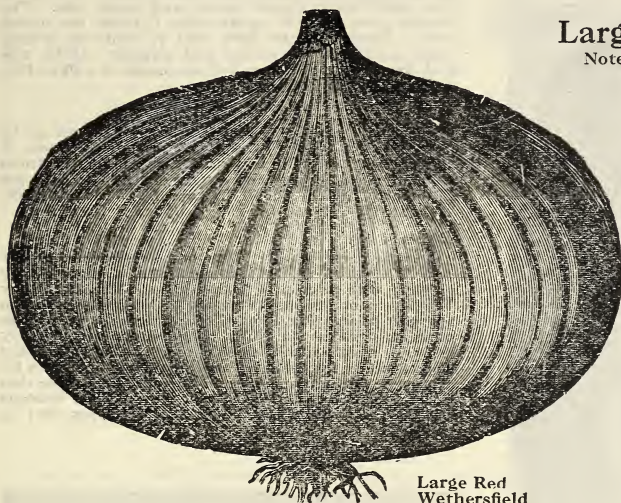

Yellow Globe Danvers

Large Red Wetherfield

Noted for its Productiveness and Keeping Qualities

THIS is the largest of the Red Onions. Grows to full size from seed the first year. The bulbs are large, flat in shape, purplish, red skin. Flesh a purplish white color, not so mild as Prize-taker, but not too strong flavored to meet the popular taste. One of the best keepers. It succeeds almost everywhere. Very productive The O. K. Strain of seed is unexcelled. Pkt. 10c; oz. 20c; ¼ lb. 60c; 1 lb. \$1.85. 5 lb. @ \$1.75.

Large Red Wethersfield

Why Plant Sets?

Onion Sets By planting sets you can have onions to eat, or market in one-fourth the time required from seed. Set onions come off so early that

a second crop can be grown on the ground. Price—White, 1b. 35c. postpaid; 5 lb. 30c. Yellow, 1b. 30c; 5 lb. @ 30c.; Red, 1b. 30c; 5 lb. @ 30c. all postpaid.

Ask for prices on larger quantities.

Parsnip Seed Culture Give rich soil, and to the long kinds deep soil. Plant very early in rows 18 inches apart. Cover seed one-half inch. Thin to 3 to 5 inches. Will keep in the ground over winter and improves in quality. One pkt, for 50 feet of drill; oz. 200 feet; 5 lbs. per acre.

Imp. Hollow Crown or Large Sugar

This is the best table variety. Also is a great producer and profitable to grow for stock. Pkt. 5c; oz. 10c; ¼ lb. 30c; 1 lb. \$1.00.

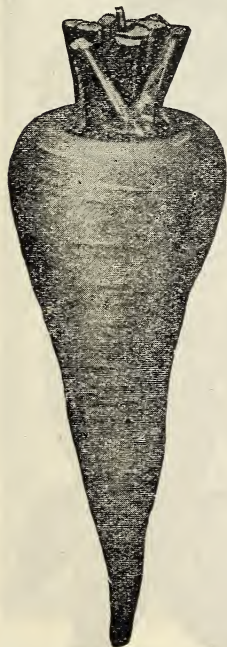

Guernsey or Student Not so long, but thick, suited to shallow ground. Heavy yielder. Pkt. 5c; oz. 10c; ¼ lb. 30c; 1 lb. \$1.00.

Parsley Seed Culture Have the soil rich. Drill one foot apart, cover one-eighth inch. Seed germinates very slowly so have patience. To soak the seed a few hours in warm water will hasten its germination. Thin to four inches when two inches high. A small plat sown broadcast, thinly, will do very well for a family supply. Prized for garnishing and for flavoring soups. One pkt. will produce many plants.

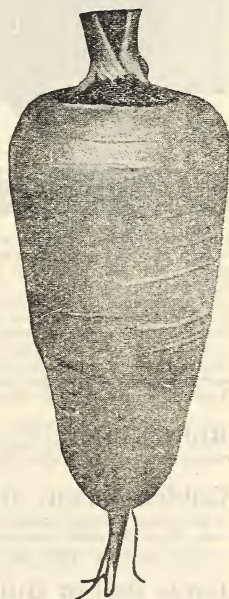

Moss Curled An elegant, decorative variety. Also has high flavoring properties. Pkt. 5c; oz. 15c; ¼ lb. 35c.

Plain or Single This has plain leaves instead of curled. Pkt. 5c; oz. 15c; ¼ lb. 35c;

Hamburg Turnip Rooted This forms a root resembling a small parsnip. It is this root that is used for flavoring and is highly esteemed for soups, stews, etc. Pkt. 5c; oz. 15c; ¼ lb. 35c.

Imp. Hollow Crown Parsnip

Guernsey or Student Parsnip

Everitt's (CK) Pepper Seed

Culture Start in cold frame, hot bed or house. Transplant to garden when warm weather has come to stay. The rows may be 18 inches apart and plants 12 inches apart in row. One pkt. will produce about 250 plants; one oz. about 1000 plants.

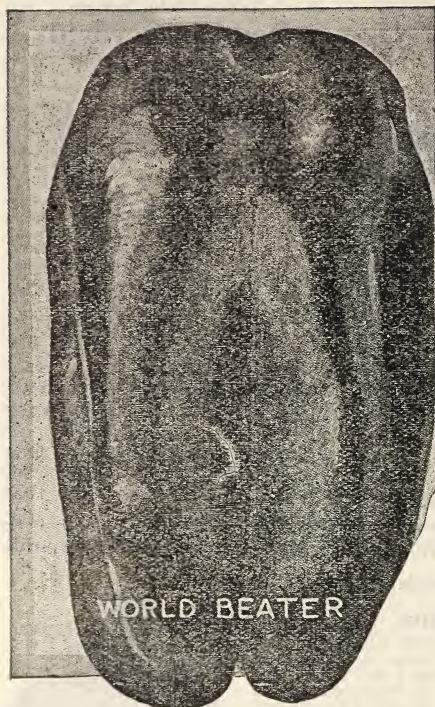

World Beater Pepper

THE introducer of this pepper said. "It is the finest introduction of a pepper in ages." It is a cross of Chinese Giant and the Ruby King.

Its chief improvement is in the fact that it is much more prolific than the Chinese Giant, some plants having yielded two dozen marketable peppers. The flavor is so mild that it can be sliced and eaten raw. The fruit is green until it ripens, when it takes the scarlet color. The flesh is so thick that it holds up a long time, making it one of the best shippers. Order this and have something you will be proud of. Pkt. 10c; 3 Pkts. for 25c; oz. 40c.

Chinese Giant One of the very largest of the mild red varieties. Plant of short stocky growth, with light green foliage; fruits pendent, thick, blocky and square ended, 4 to 5 inches in diameter and of equal length; color, brilliant, glossy scarlet. Pkt. 10c; 3 for 25c; oz. 50c; ¼ lb. \$1.75.

ROYAL KING This new, sweet mango pepper sprang from a plant found growing with a crop of Ruby Kings. The old Ruby King does not compare favorably with this new pepper in any particular. The Royal King averages nearly twice as much meat as the old Ruby King. It is also a heavy bearer, is most beautiful in color and its shape is all that can be asked for, while it also has all good qualities for shipping to distant markets. So fine is this pepper that it can usually be sold at good prices even when markets are "glutted" for others. Pkt. 10c; 1 oz. for 40c; ¼ lb. \$1.25

THIS New pepper is becoming very popular because of its valuable qualities. It grows quite tall.

Its productiveness, bearing until killed by frost, makes it very profitable to the market gardener, while its desirable size and shape, thick flesh and agreeable flavor make it a favorite in every kitchen. The form is distinct as shown in illustration. Color, crimson-scarlet. The fruits grow from 3 to 2½ inches across and about 3 inches long. Very fleshy. Their meat is never hot, but of a very agreeable sweet flavor. If you want the finest pepper and one that makes the best mangoes, just the right size for individual serving send for the Perfection Pimento. Pkt. 10c; 3 pkt. 25c; oz. 30c; ¼ lb. \$1.00.

Ruby King A good old variety. Very productive. Very handsome and very good. Bright ruby red color when ripe. Pkt. 10c; oz. 30c; ¼ lb. \$1.00

Golden Dawn, or Golden Queen If you want a yellow mango instead of the red, select this one. It is the same shape as Ruby King and is as good in every respect. Pkt. 10c; oz. 30c; ¼ lb. \$1.00.

Large Bell or Bull Nose An old standard sort. Mild flavor. Red color when ripe. Excellent for mangoes. Pkt. 10c; oz. 35c; ¼ lb. \$1.25.

Harris' Earliest Pepper

This dwarf pepper is the surest cropper of all. The plants grow only 12 to 18 inches high and usually bear so many peppers that you wonder how the plant can hold them. The peppers are of good size too, being 3 inches long by about 2 to 2½ inches in diameter. The flavor is very mild and tasty. The color is red when ripe.

If you want to be sure to have sweet peppers and lots of them plant this variety. If you have not been very successful in raising peppers your success will change with this variety. In an average season you will get about four times as many as of any other kind. Pkt. 10c; 6 pkts. 50c; 13 pkts. \$1.00; oz. 75c; ¼ lb. \$2.50.

Harris Earliest Pepper

Golden Dawn

Cayenne This is the hot pepper, used for seasoning. Long and tapering. Very yieldy. Pkt. 10c; oz. 40c.

Red Chili Sharply conical, about 2 inches long, brilliant scarlet, very hot; used for chili and pepper sauce. Pkt. 10c; oz. 35c; ¼ lb. \$1.25.

Coral Gem Bouquet If you want a beautiful garden ornament as well as a very useful plant, these will please you. The plant grows 10 inches high and will be literally covered with small scarlet fruits 1 inch in length, slender and round, that are hot and pungent. It begins to bear early in the season. Pkt. 10c; oz. 40c.

PEANUTS

Peanuts are chiefly grown in the Southern States, commercially and for stock food. Hogs will harvest them and will fatten on them. The following varieties will also succeed in the North.

Spanish Peanut This is the earliest kind and is particularly recommended for the Northern States. It grows up-right and can be cultivated with machinery. Small but plump nut. ¼ lb. 15c; 1b. 40c; 5 lb. @ 35c, Postpaid.

Long Podded This is later and larger. It is one of the kinds in general commerce and is not early enough to mature in the North. ¼ lb. 15c; 1b. 40c; 5 lbs. @ 35c. Postpaid

MUSTARD

CULTURE—Sow in drills 1 foot apart. Cover lightly. For a succession sow each two weeks. Water copiously if weather is dry. Cut when not over 3 inches high. Used for salads.

SOUTHERN GIANT CURLED BROWN SEED—The best kind. Leaves about twice the size of the old kind. Pkt. 5c; oz. 10c; ¼ lb. 25c; 1b. 80c.

TOBACCO

plants are 4 to 5 inches high, set in hills 4 to 5 feet apart. Give clean, thorough cultivation. An oz. of seed will produce plants for 1 acre.

HAVANA—One of the earliest. Fine texture and superfine flavor. Pkt., 10c; oz., 25c; ¼ lb. 85c.
WHITE BURLEY—A great favorite. Fine quality and commands high prices. Pkt., 10c; oz., 25c; ¼ lb. 85c.
CONNECTICUT SEED LEAF—A popular variety. Much esteemed for cigar wrapper. Pkt., 10c; oz. 25c; ¼ lb. 85c.

Everitt's (CK) Rhubarb Seed
CULTURE—Sow the seed in drills 18 inches apart and cover ½ inch. Thin to 4 or 5 inches, leaving the strongest. In Fall or Spring following set in permanent beds, 4 feet each way. The soil must be deep and rich. A good way is to buy the roots and set as above.

STRAWBERRY—An old, satisfactory variety. There is no better under any name. Pkt. 5c; oz. 15c; ¼ lb. 40c; 1b. \$1.50.

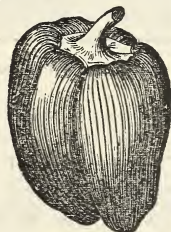

RHUBARB ROOTS—Each 15c; ½ doz. 65c; doz. \$1.25. Postpaid.

WHITE SEEDED—Pkt. 5c; oz., 10c; ¼ lb. 25c; 1b. 75c.

Okra Its green seed pods are used in soups or stewed like asparagus. Sow seed in drills 2 ft. apart. Thin to stand 9 in apart draw soil to stems as they grow.

White Velvet A good kind. Pkt. 5c; oz. 10c; ¼ lb. 25c; 1b. 85c.

CULTURE—Sow the seed in early Spring on a clean bed. A favorite way is to burn brush or trash on the bed to kill weed seeds. Wood ash is the best fertilizer. When 5 feet apart. Give clean, thorough cultivation.

Large Bell

Cayenne

Everitt's (CK)

Salsify Seed

CULTURE—This plant is used as a substitute for oysters, and many like it fully as well as the oysters themselves. It is either used in soup or scalloped with best results. Sow early in the Spring on rather light, fertile ground, in drills 18 inches apart; thin the plants to 1 or 1½ inches in the row. Light freezing greatly benefits the flavor. One pkt. for about 25 feet of row; one to 75 feet.

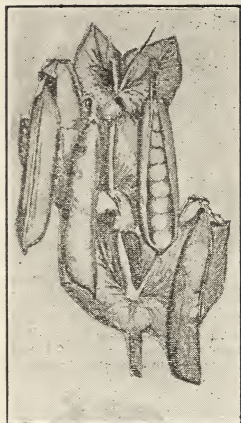

MAMMOTH SANDWICH ISLAND—The best variety Pkt. 10c; oz., 20c; ¼ lb., 70c; 1b., 2.40.

Everitt's (CK) Seed Peas

Culture Plant peas early in the Spring so the crop will be off before hot, mid-summer. Peas never do well in mid-summer, but may be planted late to grow in the cool Fall. The smooth varieties plant earlier than the wrinkled, as they endure more cold and wet. See that the ground is rich, particularly for the short ones. Plant the dwarfs in rows 2½ feet apart; the tall ones 3 feet apart, plant 3 to 4 inches deep. Plant different varieties or same variety in succession. One pkt. will plant about 20 feet; a pound about 60 feet; 120 to 150 pounds for an acre. The wrinkled peas are the sweetest.

Extra Early and Early Sorts

Gradus, or Prosperity

Alaska (2 ft. smooth)—A pea of fine quality. Largely grown for market, commercial canning and in the home garden. ¼ lb. 15c; ½ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c.

Little Marvel (14 in. wrinkled)—This is a new variety that may prove to be even a better pea than Nott's Excelsior. A peculiarity is in it bearing many twin pods. The pods contain 5 to 7 peas and are of excellent flavor. ¼ lb. 15c; ½ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c.

American Wonder (1-ft. wrinkled)—The well-known dwarf pea. Extra early and exquisite quality. ¼ lb. 15c; ½ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c.

Gradus, or Prosperity (2½ ft. wrinkled)—Extreme earliness, only 3 to 5 days later than the early smooth peas. Finest quality and great productiveness are combined in this pea. These things recommend it to the home and market gardener. ¼ lb. 15c; ½ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c.

Nott's Excelsior (1½ ft. wrinkled)—Considered by many the best extra early wrinkled pea. It is nearly as early as American Wonder, while the pods are larger, with 6 to 7 peas, and many more of them. The quality is very fine. ¼ lb. 15c; ½ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c.

First and Best (2½ ft. smooth)—This is of the Alaska type, but is a little later with larger pods and much more productive. Very largely planted for home and canning. ¼ lb. 15c; ½ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c.

Thomas Laxton The favorite large-podded market gardeners' variety and probably more generally grown for market purposes than any other sort. Vine 2½ feet in height, bearing numerous well filled pods 3½ inches long, nearly round, square ended and of high quality. Noted for its productiveness and dependability. ¼ lb. 15c; ½ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c.

LATE VARIETIES

Champion of England (4 to 5 feet wrinkled)—Highly prized by those who are fond of a large, tender and luscious pea. Hardy and vigorous in growth; pods 3 inches long. Or delicious flavor; a very profuse bearer. Especially recommended for the home garden. ¼ lb. 15c; ½ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c;

Large White Marrowfat (5 to 6 ft smooth)—An old variety. A heavy and sure cropper. It is a smooth pea and while the quality is not as good as the wrinkled peas, its heavy yields, long bearing and productiveness are qualities to recommend it. Requires support. ¼ lb. 15c; ½ lb. 25c; 1 lb. 35c; 5 lbs. @ 30.

Horsfords Market Garden (3 ft. wrinkled) Perhaps the most worthy of the mid-season peas. It is a very heavy cropper. In a test of 28 kinds it doubled all other in yield. A single plant bore more than 150 pods. It is extensively grown for canners. Grows 2 to 3 feet, but is stiff and does well without support. ¼ lb. 15c; ½ lb. 25c; 1 lb. 40c; 5 lbs. @ 35c.

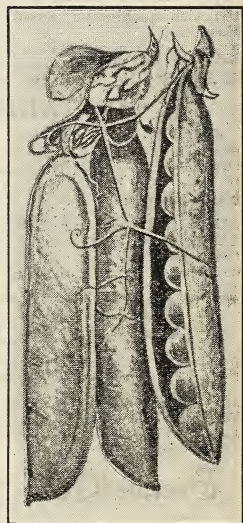

Alderman (4 ft. wrinkled)—A fine mid-season variety, maturing just after the extra early ones and before the late kinds come in. It grows 4 to 5 feet tall, hence should have support. The pods are 4 to 6 inches long, borne in pairs, and contain 7 to 9 large, green peas in each. Extraordinarily productive. ½ lb. 15c., 1 lb. 25c., 1 lb. 40c., 5 lbs. 35c.

Sugar Pea (Edible Pods) (3 ft. smooth)—This distinct pea is used like stringless beans. The pods are tender and are broken and cooked with the peas. Very sweet and delicious. Try them and you'll like them better than shelled peas alone. ¼ lb. 15c; ½ lb. 25c; 1 lb. 45c; 5 lbs. @ 40c.

Write for Prices of Peas in larger quantities

Should always be used, on seed peas before planting. It will increase the yield on both good and poor soil. Garden Package 25c.

Alderman or Improved Telephone

Please send me your catalogue for 1925. The O. K. SEEDS that I procured from you last year were fine. I sure was pleased with the results. W. R. OFFIED, R.F. D. No 2 Box 4, Emmett, Tenn., Jan. 14, 1925.

I can certainly recommend the China Cucumber as being the finest I ever sowed. I raised 3 or 4 that were as much as a foot long. LULA STEPHENS, Speedway, W. Va., -44

You Will Find This an Unsurpassed
Main-Crop Pea

Quantity and Quality THIS pea was so named because of its large productiveness and splendid table qualities. It is medium early and grows about 24 inches high. Pods are large and of blocky shape. The peas are wrinkled, green and for eating are near perfection, being rich, buttery and marrow-like. With a large canner it holds the record for producing the largest number of bushels of shelled peas per acre. The home and market gardener will find this a most profitable variety. Large pkt. 10c ½ lb. 25c; 1 lb. 45c; 5 lbs. @ 40c

ODDS AND ENDS

Everitt's (CK) Culture Plant thickly in drills 6 to 8 inches apart. Prized for the piquancy of its leaves. It makes an appetizing salad and is used for garnishing. One oz. to 100 feet of row. That grown in the cool of the season is best. Sow often as it soon goes to seed

Cress Seed

Fine Curled (Pepper Grass) Pkt. 5c; oz. 15c; ¼ lb. 50c;

Water Cress Must be grown by water—along the banks of ponds or streams. Seed should be started in bed and transplanted to where wanted. Pkt., 10c.

Everitt's (CK) Culture One of the best fall and winter salads. Sow as soon as ground can be worked in the Spring for early crop. For the main crop, sow in August, in drills 15 inches apart, 6 to 8 inches in row. To blanch, tie the leaves, when dry, in matting or any soft open material, or invert something over the plants, or even tie them together at top. One pkt. to 20 feet of drill, one oz. to 100 feet.

Endive Seed

Moss Curled Very ornamental as well as good Pkt., 5c; oz., 15c; ¼ lb. 40c.

Green Curled Winter A standard variety. Hardy and productive Pkt., 5c; oz., 15c; ¼ lb. 50c.

Everitt's (CK)

Spinach Seed

early Spring, sow in late August and September and pro-

tect with straw during severe weather. The ground for spinach cannot be too rich. One pkt. sows about 20 feet of drill; one oz., 100 feet; eight to ten lbs. per acre

LONG STANDING One of the best for Summer, as it is slow to run to seed. Also sown in the Fall, but should have protection in Winter. Leaves are large, thick and crimped. Pkt., 5c; oz., 10c; ¼ lb., 20c; 1 lb., 50c; 5 lbs. @ 40c.

PRICKLEY WINTER For sowing in the Fall. Thick leaved. A hardy winter variety. Pkt. 5c; oz., 10c; ¼ lb., 20c; 1 lb., 50c; 5 lbs. @ 40c.

BLOOMSDALE, or SAVOY Another hardy Winter variety. Leaves, numerous, curled, blistered and succulent. Glossy, dark green color. Sow in early Spring and use before hot weather, or in Fall for Winter use. The most largely grown variety. Pkt., 5c; oz., 10c; ¼ lb., 20c; 1 lb., 50c; 5 lbs. @ 40c.

In writing to you I want to recommend the Kentucky Wonder Wax pole bean for crisp, meaty, delicious beans for immediate use or canning there is no bean to compare with it. We planted only one packet of this seed and it had beans until frost. We canned eighteen quarts, and sold twice to the grocery. WM. G. HALLEY, 517 E. Brown, Bellefontaine, Ohio, -26

I want your new catalogue because I am very well satisfied with all the seeds I have ever purchased from you. S USIE MCGILL, R. F. D. No 2, Kingscreek, S. C. -39

I want to say that the Knight or Maryland Watermelon did well for me. It is early productive, and a fine flavor It is ahead of Rockford with us. Tom Watson Watermelon is the standard for shipping, but for home market and home use, prefer other varieties. Lucullus Swiss Chard and Big Boston Lettuce are as good as we have ever grown. S M. JACKSON, Rio, La., -10.

We Pay parcel post on seeds in Pkt. oz., ¼ lb. and to 5 lbs. at Prices quoted.

A PAGE OF GOOD PUMPKINS

Culture Plant when the ground is warm in hills 6 to 10 feet apart depending on the variety. Some varieties like large Cheese, Tennessee Sweet Potato, Sugar Pie and Big Tom may be planted in the corn field. A pkt. will plant about 10 hills; one oz. about 50 hills; two to three lbs. to acre.

(The numbers identify the illustrations)

King of Mammoths (1)—If you want to grow pumpkins of mammoth size, from curiosity or to exhibit, or even to make pies pick this one, or the Mammoth Tours. This K. of M. grows to enormous size, often 2 feet or more in diameter. The flesh is salmon color and finer grained than you would think, considering its size. To get the largest specimens, allow only one vine to the hill and only one or two pumpkins on the vine. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 40c; lb. \$1.25.

Mammoth Tours (2)—A French variety which also grows to immense size. The pumpkins may be either long or round. Are very heavy if well grown frequently exceeding 100 lbs. Quality very good. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 40c; lb. \$1.25.

Mammoth Etampes (3)—Another French kind that is quite an attraction. The skin is bright, glossy red and excites favorable comment on exhibition or on sale. Flesh very thick. Heavy. Quality is excellent. Attains very large size. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 40c; lb. \$1.25.

Large Cheese, or Kentucky Field (4)—This is the large flat, solid, heavy, cream-colored "sweet" pumpkin, extensively grown in corn field for stock, but is only second to the Sugar Pumpkin for pies. Sells well on market. It is the variety used by most cannery. Keeps well in winter. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 60c; 5 lbs. @ 50c.

Tennessee Sweet Potato (5)—A pear-shaped variety of splendid qualities. The flesh is white, fine-grained, solid and thick. When cooked has the appearance of sweet potatoes and some people say it tastes better. Excellent for pies and custards. Prolific. Keeps well until late Spring. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 75c; 5 lb. @ .65.

Sugar Pie (6)—The chief end of pumpkins is to make pies, and I consider this is the best pie pumpkin. It is small. Perhaps it was made small so enough good quality could be supplied. Very solid orange skin, fine grained and exceedingly productive. Even every small garden should have a hill of Sugar Pie pumpkins. A good keeper. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 75c.

Big Tom (7)—An improved strain of the Connecticut Field or Yankee. Grows to large size and extremely productive. Their chief value is for feeding stock. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 50c; 5 lbs. @ .45c.

Golden Oblong (8)—A medium size, solid, productive long-keeping variety. Keeps as well as the hard-shell squashes. Excellent variety for cooking Summer and Winter. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

Japanese Pie (9)—The best crook-necked pumpkin. Called "Japanese" because the seeds are curiously marked with characters like Japanese writing. The flesh is salmon color, fine grained and more dry than some sweet potatoes when baked. First class for pies, etc. This is a good kind to cut in strips, or pieces and dry like apples, for future use. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

Cushaw, or Golden Crookneck (10)—A popular variety with a hard shell. The pumpkin often grows two feet in length with small seed cavity in the boll, while the long neck is solid meat. Flesh golden yellow. Fine for pies and, because of great productiveness, profitable to grow for stock feed. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

60 CENTS WORTH 50c

Here are ten splendid interesting varieties of pumpkins. One pkt. of each is priced for 60 cents. but we will send the collection and include a pkt. of the New Cannery's Supreme pumpkin on next page, for only 50c—11 pkts. for 50 cents.

CANNERS' SUPREME PUMPKIN

This variety originated by a canner who operates on a large scale. Years ago he felt the need of a better pie and canning variety so he crossed the large Connecticut Field Pumpkin and a little pie pumpkin. He then made selections until he produced this variety of which he says, "We have developed a large pumpkin, which is the best for canning purposes. For large size, thick meat and heavy weight they are not equaled by any other. More tons can be grown per acre of this variety, whether by themselves or with corn, than of any other." Mr. S. J. Galbreath, of Valley O. wrote us: "I must say that I never before grew so many pumpkins, on so little ground, with so few seeds as from your O. K. seeds. They are also the finest and best for pies that I ever saw."

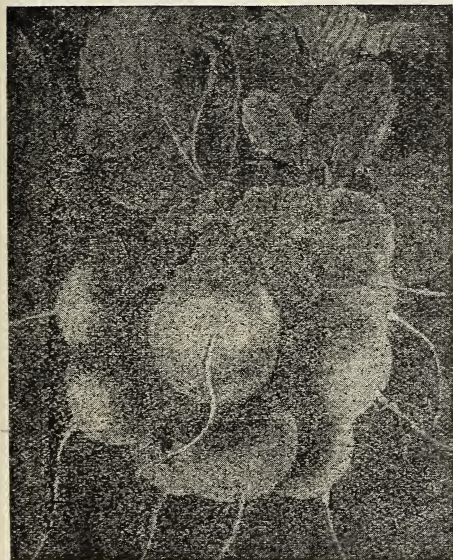

Price. Pkt. 10c; oz 20c; $\frac{1}{4}$ lb. 35c; lb. 75c; 5 lbs. or more @ 65c per lb.

Among the O. K. seeds I obtained from you last spring were one package each of the three Zinnia seeds. The plants from them were thrifty and I had some wonderful blooms, especially of the cactus flowered variety, of which the flowers were very large and handsome. I was very much pleased with these. MRS. W. H. ALLEN, Brighthurst, Ind.

Everitt's (CK) TRADE MARK Radish Seed

EARLIEST AND FORCING VARIETIES

Culture All varieties of radishes thrive best in a rich, not too heavy soil, and a sandy loam is best. For early use, sow in the hot bed in February or outdoors as soon as the ground can be worked in rows 6 to 10 inches apart, covering the seed $\frac{1}{2}$ inch deep. Thin to 1 inch apart in row. The Summer varieties may be sown at the same time, coming on after the earlier sorts are gone. The Winter varieties should not be sown until about August 1st. Sow every week or 10 days for succession until hot weather comes on. One oz. of seed will plant 100 feet of drill.

First Crop

Scarlet Turnip White Tipped

The name describes it. A beautiful extra early radish of fine quality. For forcing and garden. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 85c; 5 lbs., @ 75c.

First Crop Radish It is the earliest of the round radishes and the slowest to go to seed. This makes it a wonderfully profitable market variety and desirable in every home garden. Also it is the earliest for forcing. Round as a ball, bright scarlet, with the smallest top, Crisp, and finest quality for a long time. Has made bunching radishes in 20 days from sowing the seed. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 40c; lb. \$1.50.

Crimson Giant A new extra early radish that grows very large, often 5 to 6 inches in circumference. It is good for garden and forcing. Nearly round, crisp and juicy. Stands a long time before getting pithy. You better get this one. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 25c; lb., 85c; 5 lbs. @ 75c.

VICKS SCARLET GLOBE THE BEST GLOBE RADISH

This is one of the earliest of the forcing varieties and does equally well in the garden. Of quick growth, fine size, has small top. It is always crisp and tender. Very popular with market gardeners who know it. Pkt. 5c; oz. 15c; @ lb. 30c; lb. \$1.00 5 lbs. @ 85c.

French Breakfast Extremely early, olive-shaped, scarlet with white tip. This is a popular radish for first on the table. Crisp when young, but soon becomes pithy. Pkt. 5c; oz., 10c; $\frac{1}{4}$ lb. 25c; lb. 85c; 5 lbs. @ 75c;

Scarlet Turnip Extra early. A famous variety for forcing. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 85c; 5 lbs. @ 75c.

Scarlet Olive-shaped Very popular for forcing and outdoor growth, North and South, as a bunching radish. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb. 25c; lb., 85c; 5 lbs., @ 75c;

White Turnip Both skin and flesh are pure white. Pkt. 5c; oz. 10c; ¼ lb., 25c; lb., 85c; 5 lbs. @ 75c.

Sparkler Ready for Table in 25 Days. I consider it a little better and a little prettier than any of the other little radishes that come extra early. It is globe-shaped, brilliant cardinal with more white tip than the old S. T. White Tipped. Ready to use in about 25 days. Pkt. 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 5 lbs., @ 75c.

Later Varieties

Long Scarlet (Short top)—This is the old popular, long, slender, dark-red, quick-growing radish. It comes very early 25 to 30 days and is of the choicest quality. The O. K. Strain seed is unsurpassed. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 5 lbs., @ 75c.

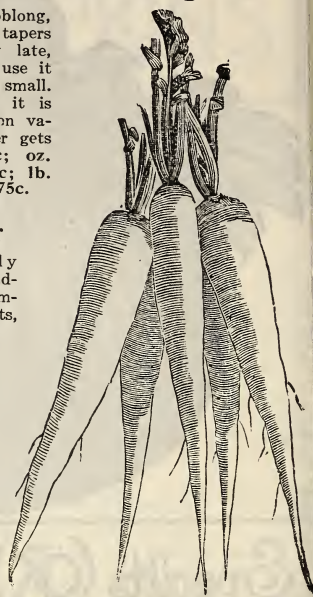

Cincinnati Market (Also called GLASS RADISH)—Very similar to L. S. S. Top, but preferred by many growers. It is a darker color, a little larger and a little smaller top. Preferred by Southern and Western growers. Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 5 lbs., @ 75c.

SELECTED ICICLE THE BEST LONG WHITE RADISH

If you want the best long white radish, select this one, which in all respects, except color, is like the scarlet ones. It is very handsome, attractive and good. The flesh is about as brittle as an icicle, which suggested its name. Extremely quick growth. Pkt. 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 5 lbs., @ 75c.

White Strasburg

This is simi-oblong, thick at top and tapers regularly. Very late, but can begin to use it when young and small. In this respect it is truly an all-season variety. It never gets pithy. Pkt., 5c; oz. 10c; ¼ lb., 25c; lb. 85c; 5 lbs., @ 75c.

Chartier

While the early long scarlet radishes are all similar in some respects, yet our list would not be complete without this handsome one. The top part is crimson, about half way down it blends off to pink and the bottom runs to waxy white. stands a long time and quality is splendid.

Select White Icicle

Pk. 5c; oz. 10c; ¼ lb. 25c; lb. 85c; 5 lbs. @ 75c

WINTER RADISHES

White Chinese Grows large oblong. Color white. Fine texture and flavor. One of the best Winter radishes. Roots grow 6 to 8 inches long and 3 inches thick. Pkt., 5c; oz., 10c; ¼ lb. 25c; lb. 85c; 5 lbs., @ 75c.

Rose Chinese Same as the former except in color. Roots 4 to 5 inches long. Pkt. 5c; oz., 10c; ¼ lb. 25c; lb. 85c; 5 lbs., @ 75c.

Round Black Spanish A round variety. Splendid keeper

and splendid quality. Roots 3 to 4 inches in diameter. Pkt. 5c; oz., 10c; ¼ lb. 25c; lb., 85c; 5 lbs., @ 75c.

Long Black Spanish Like the former, except the shape. Keeps crisp until Spring. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 85c; 5 lbs. @ 75c.

California Mammoth The largest long. Winter variety. Roots grow 10 to 12 inches long and 3 to 4 inches through. Color white. Quality good. Pkt. 5c; oz., 10c; ¼ lb., 25c; lb., 85c; 5 lbs. @ 75c;

They Just Cannot Help But Write About O. K. Seeds

I have raised more peppers from Harris Earliest than I have ever raised from any other kind that I have raised before. I had beautiful yellow tomatoes from your seeds. I can say that O. K. Seeds are as good as I ever bought MRS. J. C. FOLEY, Heaters W. Va.,—14. Jan. 12, '25

I have found Everitt's seed high in quality and in germination. Special tests made on several of the varieties, have given better results than other seeds planted at the same time. The O. K. Seeds were stronger plants and yielded a better crop. EDWARD GREGORY, Cloverport, Ky.—2 Jan. 5, 1925.

Sir:—I find the O. K. Seeds are the best ever. I especially want to recommend the Wayahead lettuce. JOHN WILLIAMS, Trowbridge, Ills.—22. Jan. 7, '25.

I have used Everitt's O. K. Seeds for some time and am well pleased with the results. I have never bought better seeds from any seed firm. W. H. DANIELS, Roderfield, W. Va.,—12. Jan. 13, '25.

After having planted and raised crops from your O. K. Seeds for a number of years I want to tell you that I have found them the best that I ever planted. J. W. McWHARTER, Maytonville, Ky., Jan. 4, '25.

Everitt's (CK) ^{TRADE MARK} Squash Seed

Culture Keep in mind that all vine crops delight in warm, rich soil. Plant squash in hills the same as melons and cucumbers. The bush kinds 4 feet apart, the others 10 to 12 feet. 8 to 12 seeds to the hill and later thin to 2 to 4 to the hill. Some kinds can be grown with corn. A pkt. will plant about 10 hills; one oz. to 50 hills; three to four lbs. per acre.

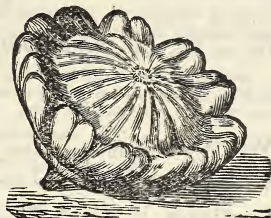

Mammoth White Bush Scalloped A Summer variety. This is about twice the size of the old variety and not much later. Quality fine. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c. 1b. \$1.00.

Golden Summer Crookneck Bush Much larger than the old Crookneck, but just as early. Has all its good qualities and far more productive. The flesh is thick and yellow. Most popular of all Summer kinds. Often grows 2 feet long. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 35c; 1b. \$1.00.

Boston Marrow This is a standard Fall variety and is without a peer for canning and pies. A rich orange color. Very productive. Pkt. 5c; oz., 10c; $\frac{1}{4}$ lb. 30c; 1 lb. \$1.00.

Delicious A very early maturing variety that is also one of the best Winter sorts. The shell is very thin. Moderately hard. Unapproached for fine grain, dryness, sweetness, and richness of flavor. 5 to 10 lbs. It is in its prime from mid-fall to mid-winter. Plant some Delicious for some treats. Pkt. 5c; oz., 15c; $\frac{1}{4}$ lb. 40c; 1b., \$1.50.

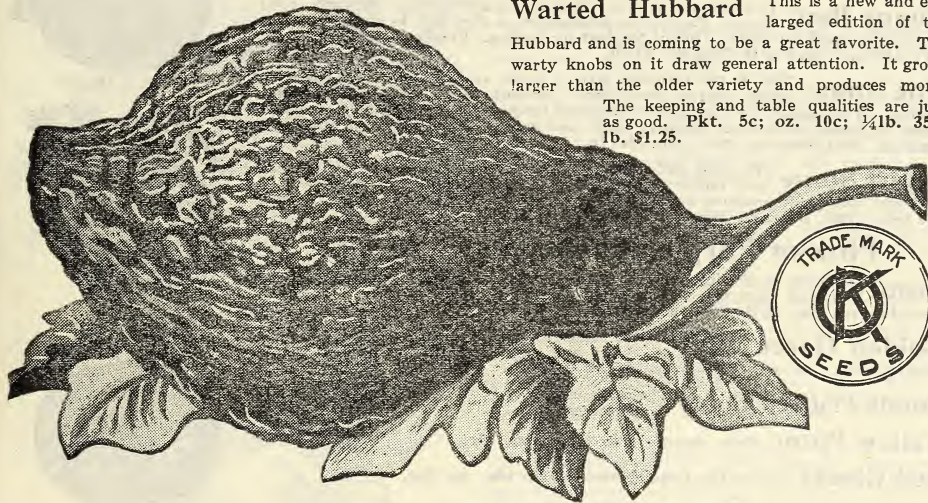

Fordhook (Vining) Small, oblong, excellent for Summer and Winter. Fruits grow 8 to 10 inches long, slightly ridged; skin smooth thin, yellow. Flesh straw color, very thick, exceptionally dry and sweet. The skin is so thin it need not be peeled for cooking. Deserves a place in every garden. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 40c. 1b. \$1.50

Type of the Bush Scalloped

Warted Hubbard This is a new and enlarged edition of the Hubbard and is coming to be a great favorite. The warty knobs on it draw general attention. It grows larger than the older variety and produces more.

The keeping and table qualities are just as good. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; 1b. \$1.25.

Imp. Hubbard The genuine Hubbard has more than held its own against all comers as a Winter squash. Whatever other varieties may appeal to your fancy, you should also plant some of the Hubbard. Vines grow strong and set fruit numerously. Frequently specimens weigh 25 to 30 lbs. Shape oblong; color bronze-green. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb 35c; 1b. \$1.25.

Golden Hubbard Now, while I am dealing with Hubbard Squashes, let me present also the yellow member of the family. This Golden Hubbard is the same as the original, with the exception of color, which is rich, orange red, instead of dark bronze green. The flesh is a little deeper orange and equally fine-grained and sweet. All of the Hubbards are long keepers. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; 1b. \$1.25

Mammoth Chili The Jumbo of the squash family. Sometimes grow to weigh 200 lbs. Sure to get the prize for the largest squash at the fair. Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 40c; 1b. \$1.50.

Drop a letter in the mail and in a few days take out the best seeds that ever were raised. Won't this be better than risking your crops on doubtful store seeds that may have been scorched in one store or stored in a damp cellar of another?

Everitt's (CK) Tomato Seed

JOHN BAER BEAUTIFUL TOMATOES
IN 30 DAYS FROM
SETTING THE PLANTS

Probably the Best Extra Early and a Strong Competitor for Late Honors. It is wonderfully productive, often yielding 50 to 100 fruits to a plant. Every tomato ripens evenly right up to the stem. The flavor is mild and deliciously sweet. Plant a package of this tomato and it will help you to have the best garden you ever raised. Pkt. 10c; oz. 25c; ¼ lb. 75c; lb. \$2.75.

NOTICE—The John Baer has produced perfect solid, brilliant deep red tomatoes in 30 days from well developed strong plants that were set from the hot bed in veneer boxes and with the roots undisturbed.

Wayahead This new variety of tomato has the peculiar potato leaf foliage. In season, it is a few days earlier than Earliana. Color red, surface smooth, solid and heavy. The fruit is medium size and borne in abundance. We recommend it highly for home and market gardens. Pkt. 10c; oz. 35c.

Earliana One of the best early tomatoes, taking into account season of ripening, size, productiveness and quality. Earliana grows in clusters, is bright red, as round as a ball, solid and splendid quality. Pkt. 10c; oz., 25c; ¼ lb. 75c; lb. \$2.50.

Bonny Best This tomato is very beautiful scarlet color. Perfectly good flavor. Plants very productive, as they set in clusters of 4 or more at frequent intervals. One of the best for forcing. Excellent for all purposes. Pkt. 10c; oz., 25c; ¼ lb. 75c; lb., \$2.50.

The Stone This is the standard late or main crop tomato. The fruit is bright scarlet, very large. Smooth, solid, heavy, of the finest quality. The plant is a strong grower and very productive. This variety is in great favor for home, market and canning, North and South. Bears shipment to distant markets. Pkt. 10c; oz., 25c; ¼ lb. 75c; lb., \$2.50.

Dwarf Stone The best stiff-stalked, upright dwarf tomatoes in size of fruit and productiveness. The fruit is produced in clusters of 3 to 5 and each plant produces quite a number. The color is deep scarlet. Quality, the best. Pkt. 10c; oz., 25c; ¼ lb., 75c. lb., \$2.50.

Pink or Purple and Yellow Varieties

Beauty Color, a glowing crimson with a tinge of purple. Shaped perfectly round, large size, solid. Quality splendid. Medium early, productive. Pkt. 10c; oz. 25c; ¼ lb. 75c; lb. \$2.50.

Golden Queen This is a large, beautiful, yellow tomato of superior qualities. Very showy and very good. It is the best yellow tomato. Pkt. 10c; oz., 25c; ¼ lb. 75c; lb. \$2.50.

Small Fruited Sorts These are used for preserves.

Yellow Plum Plum shaped. Pkt. 10c; oz., 25c.

Red Cherry Looks like large cherries. Pkt. 10c; oz. 25c.

Greater Baltimore

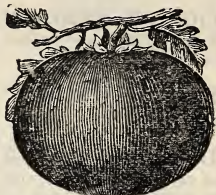

THE CANNER'S AND MARKET GARDENERS' FAVORITE—This has come to be the great canning tomato. Since its introduction many canners make it obligatory on their growers that this variety be raised for them. The color is brilliant red. The vines have great vigor, are healthy, grow compact and bear a cluster of tomatoes at every other joint. It is an immense yielder. They are as fine for the home and market garden, where they are sure to meet your expectations. Pkt. 5c; oz. 15c; ¼ lb. 50c; lb. \$1.75. If you want more than a pound get our price.

PONDEROSA

Wonderfully Popular. Has Been the Most Popular of the Mammoth Tomatoes.

A popular way to raise the Ponderosa is to plant it by a fence or trellis, then it will grow higher than a man and bear fruit all along many weighing a pound or more. The quality is splendid, especially good for slicing. Pkt. 10c; oz. 45c; ¼ lb. \$1.25.

Culture For the first sowing, select the earliest types. Sow the seed in the house or hot bed in February or early March. When two inches high, transplant. If time will permit, transplant again in two weeks. This will induce root growth. Each time giving more room. When ground is warm, set in garden 3 to 4 feet apart. For main crop, start later and transplant once or twice. As they grow, you can let them trail on the ground or build frames about a foot high to carry them, or trellises. One pkt. will produce about 300 plants, an oz. about 2,000 plants.

BELL'S COLOSSAL TOMATO

Plant It In Every Home Garden

Section of Vine of Bell's Colossal Tomato

J. A. MORGAN, Clymer, N. Y. I can say that the garden seeds I purchased from you, were A No. 1. The Banana Muskmelon, Everitts Earliest Watermelon, were fine. The Bells Colossal tomato was the largest tomatoe that was ever grown in this locality. Also gladilis bulbs made beautiful blooms and proclaimed the prettiest ever grown in this locality. The spikes on some were 18 inches in length completely filled with flowers. All of these specialties produced wonderfully for me in 1924.

WHEN we say that BELL'S COLOSSAL TOMATO is the very best tomato for the home garden, we are only emphasizing what our customers have found to be true. It combines the best QUALITIES—great SIZE, great PRODUCTIVENESS, great SOLIDITY OF FLESH and DELICIOUS FLAVOR, when eaten raw, or cooked, or canned. It is a tomato that wins on exhibition or in the kitchen. So if you want a tomato to exhibit in your garden, or at a fair, or just for use, by all means have some plants of BELL'S COLOSSAL. Grow on the ground but better to let it climb. Read what growers say:

J. H. NICHOLAS, Indianapolis, Ind., said: "Bell's Colossal is better than you claimed. You do not recommend it high enough."

W. A. SOLOMON Modesta, Ill., "Our first ripe Colossal Tomato weighed 3 lbs. and measured 16½ inches in circumference. There are several more large ones on the vine."

R. T. SMITH, Murfreesboro, Tenn., "I pulled 4 Colossal Tomatoes that weighed 10¼ lbs. The largest one weighed 3 lbs."

D. J. HUMBERT, Gans, Pa., "Colossal is all claimed for it, large, smooth and excellent flavor. I raised one that weighed 3 lbs. Plenty of them that weighed 2 to 2½ lbs. If the Colossal does as well for others as it does for me, I don't think the people will want to raise any other."

A. T. GROAT, Gowanda, N. Y., "The majority of them run 1½ to 3 lbs. each, no small ones. They were almost seedless and as solid as old cheese."

J. M. ACKER, Aberdeen, Miss. "From one packet of Colossal I raised more large tomatoes than I ever saw before from an equal amount of seed. I pulled four off of one stem that weighed 9 lbs."

W. M. FRAZIER, Graham, Va., "I exhibited 10 of my COLOSSAL TOMATOES at our fair and took first prize. They weighed from 1 to 2 lbs. and were perfect in shape. It is the best I ever raised."

D. B. KIRKPATRICK, Lebanon, Tenn., I will Earliest Pepper and the Bells Colossal tomatoes were very satisfactory. The Early Wonder Beans were sure wonders, the best I ever had. All the seeds purchased from you were all satisfactory.

BERT WISHER, Dandridge, Tenn., Speaking about the O. K. SEEDS I will say that they King of Pickles cucumbers were the finest that I ever grew. They bore as much as six cucumbers on one bunch. The Bells Colossal tomatoes are as fine as I ever saw. Of the watermelon I grew plenty of them that weighed 50 pounds each, while the Knight or Maryland Muckmelon will please anyone.

EVA GILMORE, Mifflin, Indiana, I have raised your seeds for three years and find they are good seeds. The Bells Colossal tomatoes did just fine. They grow big tomatoes to the very last.

DENNIS BALLARD, Walnut Grove, Ala. R. No 2 After planting your Bells Colossal Tomatoe for two years, I think they are the best tomatoes I have ever grown. They are large ad all good firm tomatoes. I will always plant this variety.

BELL'S COLOSSAL TOMATO is making new friends as rapidly as its merits become known. Prices—Pkt. 10c; 3pkt.s for 25c; 7 pkts. 50c; oz. 50c

Everitt's (CK) Turnip Seed

Culture

For early sow as soon as ground will permit in drills 14 inches apart. The Ruta-Baga, 24 inches apart. Thin the plants to 6 inches and Ruta-Baga to 12 inches. or sow broadcast. For Fall and Winter sow July and August for turnips, one month earlier for Ruta-Baga. Use one to three lbs. per acre.

We will sell Turnips and Ruta-Bagas at 60c a pound in 5 lb. lots, made up of one or more kinds, prepaid.

Extra Early Milan

This is the earliest turnip and the best variety for early. Tender and sweet. Purple top and white root. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

Early Snowball A pure white, very early variety. It makes sizable turnips in 6 to 7 weeks. A fine garden variety. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 70c.

White Egg Medium early white, splendid quality. A favorite for the home garden. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

Purple Top Strap Leaf This is the most popular flat variety. Good for early Spring and Fall and Winter. Top is purple, bottom white. Very beautiful. We cannot recommend it too highly. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 70c; 5 lbs. @ 60c.

Purple Top White Globe A large purple top globe-shaped turnip of choice quality and is very productive. A long keeper. For home, market and stock feeding. We recommended it highly. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 70c; 5 lbs. @ 60c.

Large White Globe (Strap leaved)—A perfect globe in shape; skin and flesh pure white, firm and sweet. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 70c.

Early White Flat Dutch Differs from the Purple Top Strap Leaf only in color. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 70c.

Amber, or Yellow Globe Grows to a large size. Yellow flesh. Very productive. Good quality. Keeps until Spring. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 70c.

Cowhorn If you want a large, coarse heavy-yielding turnip for stock, pasture, or Winter feed, also to improve your ground, sow this one. It grows about one-half above ground and 12 to 15 inches

long. Also will be eaten by cattle, sheep and hogs in the field. Sown with rape the pasture and fertilizing value of the crop is considerable. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 70c.

Golden Ball or Orange Jelly If you want a yellow-fleshed early, garden turnip, select this one. Tops are small, roots round, smooth, deep yellow color. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 70c.

Seven Top Grown for the tops, which are used for greens. Very extensively grown in the South. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 70c.

Everitt's (CK)

Ruta Baga Seed

States only. Good for table, but used chiefly for stock feed.

Improved American Purple Top

A hardy, productive variety with a small neck. The roots are large, oblong or globular, with very little tap root. Color bright yellow with a purple top. Very solid and heavy. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 70c.

Large White French

Bulbs grow to large size, very solid, and are excellent for table as well as make a cheap feed for stock. The skin and flesh are white. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 70c.

These are a different class of turnips. The leaves are smooth. They grow slower and must be planted earlier than turnips. Also they grow larger and usually yield more. Adapted to North-

A Select List of Flower Seeds

EVERY person, whether in country or city, can raise flowers. The expense for seed need be but a trifle, while the labor will be so interesting that it will really be recreation and a real pleasure. I believe the most interesting flower garden I ever saw was in Indianapolis, and it was cultivated on a narrow strip of ground between the sidewalk and the street. This would seem to suggest that there is hardly any person so situated that he or she cannot indulge in this highly educational, refining, pleasant and frequently profitable pastime or business. In our list we have aimed to present the popular, easy growing kinds that are sure to respond to the care that the amateur can give them, rather than the varieties that demand the skill of the expert to insure satisfactory results.

In the following list "a" stands for annual, "b" for biennial and "p" for perennial; "c" with any of these means climber. h. h. p. for half hardy perennial and h. p. hardy perennial.

Annuals These are plants that flower and mature the first year and then die.

Biennials These are plants that flower the second and sometimes the third year after the seed is sown and then perish.

Perennials These generally do not bloom until the second year from seed and then live outdoor and bloom yearly.

Seeds for Special Purposes

If you want **PLANTS OF TALL GROWTH**, suited for backgrounds and centers, select Asters, Balsams, Larkspur Marigold, Hollyhock, Scabiosa, Stocks, Sweet Williams, Zinnias, etc.

If you want **CLIMBING PLANTS**, select Canary Bird Flower, Cypress Vine, Gourds, Ipomeas, Nasturtiums (Tall), Sweet Peas, etc.

If you want **SPREADING AND TRAILING PLANTS** for vases, hanging baskets, etc., select Alyssum, Lobelia, Verbenas, etc.

If you want **LOW GROWING PLANTS OF SPREADING HABITS, ADAPTED TO SMALL BEDS, RIBBONS, MASSING OR BORDERS**, select Ageratum, Alyssum, Calliopsis, Campanula, Candytuft, Lobelia, Mignonette, Nasturtiums (Dwarf), Pansy, Verbena, Petunia, Phlox, Poppy, Portulaca, etc.

If desired to have **BEDS OF SINGLE KINDS AND BLOOM A LONG TIME**, select Phlox, Pansy, Petunia, Stock, Balsam, Verbenas Zinnias, etc.

If you want **FRAGRANT FLOWERS**, the Mignonette, Sweet Pea, Alyssum, carnation and Heliotrope should be selected.

Select \$1.25 worth of seeds in Pkt. oz and 1/4 lbs. and remit \$1.00. For each additional dollar you pay for Pkts. ozs and 1/4 lbs. select 30c worth extra.

Acroclinium—One of the best everlasting. a. Single Pkt.5 Double 5c.

Ageratum—Flowers all season. One of the best bedding plants. h.h.a. Mixed 5c

Alyssum—Little Gem. Grows only a few inches high, and covers ground like a carpet. a. 5c. 1/4oz. 20c.

Amaranthus—Beautiful foliage plant. Mixed. 5c.

Aquilegia (Columbine)—Early to bloom. Mixed. h. p. 5c.

Antirrhinum (Snap Dragon)—Giant flowered. a. Red, Pink, White, yellow, in separate colors. Each 10c.

Antirrhinum. Dwarf. Same colors as Tall. Pkt. 10c.

BALSAMS (Lady Slipper)—An old favorite garden flower producing masses of brilliant blooms. a.

Double Camelia Flowered—Mixed. 5c.

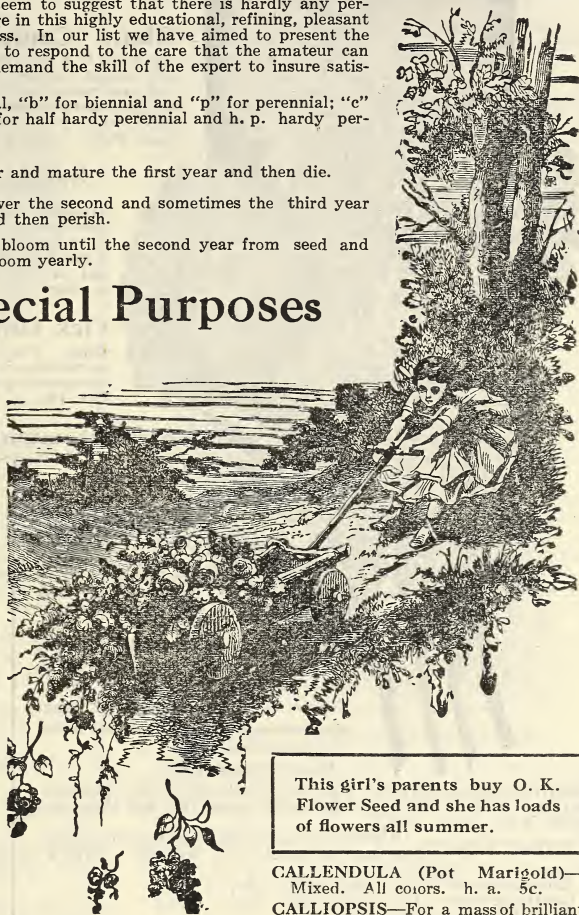

Single Flowered—Mixed. 5c.

Everitt's Invincible—All colors. The best mixtures 5c

BALSAM APPLE—(See Momordica).

BEANS—Ornamental Runner—a. A rapid grower that bears sprays of brilliant scarlet blossoms. Grows quickly to 10 feet. The beans can also be used on the table. Pkt. 10c. oz. 20c.

BOSTON IVY—(Ampelopsis Veitchi). See department of hardy climbers for description. We can furnish the plants if preferred. Seed Pkt. 10c.

This girl's parents buy O. K. Flower Seed and she has loads of flowers all summer.

CALLENDULA (Pot Marigold)—Mixed. All colors. h. a. 5c.

CALLIOPSIS—For a mass of brilliant colors through the whole summer this is hardly equalled. Desirable for borders and groups.

Golden Wave—Flowers yellow with a circle of crimson brown. 5c.

Mixed Tall—Valuable for wild gardens and for cutting. 5c.

Mixed Dwarf—Valuable in mixed beds and borders. 5c.

CAMPANULA—See Canterbury Bell.

CALIFORNIA POPPY—See Eschscholtzia.

CANARY BIRD FLOWER—One of the most beautiful climbers, with beautiful foliage and flowers, a.c. Pkt. 5c;

CANDYTUFT—A treasure for bouquets. They soon flower from seed and remain in bloom a long time a.

White Rocket—Pkt. 10c. 1/4oz. 20c. Mixed. Pkt. 5c. 1/4 oz. 20c.

CANNA—Few people know that Cannas can be grown from seed and bloom the first season. Sow early. Preserve the roots in cellar for next year. Mixed. 10c

CANTERBURY BELLS (Campanula)—Beautiful, well-known flower. Bloom freely through summer. finest mixed single, 5c. Finest mixed double. 5c.

ASTERS The asters of to-day, such as we offer, approach, almost, the chrysanthemum in great size and gorgeous beauty. As the flower has been improved, its popularity has also increased until to-day, it may be called the universal flower. The seed may be sown outdoors in beds, or for earlier plants in the house. They delight in plenty of sun.

Giant Comet or **Crego**. The immense, gracefully formed flowers of this aster has made it a favorite everywhere. The petals are long, curled and twisted, having a feathery appearance. The flowers are very fluffy and many run five inches in diameter and are as beautiful as chrysanthemums. Fine for cutting. We have in separate colors, white, pink, crimson, dark blue, and purple at Pkt. 10c; $\frac{1}{2}$ oz. 25c; Mixed Colors; Pkt. 10c $\frac{1}{2}$ oz. 25c.

Sample's Giant Late Branching

Probably the finest late Aster. It has size, vigor, fine stem, beauty of form and varied colors to recommend it, and, while not so early as many of the other varieties, it stands at the head of the list both for the home-garden and as a florist flower. Mixed Colors; Pkt. 10c; $\frac{1}{2}$ oz. 30c.

Vick Early Branching They produce flowers on long, stiff stems. The shape of the flower is round, and the size extraordinarily large. A very valuable flower for commercial growers and the home garden. Mixed Color Pkt. 10c; $\frac{1}{2}$ oz. 30c.

Chrysanthemum Flowered—Mixed. Pkt. 10c; $\frac{1}{2}$ oz. 30c.

Carnations

Popular favorites. Colors extremely rich and beautiful. Exquisitely fragrant. Hardy with protection in winter.

Marguerite—Large, double flowers which sometimes measure three inches across. Flowers very early, about 12 weeks after sowing seed. Annual, but hardy with winter protection.

Choice Mixed, 10c.

Everitt's Peerless Mixture—The plants will bloom the first summer and then may be potted in September when they will bloom all winter in the house. 10c.

Castor Beans (Ricinus)—Some attain gigantic proportions as much as 15 feet. Very decorative. Give a place a tropical appearance. a.

Zanzibariensis—The largest variety. 5c.

Cambodgiensis—The medium size. 5c.

Sanguineus—A dwarf kind. 5c.

Several varieties mixed. 5c.

Centaurea Cyanus (Bachelor Button or Corn Flower) a. Single Flowering Mixed. 10c. Double Flowering Mixed 10c.

Centaurea Imperialis (Sweet Sultan)—a. Mixed 10c.

Everitt's Choice Mixture of all Annual Centaurea. Will produce the loveliest cut flowers all summer. Single 10c. Double 10c.

Chrysanthemums Produce flowers of many bright colors splendid for cut flowers. a.

Double White. 5c. Double Golden Yellow. 5c.

Everitt's Choice Mixture—Annual kinds. 5c.

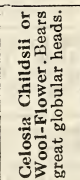

Everitt's Choice Mixture—Perennial kinds. 10c.

Cockscomb or Celosia—We offer three of the most beautiful and novel types of this wonderfully improved flower. You can get them separate or all mixed in one pkt. They display the most novel and interesting shapes and run through a great line of colors and shades. **Brysonia** is also an everlasting if hung with the heads down, when ripe, in a dry dark place. They are then very valuable in their many colors for winter decorations.

PRICE of Plumosi and Childsii, Each 10c; 3 for 25c; 7 for 50c. **Brysonia**—Pkt. 15c; 4 pkts. 50c; Mixed 1cc.

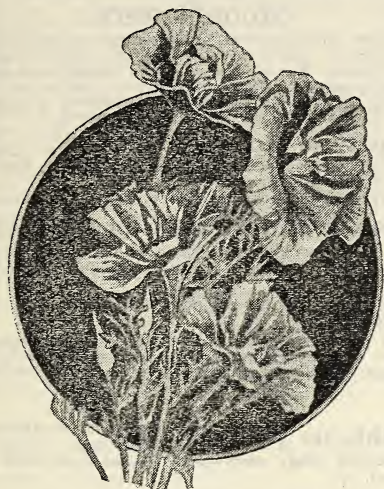

Celosia Plumosi or Ostrich Feather—All the colors of the Rainbow.

Celosia Childsii or Wool-Flower—Bears great globular heads.

Celosia brysonia Chrysantheflora Have enormous heads, some measuring 18 inches across.

California Poppies (Eschscholtzia)

With silvery foliage studded with scores of gorgeous cups of cream and gold, crimson and scarlet, the California poppies in their most modern dress are one of the most reliable and gorgeous of the easily grown annuals for striking beds in a hot, sunny portion of the garden.

It blooms steadily from the first of July until killing frosts from seed sown in the open ground when warm. It likes a rather dry situation.

We suggest that they are very good to sow in tulip beds when they will cover the soil while the tulip leaves are maturing.

Mixed Colors: Single Pkt. 5c; $\frac{1}{4}$ oz. 15c.
Double: Pkt. 10c; $\frac{1}{4}$ oz. 25c.

Cobea One of the handsomest and most rapid growing climbers. Flowers bell-shaped. Plant seeds edgewise. a. White and blue. Pkt. 5c.

Coleus This is the handsomest foliage plant that can be obtained from seed. Their color combinations are wonderful. Much used as a border plant. Plant in heat and transplant. Everitt's Fine. Mixed. 10c;

Cypress Vine A beautiful climber, both in foliage and flower. For trailing upon a light trellis it cannot be excelled. Profuse blooms of scarlet or white.
Hybrida—Known as Cardinal Climber, 10c; $\frac{1}{2}$ oz. 20c.
Fine Mixed. 5c; $\frac{1}{2}$ oz. 15c.

Daisy (English Daisy)— These flowers appeal to all. Excellent for cutting p.
Bellis—Pink. Pkt. 5c.
Double Red—Pkt. 5c.
Giant Mixed. 5c.
The Shasta Daisy—Large pure white flowers, p. 10c

Delphinium (Larkspur) (See also dept. of Hardy Perennials)— These handsome plants are very effective in borders and planted among shrubs. The graceful spikes of blooms are very appropriate for vases. Continue in bloom long.
Everitt's Choice Mixture—Annual. 10c.
Everitt's Choice Mixture—Perennial. 10c.

Dahlia Raising dahlias from seed is a fascinating occupation. The plants promptly appear and soon show strong and sturdy and bear the most novel flowers.

Cactus Flowered.—Mixed. 10c.
Show Flowered.—Mixed. 10c.
Decorative Flowered.—Mixed. 10c.

Dolichos (Hyacinth Bean)—A rapid growing annual climber. Flowers followed freely by ornamental seed pods. Sweet scented. a. c. Mixed—all varieties and colors. 5c.

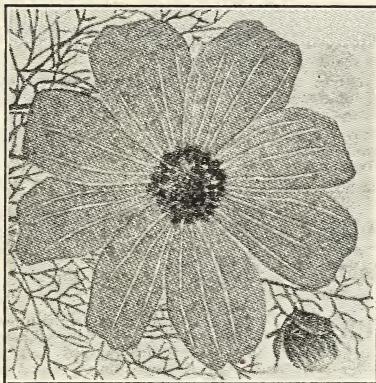

Dianthus (Garden Pinks)—A popular annual class known to better all. The flowers have brilliant contrasting colors appearing in each. Very beautiful. a.

Chinensis—Mixed Single. 5c. $\frac{1}{4}$ oz. 20c.
Chinensis—Mixed Double. 5c; $\frac{1}{4}$ oz. 20c;
Japan—Mixed Single. 5c; $\frac{1}{4}$ oz. 20c.

Laciniatus—Fringed Single Mixed. 5c.
Laciniatus—Fringed Double Mixed. 10c.
Semperflorens—Choice mixed. 10c.

Everitt's Choice Mixture of best classes of double and single pinks. 10c. $\frac{1}{4}$ oz. 20c.

Hardy or Clove Pink—Are easily grown and flower in great profusion all during June and early July. 5c. $\frac{1}{4}$ oz. 20c.

Giant Flowered Cosmos

This is a vigorous, tall growing annual, and our Giant flowered is one of the great recent improvements in the flower kingdom. Single and double flowers, frilled and crested, in pink, crimson and white colors are borne in great profusion all summer. They are also earlier than the old, small kinds. They will bloom better if the seed pods are removed before ripe.

Separate Colors, Pink, Crimson, and White
Each Pkt. 5c. $\frac{1}{4}$ oz. 20c.
Mixed, single and double. Pkt. 10c; $\frac{1}{4}$ oz. 20c.

Momordica

Balsam Apple)—

A beautiful vine. Grows about 10 feet and bears large creamy-white, dotted with black flowers, or pure white with red pistils. The flowers are succeeded by sulphur yellow fruits which burst when ripe and show the large blood-red seeds. As the flowers and fruit are borne at the same time the effect is striking. The fruit has medicinal properties, as a healing linament or salve. Pkt. 10c.

Morning Glories and Moonflowers

There are tens of thousands of places where rapid climbers are wanted to cover unsightly places or furnish cool shade. For such purposes no climbers are better than these two. They all grow very rapidly and to a length of 15 to 25 feet, bearing thousands of flowers. Do not sow seed until trees start their leaves.

Japanese Morning Glory Bears very large flowers in many soft and delicate colors and shades. Pkt. 5c. oz. 25c. ¼ lb. 75c.
Fringed Jap. Morning Glory. Pkt. 10c. oz. 40c.

Brazilian Morning Glory This variety quickly makes the largest and best of the Hibiscus family. The blooms are very large and in Red, Pink and White colors. Separate colors. each 5c. All colors mixed. 5c.

Bona Nox Blue Morning Glory, also called Evening Glory. Pkt. 5c. oz. 20c.

Moonflower This may be started in the house and transplanted when weather becomes warm and settled or sown in open ground. The flowers open at sundown and some have a delightful fragrance. Pkt. 10c. oz. 35c.

Forget-Me-Not (Myosotis) Among the best spring flowers. They flourish in shady or moist-situations.

Alpestris Blue—Trailing habit, adapted to covering large patches which can be transformed into a sea of blue. Pkt. 5c.

Alba, White. Pkt. 5c.

Rosea, Pink. Pkt. 5c.

Mixed. Pkt. 5c.

FOUR-O-CLOCK—(See Marvel of Peru).

Foxglove (Digitalis). Beautiful tall spikes of white, pink, rose and mottled flowers. Grows 4 feet high. Fine for cutting. p.
Grandiflora—Yellow. 5c.
Pink. 5c. **Purple.** 5c.
Five Mixed. 5c.

Gaillardia (Blanket Flower)—They will produce from early spring to late fall a continuous profusion of brilliant flowers, red and yellow chiefly. Will not bear transplanting. a and p.
Annual Varieties—Mixed. 5c.
Perennial Varieties. Mixed. 5c.

Geraniums They will bloom from seeds in four to five months. a. Perennials if removed to cellar in winter.
Large Flowering—Mixed Single. 15c.
Large Flowering—Mixed Double. 15c.
Lady Washington—Large flowers, beautiful. 25c.

Globe Amaranth (Gomphrena)—A fine everlasting. If cut when mature will retain its beauty for years.
Five Mixed—All colors. 5c.

Godetia (Satin Flower)—An attractive annual that deserves extensive cultivation. Plants bear showy colored flowers in profusion of satiny texture. Colors rich and varied. h. a.
The Bride—White and Red. 5c.
Lady Satin Rose—Bright Carmine. 5c.
Everitt's Fine Mixed. 5c.

Gourds (Ornamental)—a. c. See also department of vegetable seeds. There are about 16 varieties of these curious and some useful fruits. Most of them are strong growers. From 20 to 30 feet. The small, fancy ones are nice playthings for children. We do not list them separate, but we offer a liberal packet, calculated to have all the kinds for 10c. oz. 30c.

Gypsophelia Graceful plants of light fairy-like growth. Much used for combining with other flowers in bouquets and vases. a.
Elegans Grandiflora (Angel's Breath)—Pure white. 5c. Mixed 5c.
HELICHRYSUM (Strawflower)—See Everlastings.

Heliotrope Its exquisite fragrance attracts all and its freedom to bloom places it foremost with our choicest flowers. Easily grown. Start seed inside and transplant.
Fine Mixed. 5c.

Hibiscus The plants grow branching, making quite a bush 4 to 6 feet high. They are entirely hardy everywhere. Bloom from June until fall. p.

Mallow Marvel—(See also Hardy Perennials)—The largest and best of the Hibiscus family. The blooms are very large and in Red, Pink and White colors. Separate colors. each 5c. All colors mixed. 5c.

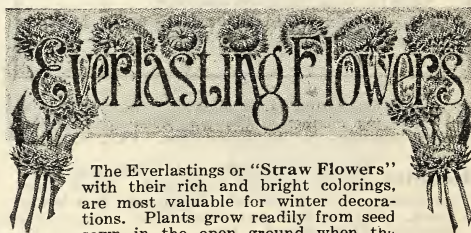

Hollyhock

The hollyhock in its perfection is very unlike its parent of olden times. It now ranks with the Aster, Dahlia, etc. The flowers are many as double as the rose and of many shades and colors.

Allegheny—Flowers seldom less than 5 inches across and all beautifully colored and fringed. Blooms continuously. Mixed. 10c.

Everblooming—Single. Mixed 10c.

Everblooming—Double. Mixed. 10c.

The Everlastings or "Straw Flowers" with their rich and bright colorings, are most valuable for winter decorations. Plants grow readily from seed sown in the open ground when the trees are starting out in leaf. The blooms should be cut as soon as they open, tied in small bunches, and dried slowly in a cool, shady place, hanging the flowers downward to keep the stems straight. Every one should grow some for winter bouquets, table centers, etc. Also they can be sold at profitable prices, summer and winter.

Helichrysum Of all Everlastings, this is the best known. The plants grow 2 to 3 feet high and are covered with fine large double flowers.

The colors are most brilliant including white, pink, yellow and scarlet. They are attractive when grown in beds in the garden and keep well as cut-flowers or dried for winter bouquets. Mixed—All colors. Pkt. 10c. ¼ oz., 25c.

Globe Amaranth A showy Everlasting that has blooms like clover heads. It grows 2 feet high and blooms profusely. Colors: White, pink, red, salmon and roses. Mixed.—All colors Pkt. 10c; ¼ oz., 25c.

Lathyrus (Hardy Pea)—A very decorative climbing vine. Suitable to grow on fences, trellises, as floral screens. Blooms all summer. Good for cutting, etc. p. c.

Pink Beauty—A pink, white variety. 5c.

Rubra—Bright Crimson. 5c.

Mixed—All colors. 5c.

Lobelia (Cardinal Flower)—Bears brilliant, fiery scarlet flowers. Plant in moist place. a.

Crystal Palace—Dark blue. 5c.

Mixed. 5c.

Lupines The annual Lupines are of easy cultivation and, in addition to their value as border plants, are admirably adapted for cutting. They attain a height of 15 inches, producing long flower-spikes which keep a long time in water. Sow the latter part of April.

Tall—5c; oz. 25c.

Dwarf—Pkt. 5c; oz. 25c.

Marvel of Peru (Four-O-Clock)—A good old-fashioned flower, bearing hundreds of flowers during the season of white, yellow, crimson, violet and spotted or striped. a.

Mixed—All kinds and colors. 5c.

Maurandia Climber. Slender growth, profuse bloomer. Colors range white, rose blue, and purple. a. c.

Mixed—All colors. 5c.

Marigold Blooms in late summer when many other plants are past their best and then afford a wealth of color. a.

African Varieties—Tall mixed. 5c. ½ oz. 20c.

African Varieties—Dwarf Mixed. 5c. ½ oz. 20c.

French Varieties—Tall mixed. 5c. ½ oz. 20c.

French Varieties—Dwarf. 5c. ½ oz. 20c.

Mignonette One of the principal uses of this fragrant flower is for cutting and combining in bouquets with other flowers.

Giant Machet—The best variety. Flowers reddish green. Golden and white mixed. 5c.

Giant Red—10c.

MOSS ROSE—(See Portulacca.)

Oranamental Grass Extensively used in the arrangement of Winter bouquets and other home decorations. They can be used most effectively on lawns and in flower garden.

Job's Tears—The seeds are ornamental when strung and used the same as beads. 5c.

Fountain Grass—Pkt. 5c.

Mixed Ornamental Grasses—Annual. 5c.

Mixed Ornamental Grasses—Perennial. 10c.

Pansies

These lovely flowers are everybody's favorite and are so well known as to not need lengthy description. Our varieties are among the best. The following superior colors. Large flowered.

Light Blue—5c. ½ oz. 35c.

Bronze and Shades—5c; ½ oz. 35c.

Pure White—5c; ½ oz. 30c.

Violet—5c; ½ oz. 35c.

Black—5c; ½ oz. 30c.

Brilliant Red—5c; ½ oz. 35c;

Blotched—5c; ½ oz. 30c.

Yellow—5c; ½ oz. 40c.

Velvet Bronze Yellow edge—Pkt. 5c; ½ oz. 10c.

Everitt's Superior Mixture—Contains the very best sorts and a wide range of colors. Guaranteed to please. 10c; ½ oz. 40c.

Platycodon (Japanese Bell Flowers) See description and illustration under Hardy Perennial) Seeds. Pkt. 10c; ½ oz. 60c.

Phlox Drumondi Grandiflora

Comes into flower in early summer and is not excelled for brilliancy and continuity of blooms. They make beautiful borders. When sown in beds the colors are beyond description. a.

Bright Rose—5c. ¼ oz. 35c.

Scarlet—5c. ¼ oz. 35c.

Crimson—5c. ¼ oz. 30c.

White—5c; ¼ oz. 30c.

Yellow—5c; ¼ oz. 40c.

Everitt's Superior Mixture—10c; ¼ oz. 40c.

For Hardy Phlox see list of perennial plants.

Portulaca (Moss Ross)

Will grow and bloom profusely in dry hot situations where almost any other plant would perish. Brilliant in colors. Large flowering.

Single White—10c.

Double White—10c.

Single Yellow—10c.

Sweet Peas

Universally admired and desired. Everybody wants Sweet Peas. Therefore everybody who has a little space should plant a row with neighbors who are less fortunate. Plant liberally. The two leading classes are the Spencers, early and late, and Eckfords Grandiflora.

SPENCER GIANT LATE FLOWERING—The unique, combinations of forms, colors and shadings are not describable. The Spencers are also the largest and most magnificent type of this always popular flower.

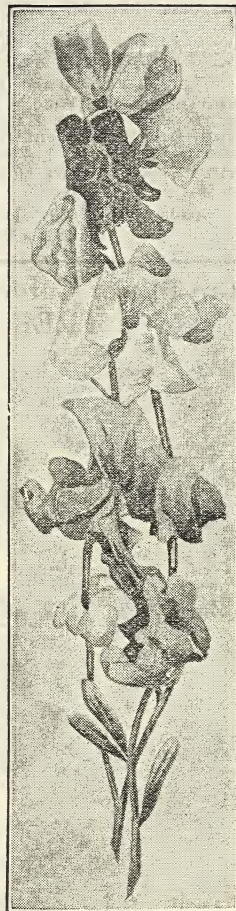

SEPARATE COLORS—White, red, pink, crimson, salmon, blue. Pkt 10c. oz. 25c; ¼ lb. 75c.

GIANT, EARLY FLOWERING—These come 2 or 3 weeks earlier than the late ones and are nearly as large. Mixed colors. Pkt. 10c; oz. 25c; ¼ lb. 75c.

EVERITT'S SUPERIOR MIXTURE OF SPENCERS—Comprises all colors and forms. Nowhere can greater value be gotten for the price. Pkt. 8c; oz. 20c; ¼ lb. 60c.

ECKFORD'S GRANDIFLORA—A very fine class. Many of the flowers are as large as Spencers but they are not so much crimped like the former. Mixed. Pkt. 5c; oz. 15c; ¼ lb. 50c.

There is always a space in the garden or back yard for a row of Sweet Peas.

Sunflower (Helianthus)—Few people understand the great variations and beauties of the ornamental sunflowers, their observations having been limited to the large mammoth Russian, raised for chicken feed. The tall ones, and there are many varieties are suitable for backgrounds. The dwarf kinds are charming when grown in beds or in mixed flower borders. a.

Tall Varieties—Mixed 5c.

Dwarf Varieties—Mixed 5c;

Miniature Varieties—These bear beautiful small flowers, fine for cut flowers. Mixed. 10c.

Plant Nasturtiums

They will give you an abundance of flowers with hardly any trouble. Plant them for yourself and neighbors to gather.

Everybody knows these lovely, and universally popular flowers. They are probably more universally planted than any other kind. If you have not had liberal beds of them heretofore start this season and there will be many pleasant times coming to you and your friends. Succeed everywhere, even on poor soil.

Spade up that ugly spot. Plant Nasturtiums and make it a beauty spot.

Cut Flower Garden Mixture FREE

FREE

7 OF THE BEST FLOWERS FOR BOUQUETS 7

All are described in our flower seed list. Each variety is a gem for cut flowers and bouquets that will last quite a while. The mixture is so prepared that a continuous array of blooms will appear throughout the summer. This mixture can be used in several different ways: Between rows of vegetables; in odd corners and in any vacant place.

A Suggestion Spade or plow up that space or lot of yours, or next to you, that was an eye-sore of weeds last year and make it a beauty spot this year. It can supply bouquets for you and the whole neighborhood. If you want to you can make it a community movement and interest the boys and girls in it.

Our Offer We will give one large packet FREE on each order for \$1.00 or more sent from this catalogue. If you want more than a packet, the price will be, 1 oz. 20c; ¼ lb. 75c; per lb. \$2.50. Less than one pound will plant or sow an ordinary city lot.

I write to you with reference to the mixture of gladiolus bulbs obtained from you last year. For strong growth and beautiful flowers, they excelled any gladiolus that I ever grew. I cannot see how you can sell such splendid gladiolus bulbs at such a low price. The Wonderful or New York lettuce was surely wonderful, and the best we have ever grown. MISS LILLY AMBURGEY, 112 10th St., Norton, Va.,—18

I planted numerous of the O. K. Flower seeds last season. They grew very good, but particularly the cut flower seeds produced more flowers than I have ever seen from that amount of seed before. RALPH ALLWINE, Shelby, Ohio.,—25

Poppies

Glowing Beauties One of the most admired of our annual flowers. They are easily grown and display themselves in almost numberless shades. The seed should be sown thinly where they are to bloom, and sow at intervals for a season's succession.

Shirley Poppies An extra fine strain, single and double flowers, in colors from white to deepest crimson, and some striped. Pkt. 5c; ¼ oz. 15c. oz. 50c.

Peony Flowered Large double flowers resembling Peonies. Many colors. Pkt. 5c; ¼ oz. 15c.

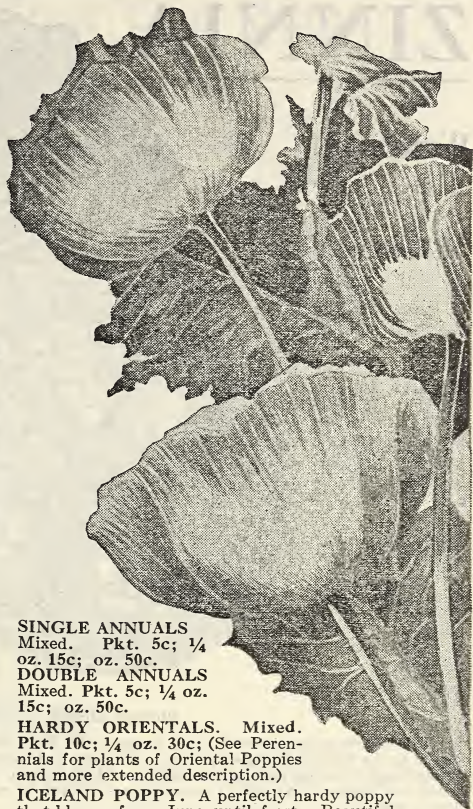

PETUNIAS

This is one of the most popular annuals, because they succeed everywhere and bloom constantly and profusely from June to frost. They will also flower freely in sunny windows in the house. We sell only the large flowering kinds.

LARGE FLOWERING—Single Mixed. Pkt. 15c.

LARGE FLOWERING—Double Mixed. Pkt. 15c.

GIANT FRINGED AND RUFFLED—A strain of unexcelled beauty and unequalled size. They comprise almost every color and shades of color, and are fascinatingly beautiful in shape. Pkt. 20c.

SINGLE ANNUALS
Mixed. Pkt. 5c; ¼ oz. 15c; oz. 50c.

DOUBLE ANNUALS
Mixed. Pkt. 5c; ¼ oz. 15c; oz. 50c.

HARDY ORIENTALS. Mixed. Pkt. 10c; ¼ oz. 30c; (See Perennials for plants of Oriental Poppies and more extended description.)

ICELAND POPPY. A perfectly hardy poppy that blooms from June until frost. Beautiful flowers. Yellow, white, orange and scarlet. Fine for bouquets. Easy to grow, sure to succeed. Pkt. 10c; ¼ oz. 20c;

SALVIA (Scarlet Sage)—This is a universally grown bedding plant that keeps the garden bright with color until late in autumn. a. 10c; ¼ oz. 40c.

Stocks

(Ten Weeks) Adapted for massing, bedding, borders and of special value for pot culture. Profusion of bloom brilliant and varied colors. Giant Perfection Strain. a.

Everitt's Superior Mixture—All colors. 10c. ¼ oz. 40c.

Sweet Williams (Dianthus Barbatous) A beautiful class of easily grown and beautiful plants with flowers of rich colors. Hardy. See also Perennial plants.

Single Mixed—Pkt. 5c; ¼ oz. 25c.

Double Mixed—Pkt. 5c; ¼ oz. 25c.

Tritoma Also known as "Torch Lilies," "Flame Flowers" and "Red Hot Poker." They are amongst the showiest of our hardy flowers. Seed sown this year will bring flowers next year, beginning in May and continue till frost. If you want to save time get the plants in our list of Hardy Perennials but a greater range of colors can be gotten from our Hybrid Mixed seed sown.

New Hybrids—Mixed. Pkt. 20c.

Red Hot Poker—Pkt. 10c.

Verbenas

They thrive on any good garden soil. For beds and borders they have few equals. Fine for pot culture and window boxes. Bloom from June until frost.

Mammoth Flowered Sorts.

White—10c. Everitt's Superior Mixture—10c.

Purple and Shades—10c. Blue and Shades—10c.

Picotee Zinnia

Cactus-Flowered Zinnia

The Indianapolis Flower Society adopted the Zinnia as the official flower of the City. Its report referred particularly to the Giant-flowered strains. So great has been the demand on our house for the seed that on some days a guard had to be stationed at the entrance door to keep the people back until some of those on the inside could be served and depart. We offer the best types. Keep in mind each type has all colors—white, red, scarlet, orange purple, etc.

SHOW DAHLIA-FLOW- ERED ZINNIA

Possesses all the qualifications of a true show dahlia. It is free in growth, free in bloom, has long stem, flower constantly, and has all the dahlia colorings, including shades unknown in zinnias heretofore. Blooms rarely fall below 5 inches in diameter. They begin to bloom in July and continue constantly until frost.

Pkt. 15c.

NEW EARLY CACTUS DAHLIA ZINNIA

The largest of its kind ever introduced. Perfect flowers, which are composed of the ideal cactus petals, and measure 6 inches in diameter. The colors are brilliant red, bronze and orange, while on the reverse side of the petals are the lighter shades such as salmon-rose, light lilac, etc., making wonderful combinations.

Pkt. 15c.

GIANT PICOTEE ZINNIA

This is the most delicate of all zinnias. The flowers are not as large as other varieties, but the stems have a remarkable length. They are produced in a profusion that is simply marvelous. No such color exists in any other zinnia. The color effect is almost bizarre, yet pleasing in a high degree. As an exhibition cut flower this is unique and unsurpassed.

Pkt. 15c.

Every flower garden will be proud of these three wonderful types, which we are constantly improving by selections. The regular price is 15c a packet, but our special price is, for the set of three, only.....

25c

I find the Butterfly Bush made a rapid growth the first season and bloomed quite freely. I am very well satisfied with it. GEO. QUASTSr., Swink, Colo.

The Butterfly Bush did fine and is still blooming. Made a wonderful growth. M. M. CATEY, Moberge, S. D.

We are very much pleased with the Butterfly Bushes. They are very pretty and they surely did improve the looks of our lawn. Mrs. WM. SPECNER, Benton Harbor Mich.

I think the Butterfly Bush is beautiful. It is growing fine and had flowers on it last summer. And we like it awfully well. MRS. WOLLENBECKER, Tole o, O.

You asked me how I liked the Butterfly Bush. I think it is lovely pretty. It is three feet high and I never saw anything grow like it has. MRS. V. G. HICKS, Caruthersville, Mo.

I think the Butterfly Bush is beautiful in bloom, delicious in fragrance and a very desirable bush to have. My bush gave an altogether perfect bloom for the first MISS I. M. SHINNICK, Zanesville, Ohio.

The Butterfly Bush is the most beautiful plant I ever saw. It has been in bloom all summer. It seemed the more flowers were cut off this plant the more blooms it produced. We consider it the best plant in our garden. I have seen no other like it in this neighborhood. CHAS. W. LABBRENTON, McKEESPORT, Pa.

I bought five Butterfly Bushes last spring and have had many compliments on the beautiful flowers. I placed two of the bushes in round beds with dwarf, bronze cannas and Salinas. The effect was just beautiful. Mrs. CHAS NASSAU, Crwon Point, Ind.

Here is a Bush That You Want

I have two butterfly bushes and will say nothing has given such a continual bloom as they have. They are fine. Oct. 4, 1924.
S. B. CROZIER, St. Clairsville, Ohio.

The Butterfly Bush was a pleasant surprise to us. Simply doing fine. Worth three times and more the price you ask.
ANDREW J. GERING, Danville, Ill.

I am well pleased with the Butterfly Bush. It has done fine and is in full bloom now. Oct. 8th, 1924.
MADISON NOBLE, Atlanta, Ala.

The Butterfly Bush is wonderful. It has bloomed all summer long and is in full bloom now. I am much pleased with it.
MISS MARGARET M. KILLER, Tuscaloosa, Ala.

HAVE YOU A BUTTERFLY BUSH ON YOUR LAWN?

If not, you surely should have because there is hardly any plants as attractive with beautiful, fragrant flowers so numerous. It is a plant that at once attracts everybody's attention. Plants set this spring will soon bloom and every summer following, beginning in June and lasting until hard frosts. The numerous Lilac flowers are 6 to 8 inches long and very fragrant. Attracts butterflies Fine for cut flowers. Plant liberally. Once planted is enough as they are hardy.

POINTS OF SPECIAL MERIT

- (1) Hardy (2) Blooms first year. (3) Blooms all summer. (4) Gets larger year by year. (5) Fragrant, fine cut flowers. (6) Not common, Be the first to have them.

See examples of reports from our pleased customers below. We have hundreds like them.

Am more than pleased with my Butterfly Bush. My neighbors think it is wonderful. Am truly glad I got it. Everything I got last Spring grew and I am much pleased
FLOKA HAAG, Kettle Falls, Mo.

I am sure pleased with the Butterfly bush you sent me. I think it is just wonderful. It has been in bloom since 15th of July and is still blooming. Sept. 6, 1924.
MRS. D. R. GARRETT, Albany, Ala.

The Butterfly Bush I bought from you is doing fine and bloomed all summer. It is all you claimed it to be and more. I am sending a small order and I know if they are the delightful surprise the Butterfly Bush I won't be disappointed. Oct. 16, 1924.

MRS. DAN M. EARHART, Boonville, Mo.

We are very well pleased with the two butterfly bushes. Oct. 17, 1924.
F. W. GLEISNER, Bergenfield, N. J.

I like the Butterfly Bush fine. It sure did grow into a fine spreading bush. There were always butterflies around the flowers. Oct. 18, 1924.
MRS. G. GOLDBACH, Pittsburg, Pa.

The Butterfly bushes I purchased from you all lived but one, and they have been in bloom most all summer. I think they are very pretty. I am sending an order for some roses today.
MRS. KATE W. BALDWIN, Woburn, Mass.

The Butterfly Bush I bought from you, is a wonder. It is just beautiful and is still in bloom.
MRS. F. H. WAYMAN, Arlington Heights, Ill.

Price One for 60c; two for \$1.00; five for \$2.00; more than five at 50c each. Prepaid to you at the regular time to plant. Good condition guaranteed.

Everitt's Hardy Perennials

"THE FLOWERS GRANDMOTHER LOVED TO GROW"

The perennials we sell you are strong field-grown. Planted in the spring they will flower the same year, and will continue for years, ever increasing in number of plants and blooms. In three years the bed should be thinned—the plants divided and the surplus transplanted.

With a start of a dozen plants, your home and your friends' homes may be supplied with beautiful flowers from early spring until freezing winter.

Price of all varieties in the list unless priced with description; one, 25c; 5 for \$1.00, dozen, may be of one or more kinds, \$2.00; per 100, one or more kinds, \$12.50. All delivered by Parcel Post or Express.

Aquilegia (Columbine)—All colors, fine for border and rock garden. Excellent cut flower. Two feet high. Blooms June-Oct. Mixed.

Bleeding Heart—An old fashioned favorite, Its long racemes of graceful heart-shaped flowers are very attractive. It is perfectly hardy and does well even when planted in shade. Each 60c; 3 for \$1.50; doz., \$3.50.

Campanula (Canterbury Bell)—Largest and most beautiful family of border-plants. Very free flowering and easy growing. Two feet high. Blooms in June. Mixed.

Chrysanthemum (Hardy October Rose)—The development of the Hardy Chrysanthemum has made it possible to have color, life and beauty in the garden when the other hardy plants have passed. Fine for cut flower. Large Flowering Varieties.

Autumn Beauty—Golden Brown.

Autumn Glow—Red.

Quinola—Large Golden Yellow.

Old Homestead—Soft Pink.

Coreopsis (Tickseed)—The flowers are a rich, golden yellow of slender graceful form, making them an excellent cut flower. Two feet high, Blooms all summer.

Candytuft (Iberis)—A dwarf plant with ever-green foliage. Adapted to the rock-garden and border.

Sempervirens—Pure White Flowers.

DAISY—(See Shasta Daisy.)

Delphinium (Larkspur)—It is almost impossible to convey anything like an adequate description of the improved Delphiniums. Their greatest charm lies in the wonderful stateliness of growth, and the rich colors and tints of their striking flowers. Nothing in blue can compare with Delphiniums, and for their value in hardy borders they are unsurpassed.

Belladonna—Sky blue Flowers.

English Hybirds—Colors range from light blue to dark purple.

Dianthus Barbatus (Sweet William)—Certainly one of the most popular old-fashioned garden plants. Their freedom of blooming, striking color and pleasing fragrance make them a favorite of all flowers. Fine for cutting

Everitts Special Mixture—Will give an array of beautiful colored flowers, unrivaled for display in solid bed, borders, or for cut flowers.

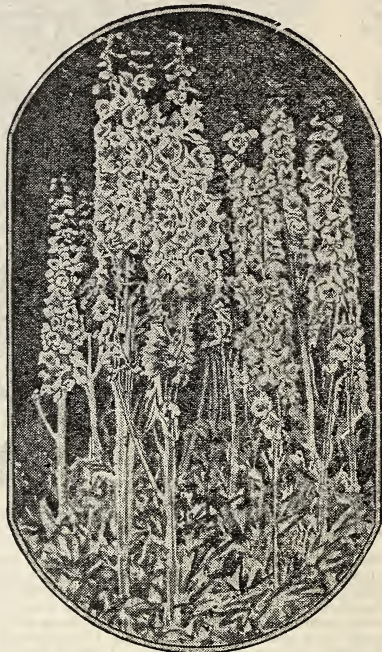

Newport Pink—A beautiful pink, variety.

Dianthus Plumarius (Glove Pink)—Low growing, sweet scented early blooming. Should be planted in quantities in beds or borders.

Digitalis (Foxglove)—One of the most popular perennials. Throws a flower spike, tall and stately, to a height of 4 to 6 feet. July-Aug. Mixed.

Gaillardia The most glorious of our true "Old Fashioned Flowers." Flowering constantly from June till October in many rich and brilliant colors of orange, crimson and red. Unexcelled as a cut flower. Mixed.

CIDEN GLOW—(See Rudbeckia)

Delphinium (Larkspur)

Gypsophila (Baby's Breath)—Masses of minute flowers produced throughout the summer, very fine for cutting and drying.

Paniculata Grandiflora—Pure White.

Helianthus (Perennial Sunflower)—The usefulness of this beautiful hardy plant can neither by word nor illustration be expressed. Their rich golden color and full formed growth make them wonderfully effective in the hardy border or shrubbery planting. Six feet high. Blooms Aug.-Sept.

Hemerocallis Lily-like flowers with very ornamental foliage, color pure yellow. Three feet high. Blooms June-July.

Thunbergia—Funnel-shaped flowers of rich buttercup yellow. July.

Hibiscus Very robust growing plant, having large flowers of rich shades of red, pink and white. Height, six feet.

Marvel Mallow—Produces flowers of immense size of colors far surpassing the old types, Red., Pink. and White, Separate colors.

Hollyhocks Our Hollyhocks are produced by a method that insures them free from rust. If you buy them elsewhere you may have that trouble.

Double Mixed.

Single Mixed.

ALEGHENY—Flowers seldom less than 5 inches across and fringed, constant bloomers. Each 30c; 4 for \$1.00; dozen \$2.50.

Hardy Perennials—Cont'd.

Lily of the Valley This flower is well known and appreciated by all. We sell field-grown clumps that will give immediate effect. Some of the roots can be taken up and bloomed in pots in the house.

Lathyrus (Hardy Sweet Peas.—Red, Pink, White, Separate Colors, each.

Oriental Poppy Nothing in the hardy plant line can compare with this for beauty and brilliance of their large fiery scarlet flowers. Three to four feet. May-June.

Iceland Poppy Bright Green Foliage from which arise stems about a foot high bearing brilliant flowers all season, if seed pods are not allowed to form.

Platycodon (Japanese Bell Flower)—One of the finest hardy plants. Produced from July, until frost very showy, violet blue flowers almost rivaling the charming Jackmanii Clematis 1 to 2 feet high. Each 25c; 5 for \$1.00; doz. \$2.25.

Phlox Beauty and usefulness bring these hardy border plants among those of greatest importance. For massing they are very effective and their greatest variety of color add a brilliancy to the landscape. Their flowering season begins in July and if the past bloom spikes are removed, the blooming period may be prolonged until fall. Separate colors—White, Pink, Lavender, Red, each.

Pyrethrum Hybridum Hardy Daisy. A group of graceful free-flowering plants that are unequalled for cutting. Colors range from pure white to most brilliant scarlet Bloom practically all summer.

Rudbeckia (Golden Glow) An old favorite in the "Old Fashioned Garden." Fine for cutting. Five feet high. Blooms July-Sept.

Shasta Daisy A much improved hardy daisy, bearing a great profusion of large white flowers from early summer until late in the fall. Fine for cut flowers. Two to two and a half feet high.

Price of all Hardy Perennials: Each 25c; 5 for \$1.00; dozen \$2.00; per 100 \$12.50. An order may include one or more varieties. Delivered by express or parcels post paid at these prices

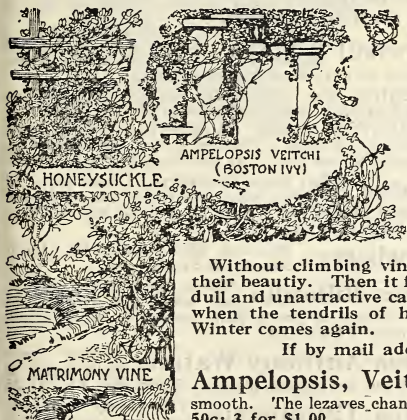

Platycodon

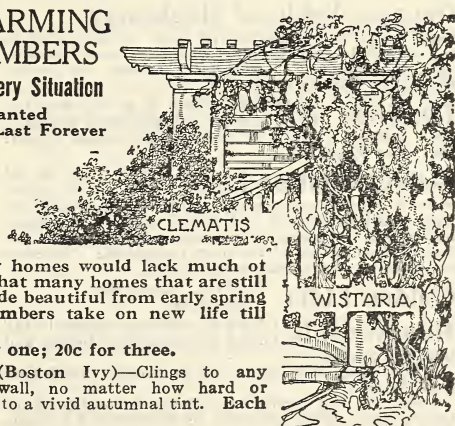

Statice A most valuable plant for border or rockery. Has great heads, frequently 2 feet across of purplish blue small flowers. July-Aug. If flowers are cut and dried, will last for months.

Stokesia (Corn Flower)—A handsome plant bearing from early in June until September. Produces handsome lavender flowers in abundance all summer. Two feet.

Tritoma (Red Hot Poker)—A beautiful late-flowering plant, having handsome reed-like foliage. Flowers are of a rich orange-scarlet color three feet high. Blooms Sept.-Nov. 25c; 5 for \$1.00; doz. \$2.25.

CHARMING CLIMBERS
For Every Situation
Once Planted
Last Forever

Without climbing vines many homes would lack much of their beauty. Then it follows that many homes that are still dull and unattractive can be made beautiful from early spring when the tendrils of hardy climbers take on new life till Winter comes again.

If by mail add 10c for one; 20c for three.

Ampelopsis, Veitchii (Boston Ivy)—Clings to any wall, no matter how hard or smooth. The leaves change in fall to a vivid autumnal tint. Each 50c; 3 for \$1.00.

Clematis, Paniculata (White Flower)—2 years. Each 50c; 3 for \$1.25.

Clematis, Jackmanii (Blue Flower)—2 years. Each 75c; 3 for \$2.00.

Honeysuckle, Halls Japan Pure white and creamy yellow. Very fragrant. Each 50c; 3 for \$1.00.

Maderia Vine A rapid growing vine that makes a dense foliage. Bears sweet white flowers. Grows well everywhere, but is partial to a sunny location. Each 10c; dozen 75c.

Protect tubers in winter, or take them up and keep over in cellar

Kudzy Vine One of the best hardy-climbers, will run 30 to 40 feet in one season. Profuse rosy-purple, flowers in small racemes in August. Makes dense shade. Each 35c; 3 for \$1.00.

Matrimony Vine Flowers from June to September. Pink to purple; very fine for trellises and fences. Each 35c; 4 for \$1.00

Chinese Wistaria Purple flowers are borne in large drooping clusters. Grows to great length and dense foliage. Each 60c; 3 for \$1.50.

Manetia Vine Completely filled at all times with small, tuber, brilliant scarlet flowers, shading into yellow at tips. One of the most enjoyable plants as it may be grown on low trellises or in pots, with supports or in baskets. Each 25c; 3 for 65c; dozen, \$2.00.

THE BEST COLLECTION OF HARDY FLOWERING SHRUBS

The Best Collection
of
Hardy Flowering
Shrubs

A few dollars invested in shrubs now will soon make your home a beauty spot and a greater joy to live in, and if you should later desire to sell it you will find it worth several hundred dollars more. So plant hardy flowering and ornamental shrubs without further delay. Add for postage and packing 10c for one. 20c for three. 35c a dozen.

Atea (Rose of Sharon) 2 to 3 ft. Blooms Aug. and Sept. In separate colors, White, Red, Pink, and Purple. Each 50c. 3 for \$1.25.

Weigelia Eva Rataka (Blooms continuously throughout the summer and autumn. Each 75c;

Weigelia Tall Growing Pink blossom. Each 50c; 3 for \$1.25.

ROSES

ROSES

While our list of roses is not large it is made up of those kinds that are the most certain to succeed, will give the most satisfaction and will be the most highly prized by the average grower. You can make your selection from the following list and be assured that you will get only the truly meritorious varieties. We send out 2 year field grown bushes guaranteed to arrive in good condition and that will go right to growing, and soon give you an abundance of blooms. When planting be sure to firm the ground around the roots.

Orders for 3 or more need not be all of one variety but may be of different varieties and the price for 3 will apply.

We deliver at the prices quoted.

Hardy Everblooming Tea Roses

Columbia—New, large, clear pink. Very full and beautiful. The American Rose Society awarded the Gold Medal to this variety as the best new rose in 5 years. Each 55c; 3 for \$1.45.

Helen Gould—Rosy crimson. Long beautiful buds, and full double flowers. Each, 50c; 3 for \$1.25.

Killarney or the Irish Beauty—Brilliant pink. Large pointed buds. Flowers very large of exceeding beauty. Incensant bloomers. Each, 50c; 3 for \$1.25.

Killarney White—Same as the pink except color 50c; 3 for \$1.25.

Los Angeles—New color is flame pink toned with coral and tinted gold at base of petals. The color is new amongst roses. Plant is a vigorous grower. Should not be omitted. Price—Each, 80c; 3 for \$2.00.

La France—Exceedingly sweet and handsome, flowers and buds large size, color a lovely shade of silvery pink, tinged with crimson. One of the sweetest scented roses and a wonderful bloomer. Each 50c; 3 for \$1.25.

Mrs. Aaron Ward—Yellow, shading to lemon-cream at edge of petals with golden heart. Very large. Each 55c; 3 for \$1.45.

Ophelia—Brilliant salmon, shaded with rose on outer edge of petals, with a heart of glowing, peach-pink and orange-yellow blendings. Beautiful in bud and flower. Each 55, 3 for \$1.45.

Premier—A pure shade of rose-pink very free bloomer. 50c; 3 for \$1.25.

Sunburst—Intense shades of golden orange and golden yellow, giving a very brilliant effect. A very large rose, long pointed buds. Each, 50c; 3 for \$1.25.

The Best Hardy Hybrid Perpetuals

American Beauty—Dark, rosy carmine, very large, beautiful bud and bloom, 50c; 3 for \$1.25.

Black Prince—Intensely dark crimson, approaching black. Cup shaped flowers, large and full. Each 60c; 3 for \$1.50.

Frau Karl Druschi—Magnificent snow white blooms, splendid long buds. A prize winner. Each 55c; 3 for \$1.40.

Gen. Jacqueminot—A celebrated variety. Handsome flowers of shining crimson. Velvety and fragrant, large shapely buds. Each 60c; 3 for \$1.50.

Paul Neyron—The largest rose bloom of all. Bright, shining pink, very full and double. Blooms all summer. Grows to great height—and becomes a veritable rose tree. Each 60c; 3 for \$1.50.

The Best Hardy Climbers and Ramblers

Climbing American Beauty—The popular American Beauty Rose in climbing form. Has all the characteristics of its relative including form and fragrance. Often attains a height of 10 to 15 feet in a single season. Each 50c; 3 for \$1.25.

Crimson Rambler—Will attain a height of 10 to 20 feet in a season; produces a marvelous profusion of rich and glowing crimson flowers and clusters during June and July. Each 50c; 3 for \$1.25.

Dr. Van Fleet—Dainty, soft, flesh-pink. Flowers full and double buds pointed and open to a great diameter. A new variety and one of the best. Each 60c; 3 for \$1.50.

Flower of Fairfield (Everblooming Crimson Rambler)—Flowers are beautiful bright scarlet. A great favorite. 40c; 3 for \$1.00.

Gardenia—A beautiful yellow climbing rose. Every grower ought to have this one sure. 55c; 3 for \$1.40.

Pink Dorothy Perkins—A beautiful deep pink. The flowers are borne in large clusters of small, double bloom and are very sweet scented. Each 40c; 3 for \$1.00.

Seven Sisters—Takes its name from the fact that there are usually seven roses in each cluster. Color pink and red. Please all growers, 45c; 3 for \$1.20.

Thousand Beauties—Large clusters of flowers—ten to fifteen in a bunch. Some are white, some red and some yellow. A cluster is a bouquet in itself. 40c; 3 for \$1.00.

White Dorothy Perkins—Same type as its sister, the pink. Is a strong growing white climber. Planted with Gardenia, Thousand Beauties and Crimson Rambler makes a great showing and is of decided value. Each 50c; 3 for \$1.25.

TAKE NOTICE The Rose Bushes priced above are 2 year field grown. They must not be compared with Green-house bushes catalogued by some other. If you want the latter, and they are good and will give satisfaction, remit only 2/3 the price and say what you want.

FRUIT TREES, GRAPE VINES AND BERRY PLANTS

If Fruit Trees are to be sent by parcel post add 15 cents each for postage and packing.

APPLE TREES Size 4 to 6 feet.

Wilder—Red an unsurpassed variety for all purposes
White Grape—White, Large, excellent quality
 We can sell Currants only in Indiana. Price—Each 35c; 3 for \$1.00; 12 for \$3.00

Particular Notice On account of State Quarantines we will ship nursery stock only to these states; Illinois, Indiana, Iowa, Kansas, Kentucky, Maryland, Massachusetts, Michigan, Minnesota, Missouri Nebraska, Ohio, Pennsylvania, and Wisconsin.

You Can Own a Grape Arbor Like This

There is scarcely a country or city yard or garden so small that space cannot be found to plant from 1 to 12 or more grapes vines. When once planted they will last a lifetime with very little care and bear freely of the healthiest, most delicious, most profitable and most satisfactory fruit.

Concord—Black large; very yielding. Most popular of all grapes.
Catawba—Red, late; a great wine grape.
Moore's Early—Black. early. Like the Concord, as large and good but earlier.
Niagara—White. The standard white grape. As large as Concord.

Delaware—Red, exquisite little grapes, highest quality. Best for white wine.
Ives—Black, Best for red wine.
Worden—Resembles Concord, but larger. Ripens earlier.

PRICE—2 year old vine, each 30c; 4 for \$1.00; 12 for \$2.50. Delivered.

SUMMER FLOWERING BULBS

Cannas

A bed of Cannas is a veritable bit of tropic foliage and bloom transferred to the temperate zone. Stalks stiff. Foliage beautiful, with flaming flowers. They bloom early and increasingly until frost, each week adding to their beauty. The following list comprises the cream of the varieties. If you are at all acquainted with varieties you will agree with us when you look at the names. See colored illustration on last cover page.

Alphonse Bouvier 4½ ft. Flowers clear
Green leaves. crimson in large clusters

Buttercup 3 ft. Flowers pure buttercup yellow.
Green leaves. The best dwarf yellow.

Charles Henderson 4 ft. Flowers brilliant
yellow throat. Green leaves. crimson - scarlet with

Eureka 4 ft. A white canna, and is the best
white for general purposes. The large
flowers are freely produced. Plant strong. Green leaves

Fiery Cross 4ft. Flowers vivid scarlet shading
green. A grand canna. to crimson. Foliage is lustrous blue

Golden Gate 4 ft. Flowers open almost pure
gold color and change to orange
crimson with apricot throat center. Very beautiful.
Green leaves.

Indiana 6 ft. Rich golden orange flowers some
times 7 inches across. An orchid flower-
ed variety. Green leaves.

King Humbert 4 ft. The plants are crown-
ed with an immense flower
head, velvety orange-scarlet, rose tinted and margined
at the base. The bronze leaves are large, heart shaped.
A combination of leaves and flowers, very beautiful.

Mrs. Alfred Conrad 4 ft. Salmon pink,
green leaves. Magnifi-
cent head of perfectly formed flowers of great size. A
grand canna. Satisfaction guaranteed.

Madam Crozy 3½ ft. Brilliant vermilion
flowers, with narrow edge of
bright golden yellow. Green leaves.

Pennsylvania 6 ft. Large orchid-flowered
scarlet overlaid with orange.
Green foliage.

Shenandoah 4 ft. Flowers salmon-pink,
borne in large clusters. Leaves
rich ruby red.

The President 4 ft. Flowers rich, glowing
scarlet. The great flower heads
are produced well above the heavy green foliage. This
canna is probably the every best red variety.

Venus 4 ft. A gay rosy pink with a border of
creamy yellow. Green leaves.

Wyoming 5 ft. Magnificent orange-colored flower-
ers. A true orchid-flowered variety.
Leaves purple.

Yellow King Humbert 4 ft. Golden-
yellow flowers,
blotched red. A grand canna. Green leaves.

NOTE—We challenge the country to present a list of Cannas and Gladioli of equal merit at as low prices. Search as you please you cannot find it.

Price of all Cannas: One, 12c; Doz. \$1.25; 25 for \$2.25; 50 for \$4.00; 100 for \$7.00; delivered.

Mixed Cannas Good varieties in mixture. This mixture consists of bulbs grown by various people and we cannot tell the customer anything of their merits. They are sold at lower prices, but this cannot make up for the loss of attractiveness where grown in future years. For real satisfaction buy our named varieties. Each 10c; doz. .75; 25 \$1.25; Per 100 \$4.00.

Glorious Gladiolus

See Illustrations on back cover page.

CHOICE NAMED GLADIOLI

The prices below include delivery charges.

ALICE TIPLADY—New. A grand Primulinus variety with beautiful orange-saffron flowers. Each 15c; Doz. \$1.50; 25 \$2.50.

AMERICA—Beautiful, soft flesh pink. Magnificent in size. One of the best. Each 5c; dozen 50c; 25 for 75c; 100 for \$2.75.

AUGUSTA—Blush white with lavender anthers. The strong plants often have two flower spikes. Each 8c; dozen 85c; 25 for \$1.50; 100 for \$5.00.

HALEY—Delicate salmon pink, very early and very large. Each 6c; dozen 65c; 25 for \$1.25; 100 for \$4.50.

MRS. FRANCIS KING—By some considered the best of all. Flowers often 5 inches across. Each 7c; dozen 75c; 25 for \$1.25c; 100 for \$4.50.

MRS. FRANK PENDLETON—Flushed salmon-pink, with maroon blotch on lower petals. Probably the most popular with florists, which should recommend it also to others. Each 7c; dozen 75c; 25 for \$1.25; 100 for \$4.50.

NIAGARA—A beautiful cream shade blending to canary yellow, splashed with carmine. Each 8c; dozen 85c; 25 for \$1.50; 100 \$5.00.

NORA—Grayish lavender, throat lighter, edges of petals deeper lavender, purple striped lower petal. Each 8c; dozen 85c; 25 for \$1.50; 100 \$5.00.

PRINCE OF WALES—Large flowers of most charming coral-pink. It is a sport of Haley but of stronger growth. Each 10c; dozen \$1.00; 25 for \$1.75; 100 \$6.50.

PRIMULINUS HYBRIDS—These all come yellow flowers, but they will not all be alike. Very striking in form and color. Very novel. Each 6c; dozen 65c; 25 for \$1.00; 100 \$3.75.

PURPLE KING—A new variety. One of the richest in colors and largest spikes. Purple flower lighter in throat. Each 10c; dozen \$1.00; 25 for \$1.75. 100 for \$6.50.

EVERITT'S CHOICE MIXTURE—To the person who does not care to keep track of the names, but grows gladioli for the beauty of the flowers, we recommend our choice mixture, at reduced prices. There is a great variety of colors, also there are early, medium and late. So you will be treated to new surprises over a long period. Plant at intervals, for a succession, up to July 1. Dozen 50c; 25 for 85c; 100 for \$3.00 delivered. Not delivered \$2.50 per 100.

Any person who does not plant liberally of Gladioli misses many a Summer treat from a few dimes invested. I think the Gladioli is the peer of all Summer flowers and there is absolutely no danger of failure. Plant liberally, even by the hundred or one-half thousand and plant at intervals from early Spring till June 15th for a constant succession of blooms. Being of the simplest possible culture, and the bulbs inexpensive, the Gladiolus deserves a place in every garden, small and large.

Dahlias

Well-known Summer and Autumn flowering plants, growing from 2 to 7 feet high and bearing flowers freely of the most beautiful and interesting types. The desirable classes are Cactus, Show and Decorative. Following are some of the best varieties of these classes:

The Most
Wonderful
Flower
Creations

Get the Newest and Best
From Us at Little Cost

CACTUS VARIETIES

- Perle de Lyon—Pure white. Robust grower.
Marjorie Castleton—Soft pink. Very free bloomer.
Libelle—Dark purple. Fine bush.

SHOW VARIETIES

- A. D. Livonia—Shell rose pink.
Cuban Giant—Immense dark red.
Lemon Beauty—Lemon yellow.
Red Hussar—Scarlet flower.
White Swan—Snow white. Very free bloomer.

DECORATIVE VARIETIES

- Jack Rose—Red, One of the very best reds.
Manitou—Amber bronze shading to pink.
Manzanita—Lavender pink. Very free bloomer.

- Minnie McCullough—Golden yellow, tipped with bronze red.
Sylvia—Deep pink to flesh pink.

PRICE OF ALL DAHLIAS—Each, 25c. ½ doz. \$1.25; doz. \$2.25; orders of one doz. or more may be made up of more than one kind at the rate. One each of the 13 varieties for \$2.25. Delivered.

IRIS

These have appropriately been called the "Orchids of the Hardy Flower Garden." They are of the simplest culture, succeeding in almost any soil or position. The bulbs should be planted 4 to 6 inches apart in the autumn when they will bloom in the spring. We offer Iris so cheaply that this is the time to plant a large bed or long border.

JAPANESE IRIS

This is a distinct group. The stalks grow two to three feet high with flowers of great size. Some measure 8 to 10 inches across. Commence to bloom in June and continue five or six weeks. The plants succeed best in cool, moist soil.

Gold Bond—Double white, with gold banded center. Each, 35c; 3 for 1.00; dozen, \$2.75.

Ko-No-Iro—Six large royal purple petals with a yellow center. Most brilliant, 35c; 3 for \$1.00; dozen, \$2.75.

Kumo-No-Ubo—(Band of Cloud)—Clear purple, with rays and a halo of white surrounding the golden throat. Each, 35c; 3 for \$1.00; dozen, \$2.75.

Nomiji-No-Laki—Double. Bright crimson purple feathered in white. Each, 35c; 3 for \$1.00; dozen, \$2.75.

Mahogany—Large double flowers. Purple, mahogany red. Very late to bloom. Each, 50c; 3 for \$1.25; dozen, \$3.50.

Ondine—Pure white. Each, 35c; 3 for \$1.00; doz., \$2.75.

Purple and Gold—Enormous double flowers. Some are 10 inches across. Early and free bloomer. Rich purple and violet with golden throat. Each, 35c; 3 for \$1.00; dozen, \$2.75.

Queen of Blues—Pale blue, veined white. Handsome. Each 35c; 3 for \$1.00; dozen, \$2.75.

GERMAN IRIS

Celeste—Pale azure blue. Blooms early and branches well.
Haydn—Beautiful soft rose pink. The balls are same with darker penciling. Tall growing.

Mrs. Neubrowner—Clear golden yellow. The best Yellow Iris.

Red Cloud—Rosy lavender bronze, falls velvety maroon with yellow shadings.

Spectabilis—Deep, rich, violet, medium height and branched, very early, free bloomers.

IRIS

Orientalis Blue King—Deep purplish blue. Popular for cut-flowers.

Orientalis Snow Queen—Pure white. Blooms late.

Price of all German Iris—Each 15c; doz. \$1.25; 25 \$2.00; per 100 @ \$7.50 Delivered. When one dozen or more are taken it may be of more than one kind.

Give Your Lawn a Tropical Appearance

A Round Bed of Castor Beans, Cannas and Caladiums

The scheme of this bed is to plant a center of tall Castor Beans, like the Zanzibariensis. Three or four plants will be plenty. Then a circle of Cannas, and outside a circle of Caladiums. The bed may be just as large as you want it or as the space will permit. If the bed is more than 6 feet in diameter, and the larger the more showy it will be, we suggest using two heights of castor beans and two heights of cannas in two circles and a circle of geraniums or coleus can be put outside of the caladiums.

Double Pearl Tuberose

Nearly everyone knows and prizes this beautiful, fragrant flower, that is so easily raised from the bulb, planted in the Spring. By planting some of these bulbs in the house and setting them out about May 1st, and then setting bulbs in open ground at intervals from May 1st to June 25th, a succession of the prized blooms can be had all Summer. Price—Each 10c; dozen 75c, Postpaid; 100 for \$4.50; 50 at the 100 rate.

Caladium (Elephant's Ear)

This is one of the most effective plants for the lawn or flower garden and may be used singly or in groups rows or beds. To obtain the best results they should be planted on rich ground and where they will have an abundance of water. Under such conditions they will grow 5 to 6 feet high and bear immense leaves 3 to 4 feet long by one-half the width. They must be removed to the cellar in the Fall and replanted the next Spring. Each year they will get larger.

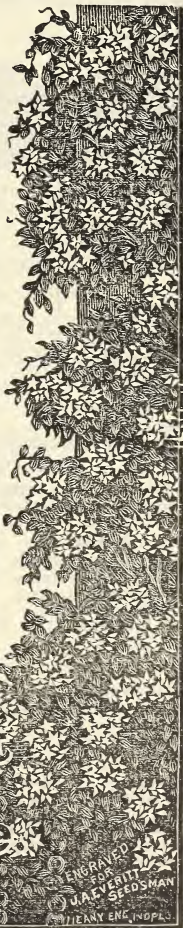

Price—Medium sized bulbs, postpaid; Each 20c; 3 for 50c; dozen, \$1.75. Large size: Each 25c; 3 for 60c; dozen, \$2.00. Extra large: Each 35c; 3 for \$1.00; dozen \$3.00.

The Fragrant Cinnamon Vine

25 to 40 Feet of Vine in Season

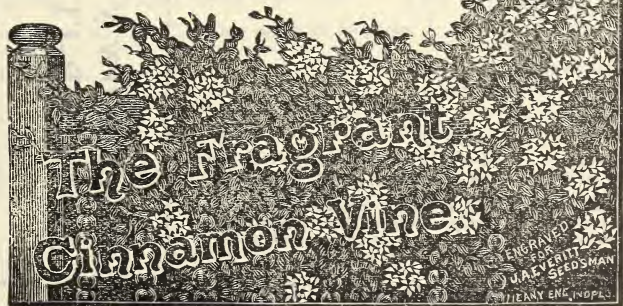

The Cinnamon Vine is one of the most popular vines in cultivation. No other vine more completely fills the want of a rapidly growing, beautiful, fragrant vine than the Cinnamon. It succeeds well anywhere.

This climber has dark green foliage, and late in the season bears a profusion of small white flowers of a delicious cinnamon fragrance. Although the vines die down to the ground, each autumn, they grow up very rapidly in early spring, soon covering any trellis or arbor. Where you wish covering to a porch or to hide unsightly places we suggest planting the Cinnamon Vine. Plant any time in spring. Strong Tubers, each 10c; 6 for 50c; 15 for \$1.00. Large Tubers, 15c each; 4 for 50c; 10 for \$1.00. Mammoth size tubers 20c each. postpaid.

I have found the Wayhead lettuce to be a fine early lettuce, splendid flavor, and fine quality and a very quick grower. The China Cucumber was fine for the table and market. I raised some 20 inches long.

The Knight or Maryland Muskmelon was a good bearer and of very sweet flavor. I was very much pleased with the O. K. Seeds.—MARION RICHMAND, Meadow Creek, W. Va.,—17.

Baby Chicks

Tens of Thousands of Them by
PARCELS POST

Delivered to You 100 Per Cent Alive
Delivery Guaranteed Within 500
Miles of Indianapolis

LITTLE DEMONS THAT DESTROY OUR CROPS

A high authority estimates that \$300,000,-000 worth of crops are destroyed in the United States each year by bugs, worms and fungi.

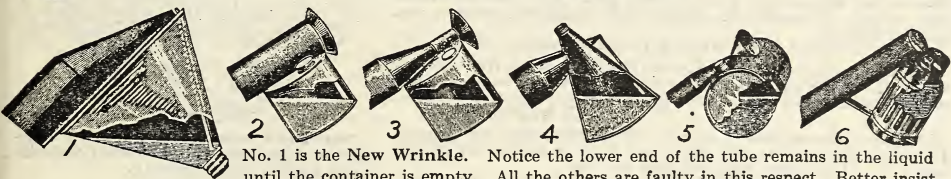

none other that will spray upward until empty, as well as downward. See the row of illustrations. All the hard work of spraying is removed, as the machine weighs only a pound and about a pound more when filled ready for use. Any liquid poison can be used in the New Wrinkle Sprayer. The operation is so exceedingly simple as to recommend itself to every person.

Simply put the powder in little packages of $\frac{1}{2}$ teaspoonfull each and dump one in the can, fill with water and shake and you are ready. No extra vessels are required. There is no danger if the machine is left lying around. Plants are never burned or damaged if sprayed with this machine. The spray is so fine and it covers so evenly that no damage can result.

THE NEW WRINKLE SPRAYER

Agents wanted to sell this, the best low-priced Sprayer

This is the best of the small machines for spraying all liquid poisons and fungicides to destroy or chase Potato Bugs; Cabbage, Currant, Tomato, Tobacco and Cotton Worms, Plum Curculios, Aphids, Codling Moth and Canker Worms; Raspberry, Strawberry, Pear and Rose Slug; Striped Flea Beetle; Cucumber and Melon Beetle; Cattle, Horse, Hog and Hen Lice; Clothes Moth and Dog Fleas. There are similar machines on the market, but

No. 1 is the New Wrinkle. Notice the lower end of the tube remains in the liquid until the container is empty. All the others are faulty in this respect. Better insist

on having the New Wrinkle.

AGENTS WANTED

PRICE 75 cents - Per dozen \$4.50

For 25c each extra, \$1.40 a doz., we will deliver by parcel post to and including the 5th zone.

THE DR. ROBERTSON COMPRESSED AIR SPRAYERS

PRICE
\$1.00

This is different and superior in some respects to all other compressed air sprayers. It sprays faster and is more economical of spraying material than some others made. Also it has a range of work not approached by others. The superiority of the Dr. Robertson sprayer is also assured for the future because the vital parts, that give it its superiority, are covered by patents. Others have tried to imitate it but without success, and those who

may have been lured, perhaps by lower prices, soon came back to this always satisfactory type.

CONSTRUCTION—A pump, a galvanized iron tank for the liquid and also has an air chamber, two nozzels, for spraying straight ahead, or at right angles. The air chamber makes it a continuous spray. This is the best sprayer if you ever want to spray the underside of the leaves.

PRICE---One \$1.00. Half doz. \$5.00. Per doz. \$9.00

Delivery terms same as for "The New Wrinkle" Sprayer.

The sprayer did the business to perfection. When I received the machine the potatoes were large and in full bloom. Once going over killed every bug and I have not sprayed them since. J. W. BAKER, Tiskilwa, Ill.

I sprayed my potatoes with the New Wrinkle Bug Exterminator at 9 o'clock and by 3 o'clock in the afternoon there was not a living bug in the patch.

FRANK DOHERTY, Jr, So. Boardman, Mich.

I sold 30 of your New Wrinkle Bug Exterminators last season and the people like them fine. I expect to sell more this season. D. C. THOMPSON, Peak's Mills, Ky.

I sold 150 of your Bug Exterminators this season. I sold them under a guarantee and have not had one complaint. I think I can sell 1,000 of them next season. If you need any testimonials I can send you a hundred from my customers. I. T. ALLEN, Bluffton, Ind.

New Wrinkle Bug Exterminator gave good satisfaction last year and are the best thing of the kind in the market. I will need more this year.

H. C. SHEPHERD, Worthington, Minn.

The sample Bug Exterminator received and sold. I herewith order some and want exclusive agency here.

THOMAS FIREBAUGH, Ogden, ILL

O. K. Seeds are National Seeds, Because They are Planted All Over The Country.

If You Have Ever Been Disappointed in Your Garden Seeds in the Past, Plant the O. K. SEEDS This Year and You Will Have no Cause for Dissatisfaction.

I wish to say that we have been well pleased with the O. K. Seeds. The yard long bean was a great curiosity to the people and besides they were delicious when cooked. The Cannas and Gladiolis bore beautiful flowers, but the most beautiful flowers of all was the Butterfly bush, which every one that passed admired. One of them grew to be about three feet high and four feet across and was covered with flowers from top to bottom. We think a great deal of these bushes and would not have them destroyed for anything. The quality of every article was good and up to standard.

MISS MARGUERITE FUNKE Canute, Okla.—50

Amongst the seeds from your house was a number of flower seeds, and they were all that you claimed, especially the Vicks Early Branching Asters. They were the most beautiful mixture of colors I ever saw and were much admired by my friends. On some of the stocks I counted as many as ten blossoms and the shadings of the different plants were from the deepest shade of color to almost white making when combined together a most beautiful bouquet.

MRS. WILLIAM E. CHESLEY—East Barrington, N. H.—54

I want to say that all of the O. K. Seeds that I have bought from you have been O. K. The Wayahed lettuce is ahead of anything I have tried. The corn and potatoes were fine. I send my best wishes for the coming season.

A. W. HUNT, Mayline, Ala.—51

Last year I planted some of your cucumbers, corn, beans, and potatoes. All of them did just fine, and they proved to be as good as you claimed them to be. Please send your catalogue for 1925.

C. T. HARTCHER, Route 5, Waverly, Tenn.—55

Notice how centrally Indianapolis is situated with reference to the Great Agricultural Region of our country.

3 Best Things

**GOOD SEEDS
LARGE CROPS
BIG PROFITS**

And O. K. SEEDS are
the Source of All These.

I can never praise Everitt's seeds too much as I have used only your seeds for the last few years, and have had good success. I recommend them to my friends as I think there are none better. I am looking for your new book. ORA SILER, Toone, Tenn., R 2—48

Last season I grew the Banana Muskmelon, the Knight or Maryland Muskmelon and the Colossal Tomato, they were all as fine as I ever saw grow. I do not think that the O. K. seeds can be beat. Please send catalogue so I can order seeds from you again this spring.

MRS. IDA HARE Spurger, Texas—49

The early Wonder Beets were just fine. They were from three to five inches in diameter and very tender and sweet. Harris Earliest Peppers and Banana Muskmelons were as fine as I ever saw. The Pickling and China Cucumber were dandies. I am going to grow the China again this year. In fact, everything was O. K. J. D. ROBBINS, Banner, Va.52.

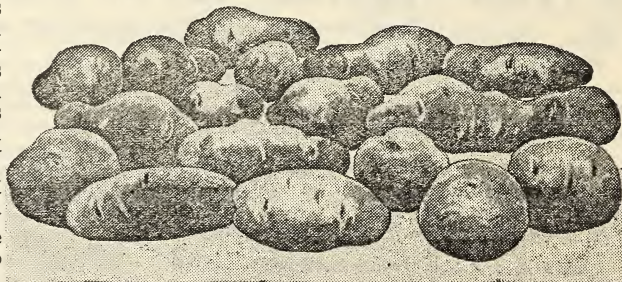

All of the O. K. Seeds I had from you were first class, and very fine especially the Mortgage Lifter corn and the white corn. Everything was as you claimed it to be. The Danish Ballhead Cabbage was extra fine.

MILO C. GROSCOST—R.F.D. 1 BEAVER, PA.—53

HYBRIDIZED POTATO SEED

New varieties of potatoes are originated by planting the seeds

from the seed ball that grows on the tops. Hybridized seed has far the best chance to produce valuable varieties. This seed contains the blood from two or more of our best kinds mingled. A pkt. of this seed will give you potatoes of every shape like in the illustration and various colors, among them may be a valuable kind that may make you a fortune. At any rate nothing is more interesting to grow. Full directions on pkt. PRICE. Pkt. 10c; 3 for 25c.

Everitt's Farm SEED'S

It is not possible to quote prices on farm seeds that will be good during the season therefore, when you are ready to buy tell us what you want, and get our offers. The prices quoted below were current when the copy for this catalogue was prepared. The O. K. Brands are the highest type.

We ask our customers to inoculate their seeds of legumes, which will mean bigger crops and better satisfaction. Bags cost extra—50c for cotton Prices per lb and 4 lbs include delivery.

CLOVERS

We want the orders of large buyers of CLOVER SEED. Let us know your wants, get our prices and we will try to save you money. The Clovers have justly been called the "Corner Stone of Agriculture" in the Northern, Eastern and Central States.

SOY BEANS

The cultivation of this crop is increasingly rapid. Wherever it has been introduced, it is proving to be one of the most valuable grain and forage for stock. Also, a crop of Soy Beans equals a crop of clover for enriching the soil. Soy Beans as a feed take the place of oil or gluten. Fed to milch cows and for fattening hogs, they give wonderful results

BROOK.....	20c	65c	1.00	3.00
MANCHU.....	20c	65	1.00	3.00
ITO SAN.....	20c	65c	1.00	3.00

The seed of Soy Beans and Cow Peas should be inoculated no matter how good the ground. Fresh inoculation is almost certain to increase growth.

COW PEAS

THE GREAT SOIL IMPROVER. Cow Peas, like Clover, Vetch, Soy Beans, etc., have the property of taking nitrogen from the air and storing it in the soil. Whether the whole vine and root are used for fertilizer, or the vine is used for feed, any land that produced a crop of Cow Peas has improved in its contents of fertility.

A brand with a great many friends. It is manufactured by a farmer in Ohio, who has brought a worn out farm to a high state of fertility through legumes and his robust bacteria inoculant. garden size 15c; 1/2 bu. size, 60c; 1 bu, size \$1.00; 5 bu, size, \$4.00. Delivered.

The harvest of corn depends more upon the seed you plant than on all other things combined. Prepare now for the best crop that you can possibly raise by getting your seed from the Nation's breeding center. CENTRAL INDIANA SEED CORN is the best grown in the country and suited to growers over a wide territory.

WE ARE HEADQUARTERS FOR THE BEST SEED CORN

FARMERS INTEREST WHITE DENT

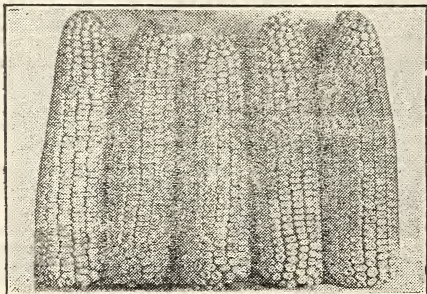

Has been awarded more Gold and Silver Medals and Cash Prizes than any other Corn that ever existed. 26 years of continuous breeding.

This world-famous Farmer's Interest White Dent corn originated in Cental Indiana and was named and introduced by us 26 years ago. This variety, more than all others, made this section famous as a corn growing and corn breeding district and for "Corn Kings." A strain of it is also known as Johnson County White Dent.

It is adapted to the latitude of Indianapolis, about 50 miles North, in an average season, and all South.

We want to emphasize that this is the variety par excellence, for raising in the Southern States like Virginia, Tennessee, Missouri and all South. But get your seed from Indiana each 3 or 4 years to retain its great vigor.

PRICE—By mail postpaid; Select ear 30c; 1 lb. 30c; 4 lbs. \$1.00. By freight or express, 1/4 bu. \$1.00. 1/2 bu. \$2.00; 1 bu. \$3.75; 5 bu. or more @ \$3.50. Bags included. Select ears not tipped or butted at same price whenever we can furnish them.

MORTGAGE LIFTER CORN MAKES MONEY GROW

Mortgage Lifter Corn is the corn that will make such big yields that you can pay off the mortgage if there is one. It is a strong grower and on rich soil makes yields 80 to over 100 bu. to the acre. Mortgage Lifter is taking a place among yellow corn that the Farmers Interest occupies among whites—the most productive hence the most profitable variety to grow.

We want to sell enough of this corn to each corn grower who receives this catalogue to plant at least one field, where our claims will be proved and favorable comparisons made with the varieties you are now growing.

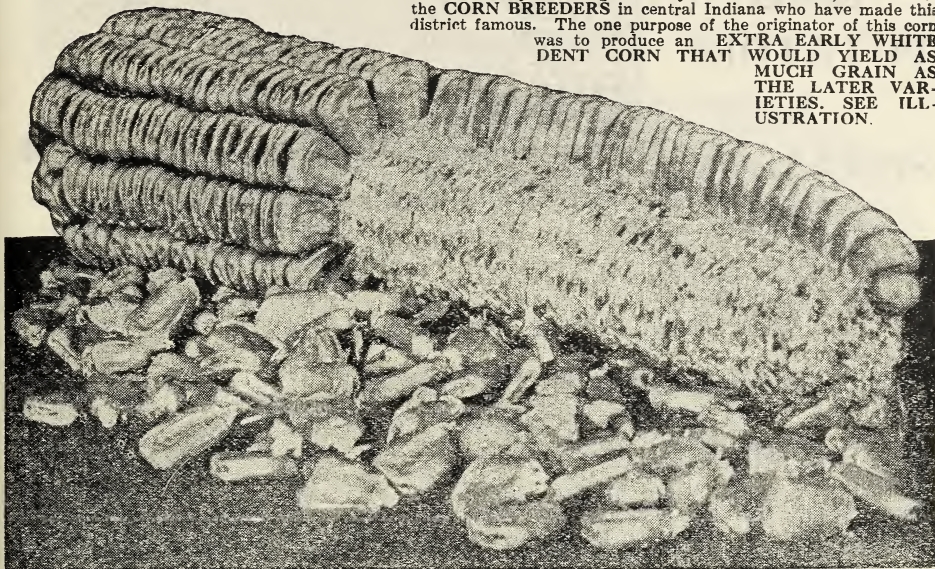

PRICE—By parcel post, sample ear, 30c; 1 lb., 30c; 4 lbs., \$1.00. By freight or express, 1/4 bu. \$1.00; 1/2 bu., \$2.00; 1 bu. \$3.75; 5 bu., or more @ \$3.50.

Ten-to-one (10-2-1) White Dent

THE NAME MEANS 10 LBS. OF CORN TO 1 LB. OF COB

This variety was originated by a careful farmer, and one of the CORN BREEDERS in central Indiana who have made this district famous. The one purpose of the originator of this corn

was to produce an EXTRA EARLY WHITE DENT CORN THAT WOULD YIELD AS MUCH GRAIN AS THE LATER VARIETIES. SEE ILLUSTRATION.

There is a place on nearly every farm for this valuable corn. Some farmers now plant no other kind. While it is early maturing, it is not exactly a small-eared variety. Ears frequently grow 10 inches long and weigh 12 to 14 ounces. The illustration above, from a photograph, but reduced in size, shows very well the appearance of an ear, the shelled corn and the cob.

PRICE—By mail postpaid; Sample ear. 30c; 1 lb. 30c; 4 lbs. \$1.00. By freight or express ¼ bu. \$1.00 ½ bu. \$1.75; 1 bu. \$3.25; 5 bu. or more @ \$3.00. Bags and package free.

Improved Reid's Yellow Dent

This fine yellow corn has been winning nearly all the high awards for yellow corn at shows and expositions for years, and such awards quite uniformly have been to breeders and farmers of this—Central—part of Indiana. Our Reid's Dent occupies as high a place among yellow corns as our Farmers Interest does among white varieties.

PRICE—By mail postpaid; Select ear 30c; 1 lb. 30c; 4 lbs. \$1.00. By freight or express; ¼ bu \$1.00; ½ bu. \$1.75; 1 bu. \$3.25. 5 bu. or more @ \$3.00

Boone County White

This valuable white corn is a strong grower, and a drought resister. It grows large ears with deep grains, on a medium to large white cob. On good ground, which this variety delights in, the ears grow 7 to 11 inches long and 7 to 8 inches in circumference holding their size well to the tip.

PRICE—By Mail postpaid; Select ear 30c; 1 lb. 30c; 4 lbs. \$1.00. By freight or express; ¼ bu. \$1.00 ½ bu. \$1.75; 1 bu. \$3.25; 5 bu. or more @ \$3.00.

Improved Leaming

EARLY YELLOW DENT. Produces very well on thin soils where it would not pay to plant other kinds. The stalk is medium size and grain always sound. In season it is a 100 day corn and is largely planted in Southern Michigan and Wisconsin and Southern Canada. It is highly recommended for late planting farther South. Also extensively grown for fodder and ensilage, particularly in the North. This variety can be planted earlier than others as the grains will endure more cold and wet weather.

PRICE—By mail postpaid; 1 lb. 30c; 4 lbs. \$1.00 By freight or express: ¼ bu \$1.00; ½ bu. \$1.25 1 bu. \$3.25; 5 bu. @ \$3.00.

Pride of the North

EXTRA EARLY YELLOW DENT. This is frequently called "90 Day" Corn because of its rapid growth and early maturity. It is a variety that is suited right up to the Northern border of the corn belt and to very late planting in Southern latitudes.

PRICE—By mail postpaid: 1 lb 30c; 4 lbs. \$1.00 By freight or express: ¼ bu. \$1.00; ½ bu. \$1.75; 1 bu. \$3.25; 5 bu. @ \$3.00.

St. Charles White

THE FAMOUS RED COB ENSILAGE CORN This is a double standard or double purpose corn. While it is probably planted more extensively for ensilage than any other corn, its value as a grain-cropping corn should be kept in mind.

PRICE—By mail postpaid: 1 lb. 30c; 4 lbs. \$1.00. By freight or express: ¼ bu. 75c; ½ bu. \$1.25; 1 bu. \$2.25; 5 bu. @ \$2.00 Bag Included in Prices of Seed Corn.

I have used Everitt's O. K seeds for the past five years and don't find any other seed as good. I want to praise Bella Colossal tomatoes. From one packet of this seed and one packet of the Greater Baltimore and your yellow tomatoe, I sold tomatoes by the bushels. I planted one own e of Everbearing Cucumber and sold bushels of those. I always recommend Everitt's O. K. Seeds to my neighbors and friends.

Jan 10—25

J. W. COMER, Noland N. C.—16

Last year I obtained from you and raised Farmers interest corn. I challenged the country to compete with it My son got first prize on it in his clubwork. I am not ashamed to sign my name to this report.

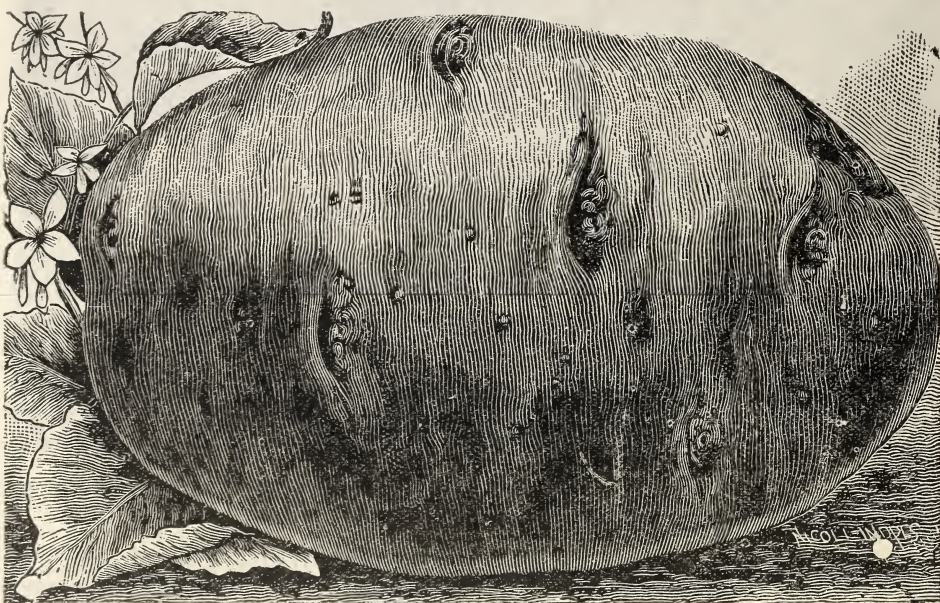

Jan 3, —25 E. C. OWENS, R.F.D. 1, Hebron, W. Va.,—3

CERTIFIED SEED POTATOES A SPECIALTY

Potato growers, wherever located, who have been planting run-out, weak and diseased potatoes should all change to Northern or Eastern high-grade certified seed. It has been demonstrated by experiment Station specialist co-operating with growers in Indiana, over several years that certified seed increased the yield 40 bu. per acre over ordinary seed. Definite records on 9,700 farms in Indiana in 1923, planting 84,000 bushels of certified seed potatoes gave an increased yield of 44.1 bu. per acre. The additional expense for certified seed is a trifle, compared with such results.

We want the orders of large planters of POTATOES. Let us know your wants, get our prices

EVERETT'S EARLY 6-WEEKS MARKET

POTATO

Under favorable soil and weather conditions has been ready for market or table in six weeks from planting. Others may equal it in size, productiveness and quality, but in earliness the Six-Weeks Market is unapproached.

Market gardeners and others who want the best extra early potato should not fail to plant this variety. Besides being so early, it is a great yielder, having yielded for one grower 420 bu. per acre, the next year 380 bu. and two later over 600 bu. It is also a good Winter keeper. For Winter it should be planted late.

PRICE—Everybody knows the very early potatoes bring the high prices. You can afford to pay the moderate prices we ask for the 6-WEEKS MARKET. By mail postpaid, 1 lb. 30c; 4 lbs. \$1.00 By freight or express, 1/4 bu. 75c; 1/2 bu. \$1.25; 1 bu. \$2.25. 2 bu. \$4.00 Ask for price on larger quantities.

6 Weeks, 5 Days, Fine Tubers

'Tis now six weeks and five days since I planted the Six-Weeks Market Potatoes. They did not sprout very quickly, but they have nice, large tubers on them. Are the earliest potato for this climate I ever saw.—C. L. RICEL, Armstrong Co., Pa.

Fine in Six Weeks

The Early Six-Weeks are grand. We had fine potatoes in six weeks from planting; dry and mealy as old potatoes. Early Ohio came three weeks later.—L. S. Johnson, Clearfield Co., Pa.

GREEN MOUNTAIN

THE KING OF MAIN CROP POTATOES

The greatest yield ever known, at the rate of 1.391½ bu. per acre, was grown of this variety. Also we paid probably the highest price for the original seed that was ever paid for any potato—\$300 for one SUGAR barrel full.

NOTWITHSTANDING THAT this great potato has been grown many years, we sell large quantities each year both to customers of former years, who want to get a change of seed, and new ones. It is a medium late potato. A very strong grower and is extraordinary in productiveness. The skin is inclined to cream color, making it very beautiful. Covered with a netting which usually denotes good table qualities.

PRICE By mail postpaid, 1 lb. 30 c; 4 lbs. \$1.00 By freight or express, ¼ bu. 75c; ½ bu. \$1.25; 1 bu \$2.25; 2 bu. \$4.00.

Bliss Triumph (EXTRA EARLY)—This is the standard variety in most of the Southern producing sections to ship to Northern markets and has numerous warm friends in the North. The plant grows rapidly and the tubers are medium size, light red color, with whitest flesh. Its extra earliness productiveness and handsome appearance and fine table qualities make it a favorite with growers, and buyers.

Early Ohio

The best known early potato. Skin light pink, with small white blotches. It is a good yielder of shapely potatoes of splendid quality. Makes a good Fall and early Winter potato if planted late.

Irish Cobbler (Medium Early)

An excellent variety. One of its good qualities is that it is not apt to set on more tubers than it brings to marketable size. Vines grow short and upright, per-

After having planted and raised crops from your O. K. Seeds for number of years I want to tell you that I have found them the best that I have ever planted.

Jan. 4, '25 J. W. McWHARTER, Haytontville, Ky.,—29.
Nothing could please me more than to put a good word for your vegetable and flowers seeds. The Early Wonder Beet is really early and very delicious. I like the crisp

mitting of close planting. Skin is white and flesh is white. Superior quality. In many sections is preferred to all other early kinds.

Early Rose

This is the good old favorite, known by everybody. Our seed is Northern grown

Rural New Yorker

A main crop potato noted for its heavy yields, good keeping and eating qualities and the esteem in which is held on all markets. The tubers are white, large oval many of them flattened with few eyes even with the surface. Flesh white and of excellent quality. A very heavy yielder on good ground.

PRICE—of all except otherwise priced 1b. 30c; 4 lbs. \$1.00; postpaid. By express or freight ¼ bu. 75c; ½ bu. \$1.25; 1 bu. \$2.25; 2 bu. \$4.00. For certified Seed of Early Ohio and Irish Cobbler add 25c per bu.

ness of the head lettuce and the Bells Colossal Tomatoes were just fine. I also had 100 mixed gladiolus bulbs and they were a do en different colors and the flowers were superb. Also the Zinnias looked like large dahlias especially the cactus variety. I can assure you I have been a satisfied customer and hope to remain so in the future.
Jan. 1, '25. ACATHA C. WEIS HAAR, Matteson, Ills.—32

Tulip Tree

TULIP TREES

Indiana's official tree. Entirely hardy, rapid grower beautiful shape, bright glossy green foliage, holds its leaves till frost. Blooms profusely in Spring. Flowers yellowish-green, blotched with orange, tulip shape; fragrant. Attract butterflies. Wonderful bee pasture. Called King of Shade and Ornamental Trees. Will be one of the most attractive features on any lawn. Mailing size 4 to 6 ft. Each. \$1.75. delivered. Express size 8 to 10 ft. each, \$2.00.

Among the seeds we ordered from you last season I want to mention particularly the Harris Earliest Pepper, New York and Big Boston Lettuce, also Wayahead Lettuce. Early Wonder beet, Zinnias etc. All of these gave perfect satisfaction and we expect to order all O. K. seeds again this year. J. E. BAN, R. F. D. 4, Martineville, Ind.

I have been in the plant business for several years and can say the Harris Earliest Pepper is by far the earliest pepper I have ever found yielding an abundance and continues to bear until frost. I have raised the Guiana Butter Bean for several years, and this year I raised one that weighed 14 lbs. and measured 2 feet 8 inches long and 1 1/2 inches around. OTTO CRAYCROFT, Box 22, Sandoval N.C. 26.

Gentlemen:—

I tried a package of the "Harris Earliest Peppers" and now I can say it was the finest I have ever raised. It was sweet and mild, flavored and very prolific. It continued bearing until frost. C. E. SAYRE, R. No. 1, Box 48, Millbrook, W. Va., -19.

Sure, I will say that your Big BOSTON lettuce is far ahead of any lettuce I have ever used. Grows fast, large heads and tender. JOHN W. ALLEN, Noblesville, Ind. Jan. 6, 1924.

The BELLS COLLOSOL tomatoes were fine. I raise your tomatoe baskets full of 4 hills and it was not a good year for tomatoes. W. L. HEATON. Morattico, V. -4 Jan. 1925.
